Suleiman F. Ogunyinka
Assistant Statisticians

This Quarterly Statistical Bulletin is of the Central Bank of Nigeria.

All enquiries, comments, and suggestions should be addressed to:

The Director, Statistics Department,

Central Bank of Nigeria, P.M.B. 0187, Garki, Abuja.

# Vision of the CBN

By 2015: Be the model central bank delivering price and financial system stability and promoting sustainable economic development

# Mission of the CBN

To be proactive in providing a stable framework for the economic development of Nigeria, through the effective, efficient and transparent implementation of monetary exchange rate policy and management of the financial sector

# **Mandate of the Statistics Department**

To collect, analyze and manage data on all sectors of the economy, in order to provide statistical support to the Bank, the government, international organizations and other stakeholders

# Monetary Survey Report for December 2012

# **EXECUTIVE SUMMARY**

he consolidation of the end-December 2012 provisional accounts of the monetary authorities, the accounts of the deposit money banks (DMBs) and the non interest banks (NIBs) generated the end-December 2012 monetary survey report (provisional) comprising broad money supply and its determinants.

The highlights of the monetary survey analysis for December 2012 are as follows:

- ♦ The broad measure of money supply (M₂) both year-to-date and year-on-year increased by N1,825.17 billion or 13.72 per cent to N15,128.7 billion in December 2012. Thus, M₂ growth was 10.92 percentage points below the proposed target of 24.64 per cent for fiscal 2012.
- ◆ The 13.72 per cent year-to-date expansion in M₂ was due mainly to the increases of 14.73 and 7.13 percentage points in the relative contributions of net foreign assets and credit to core private sector. These more than outweighed the 6.25 percentage point decrease in the relative contribution of credit to government (net).
- ♦ Net domestic credit (NDC) increased from its level in December 2011 by N270.71 billion or 1.98 per cent to N13,957.4 billion in the review period. As such, NDC was 50.19 percentage points below the proposed target of 52.17 per cent for fiscal 2012.
- ♦ The 167.25 per cent year-to-date decline in net credit to government was 228.72 percentage points lower than the proposed target of 61.47 per cent for fiscal 2012.
- ◆ Credit to private sector rose from its level in December 2011 by N1,101.7 billion or 7.77 per cent to N15,285.29 billion. At this level, it was 39.73 percentage points lower than the proposed target of 47.50 per cent for fiscal 2012.
- Net foreign assets increased by N1,960.07 billion or 27.46 per cent to N9,098.7 billion year-to-date. The 27.46 per cent expansion in NFA was 20.86 percentage points higher than the proposed target of 6.60 per cent for fiscal 2012.
- ◆ The 5.39 per cent decline in OAN from its level in December 2011 was accounted for by the decreases of 15.68 and 0.04 percentage points in the relative contribution of OAN of CBN and non interest banks (NIBs), which was, however, moderated by the increase of 10.32 percentage points in the relative contributions of OAN of DMBs .
- ◆ The 13.72 per cent year-on-year and year-to-date expansion in M₂ in December 2012 was largely accounted for by the 11.51 and 1.12 percentage point increases in the relative contributions of quasi -money and demand deposits at deposit money banks.

### 1.0 **Money Supply**

Money (M1) Quasi-money

The broad measure of money supply (M<sub>2</sub>) both year-to-date and year-on-year increased by N1,825.17 billion or 13.72 per cent to N15,128.7 billion in December 2012. Thus, M2 growth was 10.92 percentage points below the proposed target of 24.64 per cent for fiscal 2012.

On annualized basis, M2 increased by the same 13.72 per cent (Table 1). When compared with its growth in the corresponding period of 2011, growths of M<sub>2</sub> both on year-on-year and year-to -date bases were the same

in December 2012 (Fig 1(a)).

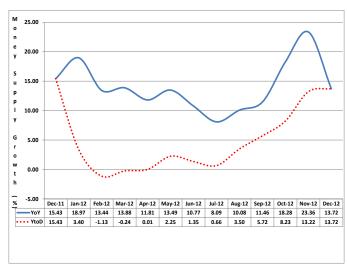

Fig 1(a): M<sub>2</sub> YoY and YtoD growth

### 1.1 Net Domestic Credit

Net domestic credit (NDC) increased from its level in December 2011 by N270.71 billion or 1.98 per cent to N13,957.4 billion in the review period. As such, NDC was 50.19 percentage points below the proposed target of 52.17 per cent for fiscal 2012. On annualized basis, it also increased by the same 1.98 per cent (Table I).

The expansion in NDC was attributable to the increase in credit to private sector by N1,101.7 billion or 7.77 per cent (Table I).

# 1.1.1 Net Credit to Government

The 167.25 per cent year-to-date and year-on-year decline in net credit to government was 228.72 percentage points lower than the proposed target of 61.47 per cent for fiscal 2012. The trends of growth in net credit to Government on year-on-year and end-December 2011 to date bases are shown in Fig 1(b).

## 1.1.2 Credit to Private Sector

Credit to private sector rose from its level in December 2011 by N1,101.7 billion or 7.77 per cent to N15,285.29 billion. At this level, it was 39.73 percentage points lower than the proposed target of 47.50 per cent for fiscal 2012, (Table I and Fig 1(c)).

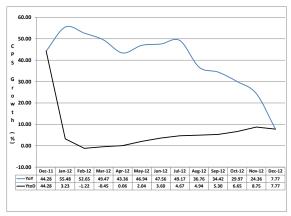

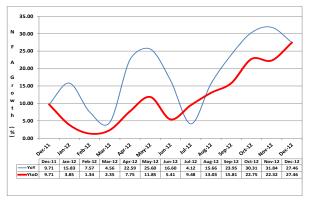

Fig 1(c): CPS YoY and YtD growth

# 1.2 Net Foreign Assets

Net foreign assets increased by N1,960.07 billion or 27.46 per cent to N9,098.7 billion year-to-date. The 27.46 per cent expansion in NFA was 20.86 percentage points higher than the proposed target of 6.60 per cent for fiscal 2012, (Table I and Fig 1(d)).

Fig 1(d): NFA YoY and YtoD growth

# 1.3 Other Assets (Net)

Other assets net (OAN), both year-to-date and year-on-year, declined by N405.61 billion or 5.39 per cent (Table 1, Appendix IV and Fig 1(e)).

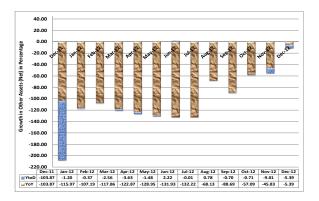

Fig 1(e): OAN YoY and YtD growth

The 5.39 per cent decline in OAN from its level in December 2011 was accounted for by the decreases of 15.68 and 0.04 percentage points in the relative contributions of OAN of CBN and non interest banks (NIBs), which was, however, moderated by the increase of 10.32 percentage points in the relative contribution of OAN of DMBs (Fig 1(f)).

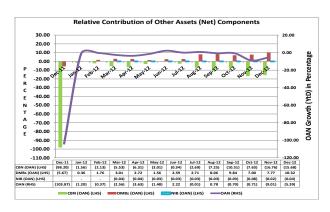

Fig 1(f): Relative Contribution of CBN and DMBs Other Assets (Net) Components

The year-to-date decline in OAN was also attributable majorly to the increases of N2,179.7 billion and N682.4 billion in unclassified liabilities of the CBN and DMBs required reserves at CBN, respectively, which were, however, dampened by the N1,696.7 billion and N613.3 billion increases in unclassified assets of CBN and DMBs balances with CBN, respectively (Appendix V).

# 2. Determinants of Money Supply

The 13.72 per cent year-to-date and year-on-year expansion in  $M_2$  was due mainly to the increases of 14.73 and 7.13 percentage points in the relative contributions of net foreign assets and credit to core private sector. These more than outweighed the 6.25 percentage point decrease in the relative contribution of credit to government (net) (Table II).

Tal	ole II: Determinan	ts of M2		
	Rel. Contribtion, Year-on_Year (%)			
	Dec-11	Nov-12	Dec-12	Dec-12
Net Foreign Assets	5.48	11.98	14.73	14.73
Net Domestic Assets	9.94	1.24	(1.01)	(1.01)
Domestic Credit	43.19	6.34	2.03	2.03
Government (net)	5.42	(2.99)	(6.25)	(6.25)
Private Sector		9.33	8.28	8.28
State & Local Govt	1.24	0.99	1.15	1.15
Non-financial public enter		-		-
Core Private Sector	36.53	8.34	7.13	7.13
Other assets(net)	(33.25)	(5.09)	(3.05)	(3.05)
Total Monetary Assets	15.43	13.22	13.72	13.72

The relative contribution of NFA to the year-to-date growth of  $M_2$  of 14.73 percentage points in December 2012 was higher than the 11.98 percentage points recorded in the preceding month (Fig 2 and Table II).

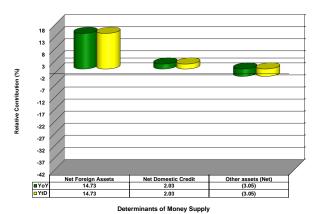

Fig 2: Determinants of M<sub>2</sub> Growth from end-December 2011 and Year-on-Year

# 3. Components of Money Supply

The 13.72 per cent year-on-year and year-to-date expansion in  $M_2$  in December 2012 was largely accounted for by the 11.51 and 1.12 percentage point increases in the relative contributions of quasi-money and demand deposits at deposit money banks. All the components of  $M_2$  increased during the period under review (Table III and Fig 3).

Та	ıble III: Componen	ts of M2		
	Relative Contribution End-D	Rel. Contribtion, Year-on_Year

# Deposit Money Banks Activities Report for December 2012

# **EXECUTIVE SUMMARY**

- Total assets/liabilities of deposit money banks (DMBs) in December 2012 stood at N21,304.0 billion, showing a decline of N543.4 billion or 2.5 per cent below the level recorded in the preceding month, but an increase of N1,907.3 billion or 9.8 per cent above the level as at end-December 2011.
- When compared with the level recorded in the preceding month, inter-bank liabilities fell by N207.7 billion or 29.4 per cent .
- The major sources of funds in December 2012 were from the decline in unclassified assets and claims on private sector by N428.2 billion and N177.7 billion, respectively.
- In December 2012, funds were largely utilised by laying off unclassified liabilities and accretion to reserves to the tune of N380.2 billion and N150.0 billion, respectively.
- Aggregate credit to the domestic economy (net) declined by 1.9 per below the level recorded in the preceding month, but increased by 4.2 per cent above the level at end-December 2011.
- Foreign assets (net) of the DMBs stood at N1,648.8 billion in the review month. At this level, the foreign assets (net) was N102.2 billion or 5.8 per cent below the level in the preceding month.
- The interest rate spread between the maximum lending rate and weighted average demand, savings and time/term deposits decreased by 0.01 percentage points to 20.84 per cent

## 1. Total Assets/Liabilities

Total assets/liabilities of deposit money banks (DMBs) in December 2012 stood at N21,304.0 billion, showing a decline of N543.4 billion or 2.5 per cent below the level recorded in the preceding month, but an increase of N1,907.3 billion or 9.8 per cent above the level as at end-December 2011. The N543.4 billion or 2.5 per cent fall in total assets was attributed to the decline of unclassified assets, claims on private sector, foreign assets and claims on other financial institutions by N428.2 billion or 13.1 per cent, N177.7 billion or 1.8 per cent, N115.6 billion or 5.4 per cent and N31.3 billion or 12.0 per cent, respectively. This decline outweighed the increases in reserves, claims on central government and claims on state and local government by N149.7 billion or 8.5 per cent, N38.6 billion or 1.0 per cent and N21.0 billion or 3.3 per cent, respectively.

Similarly, decreases in unclassified liabilities, money market instruments and time, savings and foreign currency deposits by N380.2 billion or 13.1 per cent, N131.0 billion or 48.1 per cent and N118.6 billion or 1.4 per cent respectively, largely accounted for the decline in total liabilities. This decline was, however, moderated by the N104.4 billion or 10.4 per cent and N26.2 billion or 0.5 per cent increases in central government deposits and demand deposits, respectively (Table 1).

## 1.2 Unclassified Assets

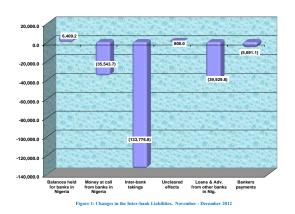

At N2,847.4 billion, unclassified assets decreased by N428.2 billion or 13.1 per cent and N2.6 billion or 0.1 per cent below the levels in the preceding month and end -December 2011, respectively. The decline in unclassified assets was attributed to the fall in all the subcomponents with the exception of certificate of deposit Table 1).

# 1.3 Credit from the Central Bank

The Central Bank's credit to the DMBs decreased by N31.3 billion or 12.1 per cent to N228.0 billion in December 2012. This was accounted for by N30.5 billion or 12.2 per cent and N0.8 billion or 8.7 per cent decrease in loans and advances from CBN and CBN overdraft to banks, respectively (Table 1).

### 1.4 Inter - Bank Liabilities

When compared with the level recorded in the preceding month, inter-bank liabilities fell by N207.7 billion or 29.4 per cent (Table 1). The decline was largely attributed to decreases in inter-bank takings, loans and advances from other banks in Nigeria and money at calls from banks in Nigeria by N133.8 billion or 70.2 per cent, N40.0 billion or 20.7 per cent and N35.5 billion or 86.8 per cent, respectively (Figure 1)

# 1.5 Unclassified Liabilities

Unclassified liabilities stood at N2,525.4 billion in the review month, showing decreases of N380.2 billion or 13.1 per cent and N29.8 billion or 1.2 per cent below the levels recorded in the preceding month and at end

## 2. Sources and Uses of Funds

The major sources of funds in December 2012 were from the plunge in unclassified assets and claims on private sector by N428.2 billion and N177.7 billion, respectively. Other large sources included the decrease in foreign assets and rise in central government deposits by N115.6 billion and N104.4 billion, respectively.

In December 2012, funds were largely utilised by laying off unclassified liabilities and accretion to reserves to the tune of N380.2 billion and N150.0 billion, respectively. Other significant uses were declines in money market instruments, time, savings and foreign currency deposits as well as increase in claims on central government by N130.9 billion, N118.6 billion and N38.6 billion, respectively (Table 2).

### 3. Claims on the Domestic Economy

Aggregate credit to the domestic economy (net) declined by 1.9 per cent below the level recorded in the preceding month, but increased by 4.2 per cent above the level at end-December 2011. The decrease was attributed to the fall in all the sub-components except claims on state and local governments which increased by N21.0 billion or 3.3 per cent (Table 3; Figure 2).

# 3.1 Net Claims on Federal Government

Net claims on the Federal Government stood at N2,752.0 billion, showing a decrease of 2.3 per cent and 8.8 per cent below the levels in the preceding month and at end-December 2011, respectively. The decline was a reflection of the decrease of 4.0 per cent in development stocks/FGN bonds. This decrease was, however, moderated by the increase of 4.9 and 0.4 per cent in treasury bills and loans and advances to central government, respectively (Table 3).

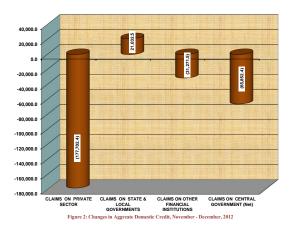

### 3.2 Claims on State and Local Governments

At N665.9 billion, total credit to state and local govern-

ments increased by 3.3 per cent and 29.7 per cent above the levels in the preceding month and at end-December 2011, respectively. The 3.3 per cent increase was accounted for by the 3.3 per cent rise in loans and advances to state governments and 2.3 per cent increase in loans and advances to local governments (Table 3).

# 3.3 Total Loans and Advances (Net)

In December 2012, total loans and advances of the DMBs to the domestic economy stood at N6,833.6 billion, representing a decrease of 3.2 per cent below the level recorded in the preceding month, but an increase of 5.3 per cent above the level at end-December 2011 (Table 3).

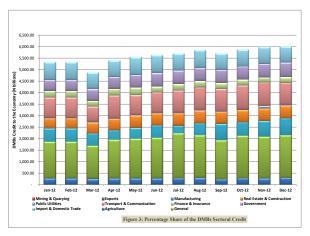

### 3.4 Domestic Investments

At N6,417.7 billion, the domestic investments of the DMBs fell by 0.6 per cent below the level in November 2012, but increased by 2.4 per cent above the level at end-December 2011 (Table 3).

### 4. Sectoral Distribution of Credit

Total credit extended to the private sector by the DMBs in the review month amounted to N8,150.0 billion. This showed an increase of 1.0 per cent above the level in the preceding month. Further analysis revealed that while the preferred sectors got 39.5 per cent of the total credit, less preferred sectors gulped 38.1 per cent and other (general) received 22.3 per cent (Table 4).

5.

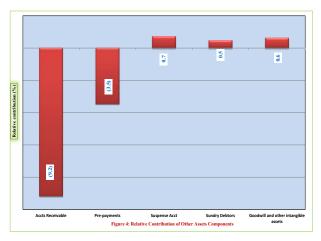

# **Net Foreign Assets**

Foreign assets (net) of the DMBs stood at N1,648.9 billion in the review month. At this level, the foreign assets (net) was N102.2 billion or 5.8 per cent below the level in the preceding month. The decrease was accounted for by the decline of N115.6 billion or 5.4 per cent in foreign assets which was moderated by the decline of N13.4 billion or 3.6 per cent in foreign liabilities (Table 7).

# 6. Analysis of Other Assets/Liabilities

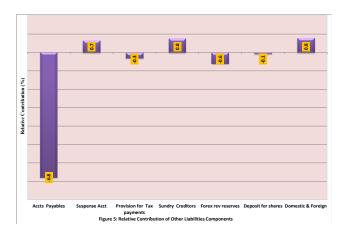

### 6.1 Other Assets

"Other assets" of the DMBs stood at N1,158.6 billion, representing a decrease of N172.3 billion or 12.9 per cent below the level reported in the preceding month (Table 5). The decrease in "other assets" reflected the fall in the relative contributions of accounts receivable, pre-payments and unamortised reserves for loan losses by 9.2, 3.5 and 0.9 percentage points, respectively (Figure 4).

### 6.2 Other Liabilities

Other liabilities" of the DMBs stood at N1,754.1 billion, showing a decrease of N186.4 billion or 9.6 per cent below the level recorded in the preceding month (Table 5). The fall in "other liabilities" was accounted for by the decreases in the relative contributions of accounts payable, forex revaluation reserves, provision for tax payments and deposits for shares by 6.8, 0.6, 0.3 and 0.1 percentage points, respectively (Figure 5).

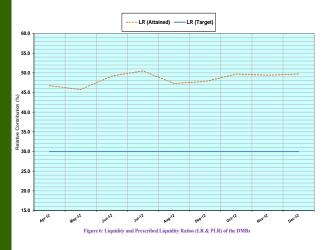

### 7. Some Financial Ratios

# 7.1 Liquidity Ratio

Total specified liquid assets of the DMBs stood at N6,176.0 billion in December 2012, representing an increase of N1.6 billion above the level recorded in November 2012. The rise reflected the increases in cash related items and liquid assets structure by N116.2 billion or 29.6 per cent and N105.1 billion or 4.9 per cent, respectively.

Total current liabilities of the DMBs decreased by N153.0 billion or 1.0 per cent to N14,455.8 billion in the review month. The fall was attributable to decreases in other deposits and other current liabilities by N177.9 billion or 5.8 per cent and N30.3 billion or 30.4 per cent, respectively (Table 6).

On the average, the DMBs achieved a liquidity ratio of 49.7 per cent in December 2012. This ratio was 19.7 percentage points above the minimum target of 30.0 per cent prescribed for fiscal 2012, and a marginal increase of 0.3 percentage points above the level reported in the preceding month (Table 6).

# 7.2 Loans to Deposit Ratio

The DMBs' loans-to-deposit ratio, expressed as the ratio of loans and advances (net) to total current liabilities was 42.3 per cent in the review month, compared with 42.6 per cent recorded a month earlier. The ratio achieved in the review month was 37.7 percentage points below the prescribed maximum prudential target of 80.0 per cent (Table 6).

# 8. Interest Rate Movements

Most of the average DMBs interest rates trended upward in the month under review, except for one month and seven days which fell by 0.25 and 0.09 percentage points, respectively.

The weighted average deposits rate (demand, savings, time/term) decreased by 0.07 percentage points to 3.77 per cent. The maximum lending rate decreased by 0.09 percentage points to 24.61 per cent.

Consequently, the interest rate spread between the maximum lending rate and weighted average demand, savings and time/term deposits decreased by 0.01 percentage points to 20.84 per cent.

# Report on the Activities of Other Financial Institutions for 4th Quarter, 2012

### Introduction

Other Financial Institutions (OFIs) are non-bank financial institutions that play important financial intermediary roles. In order to ensure the promotion of a safe and sound financial system, the activities of some of the OFIs are under the supervisory purview of Central Bank of Nigeria while others have independent defined regulators.

In Nigeria, the OFIs are made up of the Microfinance Bank (MFBs), Primary Mortgage Banks (PMBs), Finance Companies (FCs), Bureau De Change (BDCs), Pension Funds, Insurance Companies and the Development Finance Institutions (DFIs) which are made up of the Nigerian Export-Import Bank (NEXIM), Bank of Industry (BOI), Bank of Agriculture (formerly Nigerian Agricultural Co-operative and Rural Development Bank), The Infrastructure Bank (formerly Urban Development Bank (UDB) and the Federal Mortgage Bank of Nigeria (FMBN). These DFIs are essentially sector based and therefore provide medium and long terms funds to real sector of the economy to enhance sustainable economic development.

Other Financial Institutions Statistics Office (OFISO) in Monetary and Financial Statistics Division, Statistic Department, has the mandate to monitor, collect/compile, analyze and manage data on all OFIs in order to provide statistical support to the Bank's Management for decision making and policy design. Thus, this compendium analyses the Q4 2012 activities report of OFIs.

The report is structured into four sections. Section one reports the activities of depository institutions, made up of Microfinance Banks and Primary Mortgage Banks. Section two looks at the activities of other financial intermediaries (FCs and BDCs). The activities of development finance institutions (BOI, TIB, NEXIM and BOA) and pension funds are reported in sections three and four, respectively.

### Executive Summary

- Total assets/liabilities of the microfinance banks stood at N189.3 billion during the period under review. The major sources of funds was the contraction in fixed assets to the tune of N12.2 billion. Funds was largely utilized through the contraction in shareholders' fund to the tune of N19.8 billion. The microfinance banks' aggregate credit to domestic economy amounted to N94.2 billion.
- Total assets/liabilities of the PMBs stood at N348.1 billion, representing a decrease of 0.7 per cent below the level reported in the preceding quarter. The major sources of funds were the expansion in shareholder's fund and contraction in other assets by N6.5 billion and N4.9 billion, respectively. Aggregate credit to the domestic economy by the PMBs decreased by 0.9 per cent to N220.3 billion during the period under review. The PMBs' mortgage assets to total assets ratio was 24.0 per cent against the minimum benchmark of 30 per cent.
- Total assets/liabilities of the 65 FCs stood at N78.3 billion in Q<sub>4</sub> 2012. Finance companies' aggregate credit to the domestic economy declined by N19.5 billion or 32.4 per cent. Average shareholders fund stood at N114.1 million as against the prescribed minimum of N20.0 million.
- Total foreign exchange purchases of the 500 BDCs returns in Q<sub>4</sub> 2012 amounted to US\$285.43 million. At an average exchange rate of N156.02/US\$, the BDCs' foreign exchange purchases were valued at N44,679.17 million during the period under review. Aggregate foreign exchange sales in Q<sub>4</sub> 2012 stood at US\$285.43 million. The value of sales in Naira terms amounted to N45,075.82 million.
- Total assets/liabilities of the Bank of Industry (BOI) stood at N222.3 billion. Shareholders' funds (share capital, general reserves and profit /loss) amounted to N15.0 billion in Q<sub>4</sub> 2012. Aggregate credit to domestic economy stood at N94.0 billion. Under the N535 billion intervention fund, N181.4 billion was disbursed to both power and aviation, while N229.2 billion was accessed by the SME and manufacturing sector.
- Total assets/liabilities of TIB in Q4 2012 amounted to N19.9 billion, representing an increase of 1.3 per cent
  above the level reported in the preceding quarter. Aggregate credit to the domestic economy stood at N13.1 billion
  during the period under review while the intervention funds managed by the bank stood at N91.0 billion during
  the period under review.
- Total assets/liabilities of NEXIM bank stood at N48.2 billion, representing an increase of 3.4 per cent above the level reported in the preceding quarter. The major sources of funds of the bank was the expansion of N1.6 billion in shareholders' fund. Funds were majorly utilized through the expansion of N1.9 billion in credit to the domestic economy. The current liabilities of NEXIM stood at N4.3 billion, representing a decrease of N0.1 billion or 1.2 percent below the level reported in the preceding quarter.
- Total assets/liabilities of the Bank of Agriculture stood at N28.9 billion in the Q<sub>4</sub> 2012. The major source of funds was through the expansion in shareholders' fund to the tune of N16.0 billion. Total liquid assets of the Bank of Agriculture during the review period stood at N10.3 billion. Total deposits mobilized by the bank stood at N6.3 billion.
- Total assets/liabilities of the pension funds stood at N3.2 trillion in the Q4 2012. Total ordinary shares of the pension funds during the review period stood at N434.3 billion. The Government securities aggregate amounted to N1.9 trillion while the real estate property fund grew by 5.2 per cent to N189.0 billion during the review period.

# Section One Depository Institutions

### 1.1 Microfinance Banks' Activities

# 1.1.1 Comparative Statements of Assets and Liabilities

As shown in table 1.1.1, total assets/liabilities of the 653 microfinance banks that reported in the Q<sub>4</sub> 2012 stood at N189.3 billion, representing a decrease of N14.1 billion or 6.9 per cent below the level reported in the preceding quarter, but an increase of N71.4 billion or 60.6 per cent above the level recorded in the corresponding quarter of 2011. The 6.9 per cent decline in total assets reflected the decreases of N12.2 billion or 49.1 per cent, N7.9 billion or 7.8 per cent and N0.9 billion or 1.4 per cent in fixed assets, domestic credit and liquid assets, respectively. These decreases were, however, moderated by the increase of N6.9 billion or 50.7 per cent in other assets.

Similarly, the contraction in total liabilities was largely accounted for by the decreases of N19.8 billion or 31.7 per cent and N1.6 billion or 25.5 per cent in shareholders' fund and takings from banks/other financial institutions, respectively. These decreases were, however, moderated by the increases of N4.4 billion or 4.7 per cent and N2.9 billion or 8.9 per cent in deposits and other liabilities, respectively (Table 1.1.1).

#### 1.1.2 Sources and Uses of funds

The major sources of funds were the contractions in fixed assets and credit to domestic economy to the tune of N12.2 billion and N7.9 billion, respectively. Other noticeable sources were the expansions in de-

posits and other liabilities by N4.4 billion and N2.9 billion, respectively (Table 1.1.2 and Fig. 1.1.1).

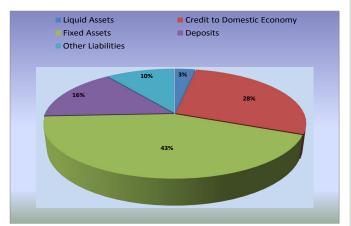

Fig. 1.1.1: Sources of funds

Funds were largely utilized through the contraction of shareholders' fund and expansion of other assets which absorbed N19.8 billion and N6.9 billion, respectively. Other noticeable funds utilization included the contraction of N1.6 billion in placements from banks (Table 1.1.2 and Figure 1.1.2).

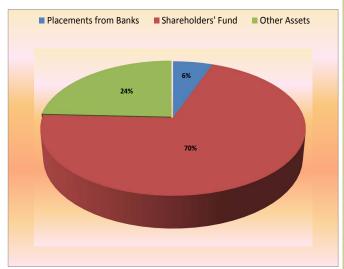

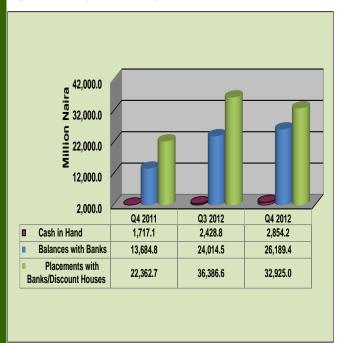

Fig. 1.1. 2: Uses of funds

### 1.1.3 Liquid Assets

Total liquid assets of the microfinance banks during the review period stood at N62.0 billion, representing a decrease of N0.9 billion or 1.4 per cent below the level reported in the preceding quarter, but an increase of N24.2 billion or 64.1 per cent above the level recorded in the corresponding quarter of 2011. The 1.4 per cent decline in liquid assets was accounted for by the decrease of N3.5 billion or 9.5 per cent in placement with banks/discounts houses. This decrease was, however, moderated by the increases of N2.2 billion or 9.1 per cent and N0.4 billion or 17.5 per cent in balances with banks and cash in hand, respectively.

Liquid assets constituted 32.7 per cent of micro- ure 1.1.4). finance banks' total assets during the period under review (Table 1.1.1 and Figure 1.1.3).

Fig. 1.1.3: Composition of Liquid Assets

### 1.1.4 Credit to the Domestic Economy

The microfinance banks' aggregate credit to domestic economy amounted to N94.2 billion, representing a decrease of N7.9 billion or 7.8 per cent below the level reported in the previous quarter, but an increase of N34.3 billion or 57.3 per cent above the level in the corresponding period of 2011. The 7.8 per cent decline in domestic credit was largely accounted for by the decreases of N5.8 billion or 6.8 per cent and N2.1 billion or 13.1 per cent in loans & advances and investments in treasury bills, respectively.

Credit to domestic economy accounted for 49.8 per cent of the total assets of microfinance banks in  $Q_4$  2012 (Table 1.1.1 and Figure 1.1.4).

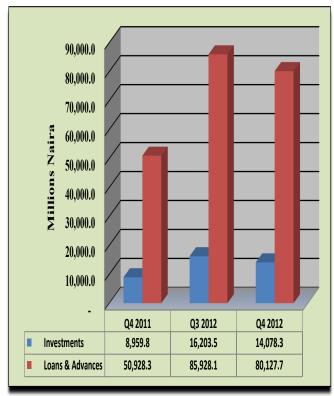

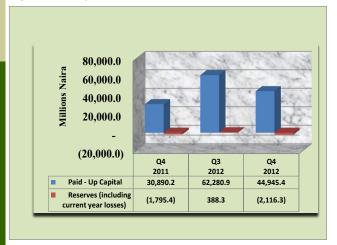

Fig. 1.1.4: Composition of credit to the domestic economy

#### 1.1.5 Shareholders' Fund

Shareholders' fund of the microfinance banks amounted to N42.8 billion in the period under review. This represented a decrease of N19.8 billion or 31.7 per cent below the level reported in the preceding quarter, but an increase of N13.7 billion or 47.2 per cent above the level reported in the corresponding Q<sub>4</sub>, 2011. The 31.7 per cent growth in the shareholders' fund was attributed to the decreases of N17.3 billion and N2.5 billion in paid-up capital and reserves (including current year losses), respectively. Shareholders' fund accounted for 22.6 per cent of the total liabilities of microfinance banks in Q<sub>4</sub> 2012 (Table 1.1.1 and Figure 1.1.5).

Fig. 1.1.5: Composition of Shareholders' fund

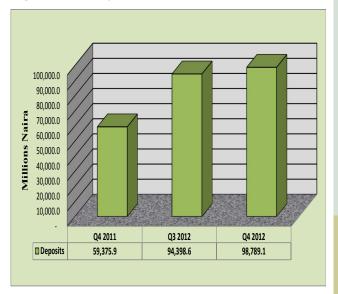

### 1.1.6 Capital Adequacy Requirements

On the aggregate, the microfinance banks complied with the guidelines on capital adequacy requirements during the period under review. Microfinance banks' total qualified capital stood at N42.8 billion or 35.7 per cent of their risk weighted assets. This was 25.7 percentage points more than the 10.0 per cent minimum target prescribed for fiscal 2012 (Table 1.1.1 and Figure 1.1.5).

### 1.1.7 Compulsory Investment in Treasury Bills

The microfinance banks' aggregate investment in treasury bills in the  $Q_3$  2012 amounted to N14.1 billion or 14.3 per cent of their deposits. Thus, the investment in treasury bills exceeded the 5.0 per cent minimum target prescribed for fiscal 2012 by 9.3 percentage points (Table 1.1.1 and Figure 1.1.6).

Fig. 1.1.6: Total Deposits

### 1.2 Primary Mortgage Banks' Activities

#### 1.2.0 Introduction

The Primary Mortgage Banks (PMBs) activities report for Q<sub>4</sub> 2012 was based on the consolidated accounts of 82 Mortgage Banks. The reduction in the number of PMBs were necessitated by the removal of the revoked PMBs, of which approval was granted in October 2012.

### 1.2.1 Comparative Statements of Assets and Liabilities

Total assets/liabilities of the PMBs stood at N348.1 billion, representing a decreases of N2.4 billion or 0.7 per cent below the level reported in preceding quarter but, an increase of N6.0 billion or 1.8 per cent above the level recorded in the corresponding period of 2011.

The 0.7 per cent contraction in total assets reflected the decreases of N4.9 billion or 9.7 per cent, N1.9 billion or 0.9 per cent and N1.4 billion or 7.7 per cent in other assets, domestic credit and fixed assets, respectively. These decreases were, however, moderated by the increase of N5.8 billion or 9.7 per cent in liquid assets.

Similarly, the 0.7 per cent decrease in total liabilities was largely accounted for by the decreases of N7.3 billion or 31.2 per cent, N2.9 billion or 5.0 per cent and N2.8 billion or 19.9 per cent in long term loans, other liabilities and placements from banks, respectively. These decreases were, however, moderated by the increases of N6.5 billion or 9.6 per cent and N3.2 billion or 1.9 per cent in shareholders' fund and deposits, respectively (Table 1.2.1).

#### 1.2.2 Sources and Uses of Funds

The major sources of funds were the expansion in shareholders' fund to the tune of N6.5 billion. Other noticeable sources were the contraction in other as-

sets, increase in deposits, reductions in credit to domestic economy and fixed assets by N4.9 billion, N3.2 billion, N1.9 billion and N1.4 billion, respectively (Table 1.2.2 and Fig. 1.2.1).

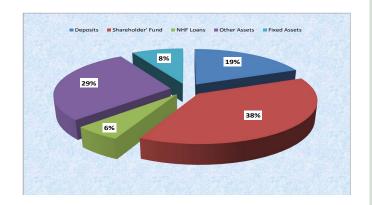

Fig. 1.2.1: Sources of Funds

Funds were largely utilized in the liquidation of long term loans which absorbed N7.3 billion. Other avenues for funds utilization included the expansion in liquid assets and decreases in other liabilities and placements from banks by N5.8 billion, N2.9 billion and N2.8 billion, respectively (Table 1.2.2 and Fig. 1.2.2).

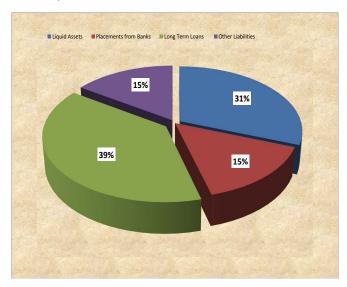

Fig. 1.2.2: Uses of Funds

### 1.2.3 Liquid Assets

Liquid assets of the PMBs during the review period stood at N65.7 billion, representing an increase of N5.8 billion or 9.7 per cent above the level in the preceding quarter. The 9.7 per cent increase in liquid assets was accounted for by the increases of N8.1 billion or 18.5 per cent and N0.4 billion or 46.6 per cent in placements with banks and cash at hand, respectively. These increases were, however, moderated by the decrease of N2.6 billion or 16.9 per cent in balances with banks. The liquid assets constituted 18.9 per cent of the total assets (Table 1.2.1 and Fig. 1.2.3).

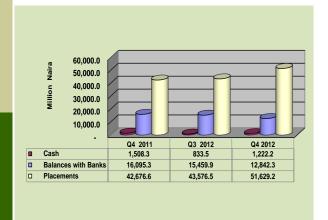

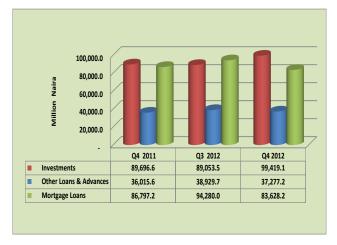

Fig. 1.2.3: Composition of Liquid Assets

### 1.2.4 Credit to the Domestic Economy

The PMBs' aggregate credit to domestic economy stood at N220.3 billion, representing a decrease of N1.9 billion or 0.9 per cent below the level reported in the preceding quarter but, an increase of N7.8 billion or 3.7 per cent above the level recorded in the corresponding quarter of 2011. The decrease in domestic credit was largely driven by the decreases of N10.7 billion or 11.3 per cent and N1.7 billion or 4.2 per cent in mortgage loans and other loans & advances, respectively. These de-

creases were, however, moderated by the increase of N10.4 billion or 11.6 per cent in investments (Table 1.2.1 and Fig. 1.2.4).

Fig. 1.2.4: Composition of Credit to the Domestic Economy

#### 1.2.5 Shareholders Fund

Shareholders' fund amounted to N74.6 billion, representing an increase of N6.5 billion or 9.6 per cent above the level reported in Q<sub>3</sub> 2012. The 9.6 per cent growth was accounted for by the increase of N11.7 billion in reserves, but recorded a decrease of N5.2 billion in paid—up capital. The shareholders fund constituted 21.4 per cent of the total liabilities (Table 1.2.1 and Fig. 1.2.5).

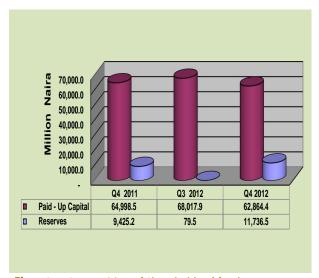

Fig. 1.2.5: Composition of Shareholders' fund

### 1.2.6 Capital Adequacy Requirements

On aggregate, the PMBs complied with the guidelines on capital adequacy requirements during the period under review. The institutions' total qualified capital stood at N74.6 billion or 35.2 per cent of their total risk weighted assets. This was 25.2 percentage points higher than the 10.0 per cent minimum target prescribed for fiscal 2012 (Table 1.2.1).

### 1.2.7 Mortgage Assets to Total Assets Ratio

On the aggregate, the PMBs failed to meet the limit on mortgage assets to total assets ratio in the  $Q_4$  2012. Their ratio of mortgage assets to total assets stood at 24.0 per cent as against the 30.0 per minimum ratio prescribed for fiscal 2012 (Table 1.2.1).

# 1.2.8 Mortgage Assets to Loanable Funds Ratio

In  $Q_4$  2012, the institutions' mortgage assets to loanable funds ratio was below the recommended level. The ratio, which stood at 48.9 per cent, was 11.1 percentage points lower than the 60 per minimum target prescribed for fiscal 2012 (Table 1.2.1 and Figure 1.2.6).

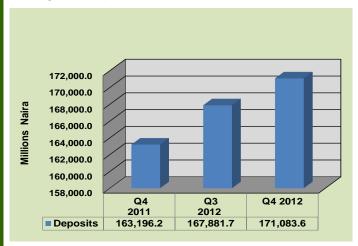

Fig. 1.2.6: Total Deposit

# Section Two Other Financial Intermediaries

### 2.1 Finance Companies' Activities

#### 2.1.0 Introduction

The Finance Companies (FCs) activities report for Q<sub>4</sub> 2012 was based on the consolidated accounts of 65 finance companies. The reduction in the number of FCs were necessitated by the removal of the revoked FCs, of which approval was granted in October 2012.

### 2.1.1 Comparative Statements of Assets and Liabilities

Total assets/liabilities of the 65 FCs in Q<sub>4</sub> 2012 stood at N78.3 billion, representing decreases of N31.2 billion or 28.5 per cent and N36.6 billion or 31.9 per cent below the levels recorded in the preceding quarter and the corresponding period of 2011, respectively.

The 28.5 per cent contraction in the total assets largely reflected the N19.5 billion or 32.4 per cent, N6.0 billion or 30.4 per cent and N4.2 billion or 21.3 per cent decreases in domestic credit, liquid assets and other assets, respectively.

Similarly, the decrease in total liabilities was accounted for by the contractions of N17.5 billion or 26.9 per cent, N7.6 billion or 93.0 per cent and N5.8 billion or 25.1 per cent in total borrowings, long term loans and other liabilities, respectively (Table 2.1.1).

### 2.1.2 Liquid Assets

Total liquid assets of the FCs in the review period stood at N13.6 billion, representing decreases of N6.0 billion or 30.4 per cent and N11.5 billion or 45.7 per cent below the levels recorded in the previous quarter and the corresponding period of 2011, respectively. The contraction in liquid assets was largely due to the N3.3 billion or 23.3 per cent and N2.6 billion or 49.8 per cent decline in placements with other finance companies and balances with banks, respectively (Table 2.1.1 and Figure 2.1.1).

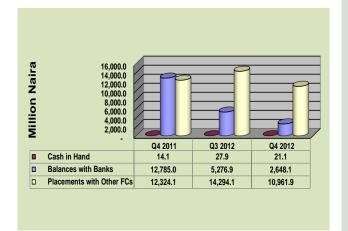

Fig. 2.1.1: Composition of Liquid Assets

#### 2.1.3 Credit to Domestic Economy

Aggregate credit to the domestic economy by the FCs stood at N40.6 billion, representing decreases of N19.5 billion or 32.4 per cent below the levels recorded in the preceding quarter as well as the corresponding period of 2011, respectively. The 32.4 per cent decline in domestic credit was accounted for by the N13.1 billion or 43.7 per cent and N6.4 billion or 21.2 per cent decreases in investment and net loans and advances, respectively (Table 2.1.1 and Figure 2.1.2).

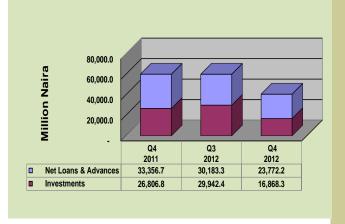

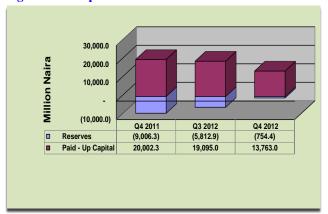

Fig 2.1.2: Composition of Credit to the Domestic Economy

#### 2.1.4 Shareholders' Fund

The shareholders' fund amounted to N13.0 billion, representing a decrease of N0.3 billion or 2.1 per cent below the level reported in the preceding quarter, but an increase of N2.0 billion or 18.3 per cent above the level recorded in the corresponding period of 2011. The 2.1 per cent decline reflected the contraction of N5.3 billion or 27.9 per cent in paid – up capital. The decrease in shareholders' fund was, however, moderated by the increase of N5.1 billion or 87.0 per cent in reserves.

The average shareholders' fund of the reported FCs amounted to N200.1 million as against the N20.0 million minimum prescribed for fiscal 2012. This indicates that, on the average, the FCs are adequately capitalized to undertake their statutory responsibilities (Table 2.1.1 and Figure 2.1.3).

Fig 2.1.3: Composition of Shareholders' Fund

### 2.1.5 Capital Adequacy Requirements

The finance companies had complied fully with the guidelines on capital adequacy requirements. Their total qualified capital stood at N13.0 billion or 19.3 per cent of their total risk weighted assets in Q<sub>4</sub> 2012. This was 6.8 percentage points higher than the 12.5 per cent minimum target prescribed for fiscal year 2012 (Table 2.1.1).

### 2.1.6 Limit of Total Borrowing

On the aggregate, the FCs limit on total borrowings to shareholders' fund during the review period stood at 3.7:1 as against the 10.0:1 maximum ratio prescribed for fiscal year 2012. In addition, the FCs' aggregate loans-to-total borrowing ratio was 50.0 per cent in Q<sub>4</sub> 2012 (Table 2.1.1 and Figure 2.1.4).

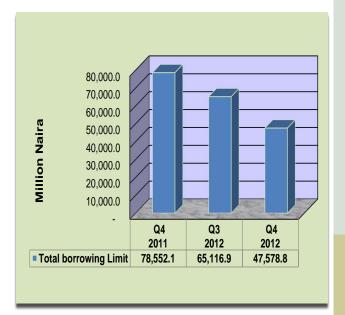

Fig 2.1.4: Total Borrowings

### 2.2 Bureaux De Change Foreign Exchange Transactions

### 2.2.1 Foreign Exchange Purchases

Total foreign exchange purchases by the BDCs in Q<sub>4</sub> 2012 stood at US\$285.43 million, representing a decrease of US\$57.10 million or 16.7 percent below the US\$342.53 million reported in the preceding quarter. The purchases in Q<sub>4</sub> 2012 were US\$295.00 million lower than its level in the corresponding period of 2011 (Table 2.2.1, Table 2.2.2 and Figure 2.2.1).

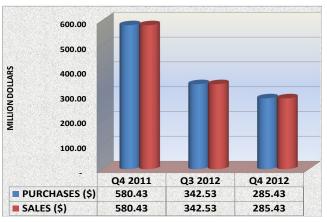

Fig. 2.2.1: Foreign Exchange Purchases and Sales (US Dollars Equivalent)

The monthly average exchange rates applied during the review quarter peaked at N156.82 / US\$ in November 2012 down from N157.21 / US\$ recorded in July 2012 of the previous quarter.

In naira terms, the value of foreign exchange purchased amounted to N44,679.17 million, representing a decrease of N9,053.74 million or 16.8 percent below the amount recorded in the preceding quarter (Table 2.2.2, Figure 2.2.1 and Figure 2.2.2).

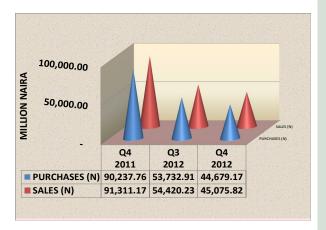

Fig. 2.2.2: Foreign Exchange Purchases and Sales (Naira Equivalent)

### 2.2.2 Foreign Exchange Sales

Total foreign exchange sales by the BDCs in Q<sub>4</sub> 2012 stood at US\$285.43 million, representing a decrease of US\$57.10 million or 16.7 percent below the US\$342.53 million reported in the preceding quarter (Table 2.2.1, Table 2.2.2 and Figure 2.2.1).

During the review quarter, the highest selling monthly average exchange rate was recorded in October 2012, which stood at N158.32 / US\$. In the previous quarter, the average selling monthly rate peaked at N159.39 / USD\$ in July 2012.

In naira terms, the value of foreign exchange sales amounted to N45,075.82 million, representing a decrease of N9,344.40 million or 17.2 percent below the amount sold in the previous quarter (Table 2.2.1, Table 2.2.2 and Figure 2.2.2).

Meanwhile, the least amount of US\$77.90 million was sold in December 2012 at an average exchange rate of N157.23 / US\$ (Table 2.2.1 and Figure 2.2.3).

# 2.2.3 Foreign Exchange Purchases Monthly Growth

When compared with the levels recorded in October and November 2012, the BDCs monthly purchases declined by 28.9 and 21.3 percent to N12,153.96 million in December 2012 (Table 2.2.3, Figure 2.2.4).

A further analysis of the BDCs' foreign exchange purchases in Q<sub>4</sub> 2012 showed that the month of October 2012 recorded the largest purchases of US\$109.11 million valued at N17,090.99 million at a monthly average exchange rate of N156.64/ US\$ (Table 2.2.1, Figure 2.2.3 and Figure 2.2.4).

Fig. 2.2.3: Monthly BDCs Foreign Exchange Purchases and Sales (US Dollars Equivalent) in  $Q_4$ , 2012

# 2.2.4 Foreign Exchange Sales Monthly Growth

Similarly, the BDCs monthly sales declined by 29.1 and 21.3 percent to N12,248.22 million in December 2012 compared with the levels recorded in October and November 2012 (Table 2.2.3 and Figure 2.2.4).

A further analysis of the foreign exchange sold by the BDCs revealed that the month of October, 2012 recorded the highest sales of US\$109.11 million valued at N17,274.30 million at a monthly average exchange rate of N158.32/US\$ Table 2.2.1, Figure 2.2.3 and Figure 2.2.4).

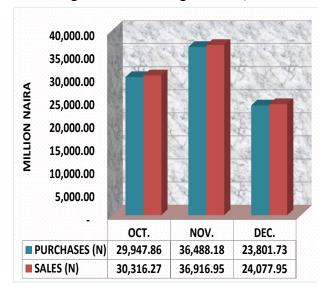

Fig.2.2.4: Monthly BDCs Foreign Exchange Purchases and Sales (Naira Equivalent) in Q<sub>4</sub>, 2012

# Section Three Development Banks

### 3.1 Bank of Industry Activities

# 3.1.1 Comparative Statements of Assets and Liabilities

Total assets/liabilities of the Bank of Industry (BOI) stood at N222.3 billion, representing increases of N2.6 billion or 1.2 per cent and N6.0 billion or 2.8 per cent above the levels reported in the preceding quarter and the corresponding period of 2011, respectively.

The 1.2 per cent increase in total assets reflected largely the N11.2 billion or 13.6 per cent and N2.8 billion or 60.2 per cent rise in domestic credit and other assets, respectively. These increases were, however, moderated by the decrease of N11.6 billion or 9.4 per cent in liquid assets.

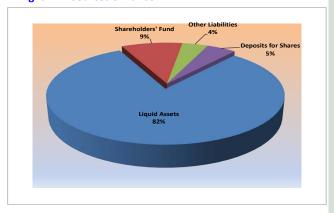

Similarly, the 1.2 per cent rise in total liabilities was attributed to the increases of N1.4 billion or 10.0 per cent, N0.7 billion or 1.7 per cent and N0.6 billion or 0.9 per cent in shareholders' fund, deposit for shares and other liabilities, respectively (Table 3.1.1).

#### 3.1.2 Sources and Uses of Funds

Funds were sourced mainly from the reduction in liquid assets by N11.6 billion and expansion in share-holders' fund by N1.4 billion. Other sources of funds were the expansions in deposit for shares and other liabilities by 0.7 billion and N0.6 billion, respectively.

Funds were largely utilized through the expansion of credit to domestic economy and other assets by N11.2 billion and N2.8 billion, respectively (Table 3.1.2).

Fig. 3.1.1: Sources of Funds

### 3.1.3 Liquid Assets

Total liquid assets stood at N111.5 billion, representing decreases of N11.6 billion or 9.4 per cent and N16.6 billion or 13.0 per cent below the levels reported in the preceding quarter and the corresponding period of 2011, respectively. Liquid assets accounted for 50.2 per cent of the total assets during the period under review (Table 3.1.1 and Fig. 3.1.2).

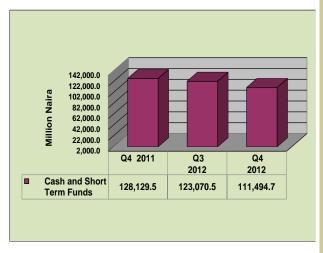

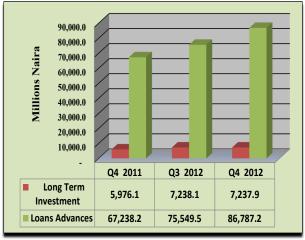

Fig. 3.1.2: Composition of Liquid Asset

### 3.1.4 Credit to the Domestic Economy

Aggregate credit to domestic economy was N94.0 billion, representing increases of N11.2 billion or 13.6 per cent and N20.8 billion or 28.4 per cent above the levels reported in the preceding quarter and the corresponding period of 2011, respectively.

The 13.6 per cent increase in domestic credit was largely accounted for by the increase of N11.2 billion or 14.9 per cent in loans and advances. Domestic credit contributed 37.7 per cent of the total assets of BOI during the review period (Table 3.1.1 and Figure 3.1.3).

#### 3.1.5: Shareholders Fund

Shareholders fund of BOI amounted to N15.0 billion, representing increases of N1.4 billion or 10.0 per cent and N5.0 billion or 50.5 per cent above the levels reported in the preceding quarter and the corresponding quarter of 2011, respectively. The 10.0 per cent rise in shareholders' fund reflected the increases of N1.3 billion or 31.3 and N0.01 billion or 0.4 per cent in profit/loss and reserves,

respectively. Shareholders' fund constituted 6.8 per cent of the total liabilities of BOI in  $Q_4$  2012 (Table 3.1.1 and Figure 3.1.4).

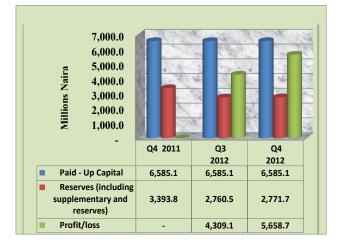

Fig. 3.1.4: Composition of Shareholders' funds

#### 3.1.6 Other Liabilities

Other liabilities stood at N66.4 billion in the period under review, indicating an increase of 0.9 per cent above the level reported in the preceding quarter, but a decrease of 2.1 per cent below the level reported in the corresponding period of 2011 (Table 3.1.1 and Figure 3.1.5).

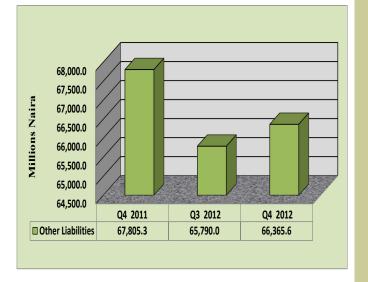

Fig. 3.1.5: Other Liabilities

### 3.1.7 Management of N535 Billion CBN intervention fund

The CBN intervention funds under the management of the BOI amounted to N535.0 billion. The programme consists of two schemes namely, the N235.0 billion Intervention Fund for Refinancing and Restructuring Facilities (RRF) to SME/Manufacturing sector and the N300.0 billion Power and Airline Intervention Funds (PAIF).

The Bank of Industry managed this intervention fund with the participating deposit money banks and the Nigerian Export-Import Bank (NEXIM) serving to disburse the facility to various beneficiaries.

# 3.1.8 N235 Billion Intervention Funds for RRF to SME and Manufacturing Sector

The sum of N235.0 billion was earmarked under this scheme at end-December, 2012. A total of 534 beneficiaries accessed the sum of N229.2 billion from the intervention fund through the participating institutions, while a balance of N5.8 billion was returned to BOI as uncommitted sum by the participating banks (Table 3.1.3 and Fig. 3.1.6).

# 3.1.9 N300 Billion Power and Aviation Intervention Fund (PAIF)

The sum of N250.1 billion, representing 83.4 per cent of the total N300 billion Power and Aviation Intervention Fund was approved by the CBN for disbursement. The amount comprised N151.4 billion or 60.5 per cent and N98.8 billion or 39.5 per cent earmarked for Aviation and Power sectors, respectively.

Accordingly, BOI disbursed the sum of N181.4 billion, with a share of N90.9 billion and N90.5 billion to 18 and 23 beneficiaries in the Aviation and Power sectors, respectively (Table 3.1.4 and Figure 3.1.6).

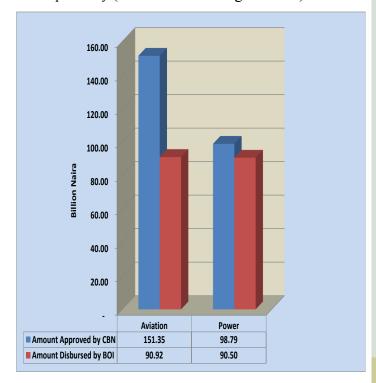

Fig. 3.1.6: Disbursement of N300.00 Billion Intervention

### 3.2 The Infrastructure Bank

# 3.2.1 Comparative Statements of Assets and Liabilities

Total assets/liabilities of The Infrastructure Bank (TIB) in Q<sub>4</sub> 2012 stood at N19.9 billion, representing increases of N0.3 billion or 1.3 per cent and N9.3 billion or 87.6 per cent above the levels reported in preceding quarter and the corresponding period of 2011, respectively. The 1.3 per cent increase in total assets reflected the increases of N0.6 billion or 4.5 per cent and N0.2 billion or 5.6 per cent in domestic credit and other assets, respectively. These increases were, however, moderated by the decrease of N0.6 billion or 24.9 per cent in liquid assets.

Similarly, the expansion in total liabilities was accounted for by the 2.8 and 1.6 per cent increases in total liabilities and capital / reserves, respectively. These increases were, however, moderated by the 4.1 per cent decrease in due to other banks (Table 3.2.1).

#### 3.2.2 Sources and Uses of Funds

The major sources of funds were the contraction in liquid assets and expansion of capital / reserves by N0.6 billion and N0.3 billion respectively (Table 3.2.2 and Figure 3.2.1).

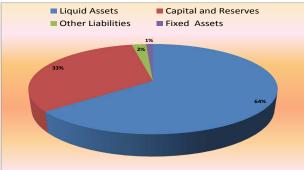

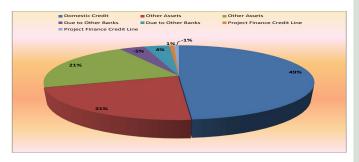

Fig. 3.2.1: Sources of Funds

Funds were used to expand domestic credit and acquire other assets by N0.6 and N0.25 billion, respectively (Table 3.2.2 and Figure 3.2.1).

Fig. 3.2.2: Uses of Funds

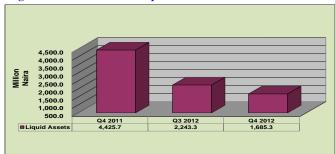

### 3.2.3 Liquid Assets

Total liquid assets of TIB during the review period stood at N1.7 billion, representing decreases of N0.6 billion or 24.9 per cent and N2.7 billion or 61.9 per cent below the levels reported in the preceding quarter and the corresponding period of 2011, respectively.

The 24.9 per cent decline in liquid assets was accounted for by the decrease of 24.9 per cent mainly in due from other financial institutions. Liquid assets constituted 8.4 per cent of the bank's total assets during the period under review (Table 3.2.1 and Figure 3.2.3).

Fig. 3.2.3: Movements in Liquid Assets

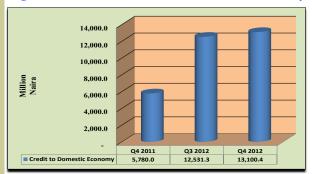

### 3.2.4 Credit to the Domestic Economy

TIB's aggregate credit to domestic economy amounted to N13.1 billion, representing increases of N0.6 billion and N7.3 billion above the levels reported in the preceding quarter and the corresponding period of 2011, respectively.

Credit to domestic economy accounted for 65.7 per cent of the total assets of the bank in the Q4 2012

Fig.3.2.4: Movements in Credit to the Domestic Economy

### 3.2.5 Capital and Reserve Funds

Capital and reserve funds of TIB stood at N18.2 billion representing increases of N0.3 billion and N9.3 billion above the levels in the preceding quarter and the corresponding period of 2011, respectively. Capital and reserve funds accounted for 91.1 per cent of the total liabilities of the bank in Q4 2012 (Table 3.2.1 and Figure 3.2.5).

Fig. 3.2.5: Components of Capital and Reserves Funds

# 3.2.6 Funds Under Management (Intervention)

Intervention funds being managed by the bank in the period under review amounted to N19.1 billion, representing increases of 0.6 and

91.0 per cent above the levels recorded in the preceding quarter and the corresponding period of 2011, respectively (Table 3.2.1 and Fig. 3.2.6).

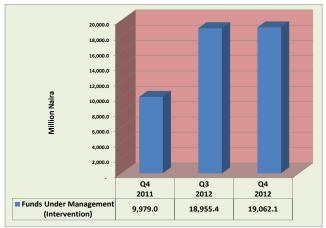

Fig. 3.2.6: Movements in Funds Under Management

#### 3.2.7 Other Liabilities

Other liabilities of the bank amounted to N0.7 billion, representing increases of 2.8 and 11.7 per cent above the levels in preceding quarter and the corresponding period of 2011, respectively. Other liabilities accounted for 3.70 per cent of TIB's total liabilities in Q4 2012 (Table 3.2.1 and Figure 3.2.7).

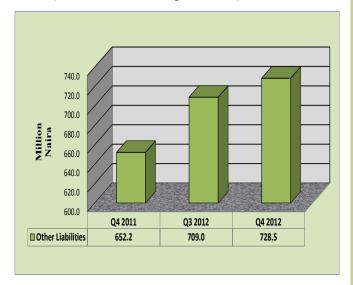

Fig. 3.2.7: Other Liabilities

### 3.3 The Nigerian Export Import Bank

### 3.3.1 Comparative Statements of Assets and Liabilities

Total assets/liabilities of NEXIM in Q<sub>4</sub> 2012 stood at N48.2 billion, representing increases of N1.6 billion or 3.4 per cent and N7.1 billion or 17.4 per cent above the levels reported in the preceding quarter and the corresponding period of 2011, respectively.

The 3.4 per cent increase in total assets reflected largely the N1.9 billion or 4.6 per cent increase in domestic credit. The 3.4 per cent increase in total assets was, however, moderated by the decrease of N0.4 billion or 28.6 per cent in liquid assets.

Similarly, the 3.4 per cent appreciation in total liabilities was largely attributable to the N1.6 billion or 5.1 per cent increase in shareholders fund. This increase was, however, moderated largely by the N0.05 billion or 1.2 per cent and N0.03 billion or 0.3 per cent decreases in current liabilities and long term liabilities, respectively (Table 3.3.1).

#### 3.3.2 Sources and Uses of Funds

Funds were largely sourced from the expansion of shareholders fund and contraction of liquid assets to the tune of N1.6 billion and N0.4 billion, respectively (Table 3.3.2 and Figure 3.3.1)

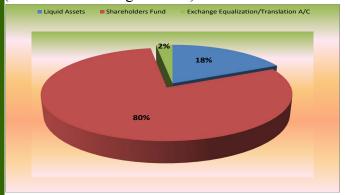

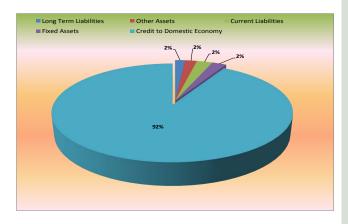

Fig. 3.3.1 Sources of Funds

Funds were majorly utilized through expansion in credit to domestic economy, which absorbed N1.9 billion (Table 3.3.2 and Figure 3.3.2).

Fig. 3.3.2 Uses of Funds

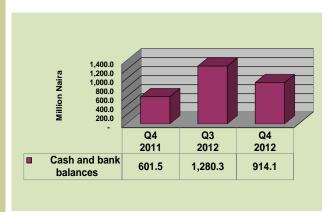

### 3.3.3 Liquid Assets

Total liquid assets of the bank stood at N0.9 billion, representing a decrease of N0.4 billion or 28.6 per cent below the level reported in Q<sub>3</sub> 2012, but an increase of N0.3 billion or 52.0 per cent above the level recorded in the corresponding period of 2011 (Table 3.3.1 and Figure 3.3.3).

Liquid assets constituted 1.9 per cent of the total assets of NEXIM in  $Q_4$  2012.

Fig. 3.3.3: Total Liquid Assets

### 3.3.4 Credit to the Domestic Economy

NEXIM's aggregate credit to the domestic economy amounted to N42.6 billion, representing increases of N1.9 billion or 4.6 per cent and N6.2 billion or 17.2 per cent above the level recorded the preceding quarter and the corresponding period of 2011, respectively. The 4.6 per cent appreciation in credit to the domestic economy was accounted for by the increases of N1.0 billion or 5.9 per cent and N0.9 billion or 3.6 per cent in other loans & advances and investments, respectively (Table 3.3.1 and Figure 3.3.4). The total credit to domestic economy constituted 88.4 per cent of the total assets in Q4 2012.

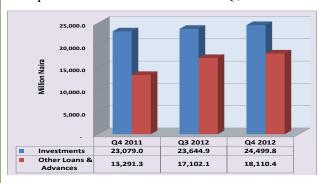

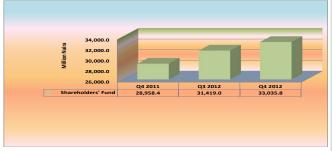

Fig. 3.3.4: Composition of Total Credit to the Domestic Economy

#### 3.3.5 Shareholders Fund

Shareholders fund of NEXIM amounted to N33.0 billion, representing increases of 5.1 and 14.1 per cent above the levels reported in the preceding quarter and the corresponding period of 2011, respectively (Table 3.3.1 and Figure 3.3.5).

Fig. 3.3.5: Shareholders' fund

Shareholders fund contributed 68.5 to the total liabilities of NEXIM bank in Q<sub>4</sub> 2012.

### 3.3.6 Current Liabilities

The current liabilities of NEXIM stood at N4.3 billion, representing a decrease of 1.2 per cent below the level reported in the preceding quarter, but an increase of 6.0 per cent above the level reported in the corresponding period of 2011. Current liabilities of NEXIM bank constituted 8.9 per cent of the total liabilities in  $Q_4$  2012.

### 3.3.7 Long Term Liabilities

Total long term liabilities, which contributed 22.2 per cent of the total, declined by 0.3 per cent to N10.7 billion during the period under review.

### 3.4 Bank of Agriculture

# 3.4.1 Comparative Statements of Assets and Liabilities

Total assets/liabilities of the Bank of Agriculture (BOA) stood at N28.9 billion, representing increases of N7.6 billion or 35.4 per cent and N1.0 billion or 3.5 per cent above the levels recorded in the preceding quarter and the corresponding period of 2011, respectively.

The 35.4 per cent increase in total assets reflected the N8.9 billion growth in fixed assets. This increase was however, moderated by the decreases of N0.7 billion, N0.6 billion and N0.1 billion in other assets, domestic credit and liquid assets, respectively.

Similarly, the 35.4 per cent expansion in total liabilities was attributed largely to the increase of N16.0 billion in shareholders' fund. This increase was however, moderated by the decreases of 51.3 and 0.2 per cent in long term loans and deposits, respectively (Table 3.4.1).

### 3.4.2 Sources and Uses of Funds

The major source of funds was the expansion in shareholders' funds to the tune of N16.0 billion. Other noticeable sources included the contractions in other assets, credit to the domestic economy and liquid assets by N0.7 billion, N0.6 billion and N0.1 billion, respectively (Table 3.4.2 and Figure 3.4.1).

Funds were largely utilized through the expansion of fixed assets by N8.9 billion and contractions of long term loans and deposits by N8.4 billion and N0.02 billion, respectively (Table 3.4.2 and Figure 3.4.2).

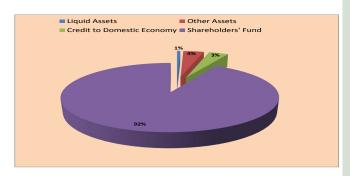

Fig. 3.4.1: Sources of Funds

Fig. 3.4.2: Uses of Funds

#### 3.4.3 Liquid Assets

Total liquid assets of the bank stood at N10.3 billion, representing decreases of N0.1 billion or 1.0 per cent and N2.6 billion or 20.2 per cent below the levels recorded in the preceding quarter and the corresponding period of 2011, respectively. The 1.0 per cent decline in liquid assets reflected the 1.1 per cent decrease in placement with other banks. At N10.3 billion, liquid assets accounted for 35.5 per cent of the bank's total assets (Table 3.4.1 and Figure 3.4.3).

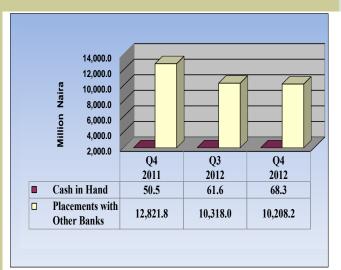

Fig. 3.4.3 Composition of Liquid Assets

#### 3.4.4 Credit to the Domestic Economy

Aggregate credit to domestic economy stood at N9.0 billion, representing decreases of N0.6 billion or 6.4 per cent and N3.7 billion or 29.0 per cent below the level recorded in the preceding quarter and the corresponding period of 2011, respectively. Credit to domestic economy constituted 31.1 per cent of the total assets of the bank during the period under review (Table 3.4.1 and Figure 3.4.4).

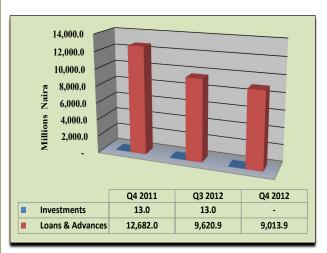

Fig. 3.4.4: Composition of Credit to the Domestic Economy

#### 3.4.5 Shareholders' Fund

The shareholders' fund of the BOA stood at N14.7 billion in the period under review, representing increases

of N16.0 billion and N8.6 billion above the levels reported in the previous quarter and the corresponding period of 2011, respectively.

The shareholders' fund constituted 50.7 per cent of the banks total liabilities (Table 3.4.1 and Figure 3.4.5).

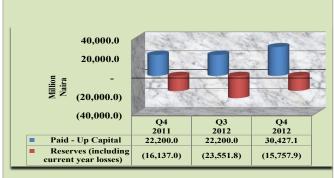

Fig. 3.4. 5: Composition of Shareholders' Funds

### 3.4.6 Total Deposit

Total deposits liabilities of the bank amounted to N6.3 billion, representing a decrease of N0.02 billion or 0.2 per cent below the level recorded in the previous quarter, but increased by N0.1 billion or 1.8 per cent above the level reported in the corresponding quarter of 2011 (Table 3.4.1 and Figure 3.4.6).

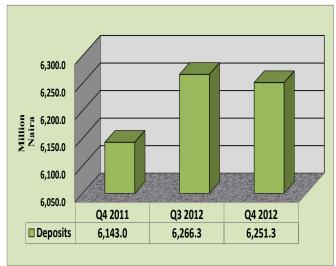

Fig. 3.4.6 Total Deposits

### 3.4.7 Long Term Loans

Long term loans of BOA stood at N8.0 billion in the period under review, indicating decreases of N8.4 billion or 51.3 per cent and N7.7 billion or 49.1 per cent below the levels reported in the previous quarter and the corresponding quarter of 2011, respectively. At N8.0 billion, the long term loans of the bank constituted 27.7 per cent of total liabilities (Table 3.4.1 and Figure 3.4.7).

Fig. 3.4.7 Long Term Loans

# Section Four Pension Funds

### 4.1 Pension Funds Activities

### 4.1.1 Comparative Statements of Assets and Liabilities

Total assets/liabilities of the pension fund (Retirement Savings Account and Legacy Funds) operators in the Q<sub>4</sub> 2012 stood at N3.2 trillion, representing increases of N213.3 billion or 7.3 per cent and N699.7 billion or 28.6 per cent above the levels reported in the preceding quarter and corresponding period of 2011, respectively. The 7.3 per cent growth in total assets reflected the increases of N84.8 billion or 20.3 per cent, N72.6 billion or 3.9 per cent and N50.9 billion or 13.3 per cent in money market instrument, Government securities and ordinary shares, respectively. These increases were, however, moderated by the decrease of N9.8 billion or 11.9 per cent in corporate debt securities. Similarly, the 7.3 per cent expansion in total liabilities was attributed to the increases of N182.2 billion or 19.9 per cent and N31.0 billion or 1.5 per cent in reserve and members' funds, respectively (Table 4.1.1).

### **4.1.2 Investment in Ordinary Shares**

Investment in ordinary shares by the pension fund operators stood at N434.3 billion during the review period. This represents increases of N50.9 billion or 13.3 per cent and N60.6 billion or 16.2 per cent above the levels reported in the preceding quarter and the corresponding period of 2011, respectively. The 13.3 per cent increase in ordinary shares was accounted for by the increases of N53.1 billion or

16.5 per cent, N1.1 billion or 3.0 per cent and N0.3 billion or 2.6 per cent in domestic ordinary shares, foreign ordinary shares and open/close-end funds, respectively. These increases were, however, moderated by the decrease of N3.6 billion or 36.7 per cent in private equity fund. Investment in ordinary shares contributed 13.8 per cent of the total pension funds assets during the period under review (Table 4.1.1 and Fig. 4.1.1).

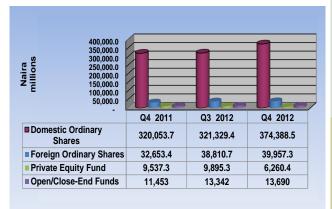

Fig. 4.1.1: Composition of Ordinary Shares

At N13.7 billion, the pension fund assets invested in one issuer of open and closed-end funds was below the maximum threshold of N31.5 billion or one per cent of total assets stipulated in the investment guidelines of the National Pension Commission (PENCOM).

#### 4.1.3 Investment in Government Securities

Aggregate investment in government securities (FGN and state government securities) stood at N1.9 trillion during the review period.

This represents increases of N72.6 billion or 3.9 per cent and N444.3 billion or 30.2 per cent above the levels reported in the preceding quarter and the corresponding quarter of 2011, respectively.

At N1.9 trillion, investment in government securities constituted 60.8 per cent of the total pension fund assets in the  $Q_4$  2012. Funds invested in state government securities was N9.0 billion more than the 5 per cent maximum of total pension funds assets stipulated in the PENCOM investment guidelines (Table 4.1.1 and Figure 4.1.2).

Fig. 4.1.2: Composition of Government Securities

### 4.1.4 Investment in Corporate Debt Securi ties

The investment in corporate debt securities amounted to N72.9 billion, representing decreases of N9.8 billion or 11.9 per cent and N2.0 billion or 2.7 per cent below the levels reported in the previous quarter and the corresponding period of 2011, respectively. The N72.9 billion investment in corporate debt instruments constituted 2.3 per cent of the total assets of the pension fund operators (Table 4.1.1 and Figure 4.1.3).

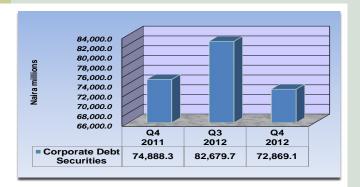

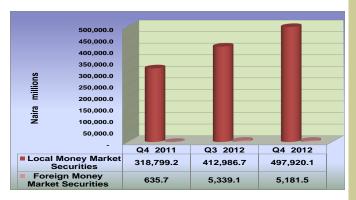

Fig. 4.1.3: Corporate Debt Securities

#### 4.1.5 Investment in Money Market Instruments

Investment in money market instruments in the Q<sub>4</sub> 2012 amounted to N503.1 billion, representing increases of N84.8 billion or 20.3 per cent and N183.7 billion or 57.50 per cent above the levels reported in the preceding quarter and corresponding period of 2011, respectively. The N503.1 billion investment in money market instruments constituted 16.0 per cent of the total assets of the pension fund operators (Table 4.1.1 and figure 4.1.4).

Fig. 4.1.4: Composition of Money Market Instruments

### 4.1.6 Investment in Real Estate Property

Investment in real estate property by the operators stood at N179.6 billion. At this level, the investment grew by N7.7 billion or 4.5 per cent above the level reported in  $Q_2$  2012. Noticeably, the pension funds investment in the real estate property exceeded, by N32.8 billion, the maximum 5 per cent stipulated in

the investment guidelines of National Pension Commission (Table 4.1.1 and Fig. 4.1.5).

Fig. 4.1.5: Real Estate Property

### Inflation Report for December 2012

### **EXECUTIVE SUMMARY**

The movements in the components of the Consumer Price Index (CPI) for the month of December 2012 are analyzed. The highlights of the analysis are as follows:

- The year-on-year headline inflation rate decelerated to 12.0 per cent in December 2012 from 12.3 per cent recorded in the preceding month. The deceleration in headline inflation mainly reflected the moderations in the relative contributions of food and non-alcoholic beverages; housing, water, electricity, gas and other fuel and transport.
- The relative contribution of food and non-alcoholic beverages to the year-on-year headline inflation decreased to 5.45 pp in December 2012. Of the 5.45 pp, bread and cereals; fish and sea food; vegetables, yams, potatoes and other tuber and meat accounted for 2.28, 0.95, 0.68, 0.62 and 0.61 pps, respectively.
- The deceleration of year-on-year food inflation from 11.6 per cent recorded in November 2012 to 10.2 per cent in the review month was accounted for by the moderation in the contributions of farm produce, which decreased by 1.3 pp to 5.8 pp and processed food, which also moderated to 4.4 pp in the review period. The 5.8 pp contribution of farm produce was driven by vegetables (1.28 pp), yam, potatoes and other tubers (1.17 pp), sorghum white sold loose (0.93 pp), rice agric sold loose (0.83 pp), millet sold loose (0.71 pp) and rice local sold loose (0.68 pp). Of the 4.4 pp contribution by processed food, fish and sea food; meat; garri yellow sold loose, bread unsliced, yam flour sold loose, and milk, cheese and eggs, contributed 1.79, 1.14, 0.69, 0.46, 0.32 and 0.22 pps, respectively.
- The acceleration of imported food inflation to 9.8 per cent in the review month was driven largely by the contributions of rice, frozen fish, bread, cake, coffee, tea, chocolate, preserved milk and other, canned vegetables and canned meat.
- The 13.7 per cent acceleration in core inflation recorded in December 2012 was driven largely by the contributions of processed food, housing, water, electricity/gas and other fuel; clothing and footwear; transport; furnishing, household equipment and housing maintenance, education and health.

### **Headline Inflation**

Headline inflation rate (year-onyear) for the period December 2012 decelerated to 12.0 per cent from 12.3 per cent recorded in the preceding month

The rate of 12.0 per cent in the headline inflation mainly reflected the relative contributions of food and non-alcoholic beverages (5.45pp); housing, water, electricity, gas and other fuel (2.88 pp); clothing and footwear (1.07 pp; transport (0.64 pp); furnishing, household equipment maintenance (0.62 pp) education (0.45 pp) and health (0.31 pp).

### 1. Year-on-Year Headline Inflation

The Composite Consumer Price Index (CPI) rose by 0.75 per cent month-on-month to 141.1 index points in December 2012. The month-on-month rise in the price index was mostly accounted for by increases in the prices of food and non-alcoholic beverages; housing, water, electricity, gas and other fuel; clothing and footwear; transport; furnishings, household equipment and maintenance, education and health (see Table 1, Fig. 1).

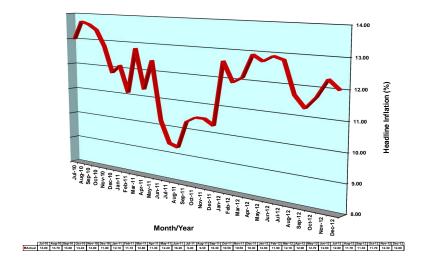

Fig 1: Plot of Actual YoY Headline Inflation

The CPI headline inflation rate (year-on-year) for December 2012 decelerated to 12.0 per cent from 12.3 per cent recorded in the preceding month. The rate of 12.0 per cent in the headline inflation mainly reflected the relative contributions of food and non-alcoholic beverages (5.45 pp); housing, water, electricity, gas and other fuel (2.88 pp); clothing and footwear (1.07 pp); transport (0.64 pp); furnishing, household equipment and maintenance (0.62pp); education (0.45 pp) and health (0.31 pp).

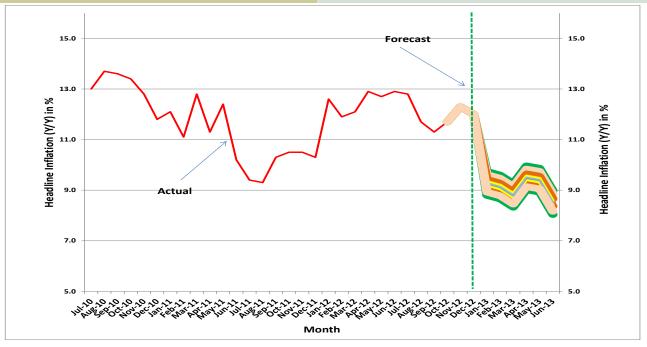

Fig 2: Fan Chart of Headline Inflation

### **Contributions to Headline Inflation**

Of the 5.45pp contribution of food and nonalcoholic beverages to headline inflation, bread and cereals; fish and sea food; vegetables; yams, potatoes and other tuber; and meat accounted for 2.28, 0.95, 0.68, 0.62, and 0.61 pps, respectively. The relative contribution of food and non-alcoholic beverages to the year-on-year headline inflation increased to 5.45 pp from 5.96 pp recorded in the preceding month. Of the 5.45 pp contribution of food and non-alcoholic beverages to headline inflation, *bread and cereals; fish and sea food; vegetables; yams, potatoes and other tuber; and meat accounted* for 2.28, 0.95, 0.68, 0.62 and 0.61 pps, respectively (Table I).

The bread and cereals year-on-year contribution to headline inflation also increased to 2.28 pp compared with 2.42 pp recorded in the preceding month. The 2.28 pp contribution of bread and cereals to the headline inflation in the review month was largely explained by the relative contributions of sorghum (0.47 pp); rice agric sold loose (0.43 pp); millet sold loose (0.37 pp); garri yellow sold loose (0.35 pp); rice local sold loose (0.35 pp); bread unsliced (0.24 pp) and yam flour sold loose (0.16 pp). It was, however, moderated by the negative contributions of corn flour (0.02 pp); eko (0.03 pp); maize paste white (0.07 pp); plantain flour (0.08 pp) and maize grain white sold loose (0.09 pp). (Table I).

### **Contributions to Headline Inflation**

The relative contribution of transport to the year-on-year headline inflation decreased by 0.13 pp to 0.64 pp in December 2012. Of the 0.64 pp contribution of transport inflation to headline inflation, passenger transport by road and fuels and lubricants for personal transport equipment components accounted for 0.60 and 0.09 pps, respectively

The relative contribution of housing, water, electricity, gas and other fuel to the year-on-year headline inflation decreased to 2.88 pp from 3.21 pp recorded in the preceding month. Of the 2.88 pp contribution of housing, water, electricity, gas and other fuel to headline inflation, actual and imputed rentals for housing, electricity, liquid fuel and solid fuels components accounted for 1.18, 1.14, 0.43 and 0.23 pps, respectively (Table I).

The relative contribution of transport to the year-on-year headline inflation decreased by 0.13 pp to 0.64 pp in December 2012. Of the 0.64 pp contribution of transport inflation to headline inflation, passenger transport by road and fuels and lubricants for personal transport equipment components accounted for 0.60 and 0.09 pps, respectively (Table I).

Also, the relative contribution of imported food to the year-on-year headline inflation increased to 1.30 pp in the review month from 0.92 pp recorded in November 2012. The 1.30 pp contribution of imported food to the year-on-year headline inflation was largely explained by the relative contributions of rice (0.83 pp); frozen fish (0.74 pp); bread (0.49 pp); cake (0.45 pp); tea, coffee, chocolate (0.24 pp); preserved milk and other (0.19 pp) and canned vegetables (0.13 pp) (Table I). It was, however, moderated by the negative contributions of sugar (0.01 pp); tobacco (0.04 pp) and other edible oils (1.90 pp).

### **Food Inflation**

### 2. Year-on-Year Food Inflation

The composite food index (with a weight of 50.7 per cent), rose by 1.0 per cent month-on-month to 141.2 index points in December 2012. On year-on-year basis, food inflation decelerated to 10.2 per cent in December 2012 from 11.6 per cent recorded in the preceding month. However, food inflation was 10.2, 12.0, and 11.0 per cent three months ago, six months ago and a year earlier, respectively.

Food inflation rate
decelerated to 10.2 per
cent in December 2012
from 11.6 per cent
recorded in the
preceding month

The 10.2 per cent yearon-year food inflation
was largely accounted
for by the
contributions of prices
of farm produce and
processed food, which
contributed 5.8 and
4.4 pps, respectively.

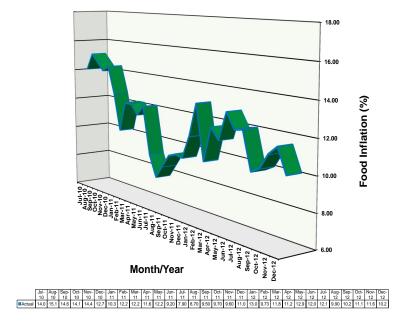

Fig 3: Plot of Actual YoY Food Inflation

The 10.2 per cent year-on-year food inflation was largely accounted for by the contributions of *farm produce and processed food inflation*, which contributed 5.8 and 4.4 pps, respectively. Of the 5.8 pp contribution of farm produce, vegetables; yams, potatoes and other tubers; sorghum white or brown sold loose; rice agric sold loose; millet sold loose and rice local sold loose; contributed 1.28, 1.17, 0.92, 0.83, 0.71, and 0.68 pps, respectively (see Table II).

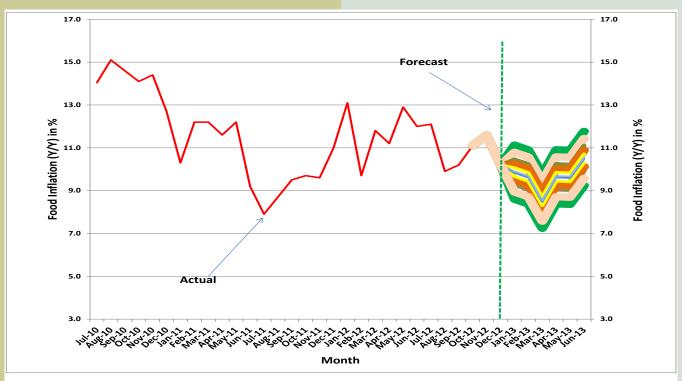

Fig 4 Fan Chart of YoY Food Inflation

### **Contributions to Food Inflation**

The relative
contribution of
imported food was
largely accounted
for by the
contributions of
rice (1.61 pp),
frozen fish (1.44 pp),
bread (0.95 pp),
cake (0.87 pp) tea,
coffee, chocolate
(0.46 pp), preserved
milk and other (0.37
pp) and canned
vegetables (0.26 pp)

The relative contribution of processed food moderated to 4.4 pp in December 2012 from 4.5 pp recorded in the preceding month. Of the 4.4 pp contribution, fish and sea food; meat; garri yellow sold loose; bread unsliced; yam flour sold loose and milk, cheese and eggs accounted for 1.79, 1.14, 0.69, 0.46, 0.32, and 0.22 pps, respectively. It was, however, moderated by the negative contributions of corn flour (0.03 pp), eko (0.05 pp), maize paste white sold loose (0.13), plantain flour (0.16 pp) and oil and fats (0.30 pp). (Table II).

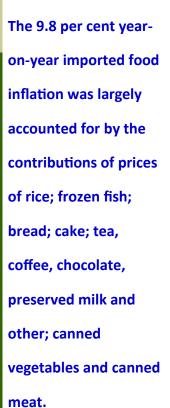

The relative contribution of imported food inflation to the year-on-year food inflation increased to 2.5 pp in the review month. This was largely accounted for by the contributions of rice (1.61 pp), frozen fish (1.44 pp), bread (0.95 pp), cake (0.87 pp), tea, coffee, chocolate (0.46 pp), preserved milk and other (0.37 pp) and canned vegetables (0.26 pp). It was, however, moderated by the negative contribution of sugar (0.01 pp), tobacco (0.07 pp) and other edible oil (3.68 pp) (Table II).

### **Imported Food Inflation**

### 3. Year-on-Year Imported Food Inflation

Imported Food
Inflation rate inch up
slightly to 9.8 per cent
from 9.7 per cent
recorded in November
2012

The composite imported food index (with a weight of 13.3 per cent), increased by 1.0 per cent month-on-month to 137.6 index points in December 2012. On year-on-year basis, imported food inflation inch up slightly to 9.8 per cent from 9.7 per cent recorded in the preceding month. However, imported food inflation was 14.1, 18.5 and 8.6 per cent three months ago, six months ago and a year earlier, respectively.

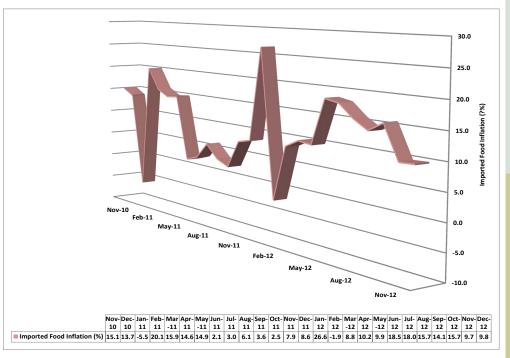

Fig 5: Plot of Actual YoY Imported Food Inflation

The 9.7 per cent year-on-year imported food inflation was largely accounted for by the contributions of prices of rice; frozen fish; bread; cake; tea, coffee, chocolate; preserved milk and other, canned vegetables, canned meat and spirit which contributed 6.29, 5.62, 3.73, 3.42, 1.80, 1.45, 1.01, 0.44 and 0.47 pps, respectively. It was however, moderated by the negative contribution of sugar (0.04pp), tobacco (0.28 pp) and other edible oil (14.38 pp) (Table III).

### **Core Inflation**

Core inflation rate accelerated to 13.7 per cent in December 2012 from 13.1 per cent recorded in the preceding month.

recorded in December 2012 was driven largely by the contributions of processed food (4.2 pp), housing, water, electricity, gas and other fuels (4.0 pp); clothing and footwear (1.5 pp); transport (1.3 pp); furnishings, household equipment and maintenance (0.9 pp), education (0.6 pp) and health (0.4 pp) (Table IV).

The 13.7 per cent core inflation

### 4. Year-on-Year Core Inflation

The All-items less farm produce price index rose by 0.7 per cent month-on-month to 141.8 index points in December 2012. On year-on-year basis, core inflation accelerated to 13.7 per cent in December 2012 from 13.1 per cent recorded in the preceding month.

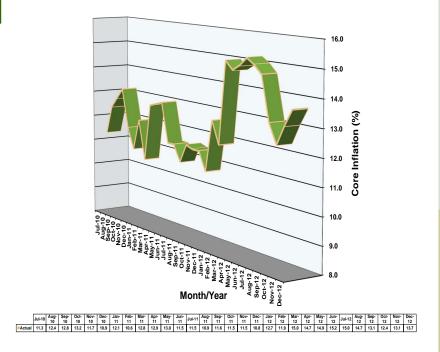

Fig 6: Plot of Actual YoY Core Inflation

The 13.7 per cent core inflation recorded in December 2012 was driven largely by the contributions of processed food (4.2 pp), housing, water, electricity, gas and other fuels (4.0 pp); clothing and footwear (1.5 pp); transport (1.3 pp); furnishings, household equipment and maintenance (0.9 pp), education (0.6 pp) *and health (0.4 pp)* (Table IV).

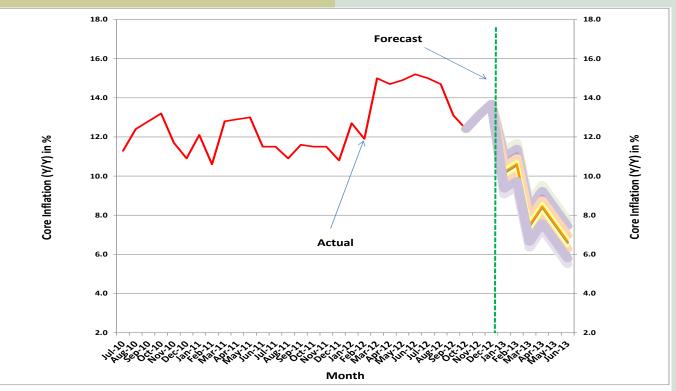

Fig 7: Fan Chart of YoY Core Inflation

### **Contributions to Core Inflation**

The 4.0 relative contribution of processed food to core inflation was largely accounted for by fish and sea food (1.42 pp), meat (0.96 pp), garri yellow sold loose (0.65 pp), milk, cheese, and eggs (0.30 pp), bread unsliced (0.25 pp) and garri white sold loose (0.24 pp).

The 4.0 pp relative contribution of processed food to core inflation was largely accounted for by fish and sea food (1.42 pp), meat (0.96 pp), garri yellow sold loose (0.65 pp), milk, cheese, and eggs (0.30 pp), bread unsliced (0.25 pp) and garri white sold loose (0.24 pp).

The housing, water, electricity, gas and other fuel component of core inflation decreased to 4.0 pp in December 2012 from 4.4 pp recorded in the preceding month. The 4.0 pp contribution was largely accounted for by actual and imputed rentals for housing (1.6 pp), electricity (1.6 pp), liquid fuel (0.6 pp) and solid fuels (0.3pp) (Table IV).

The relative contribution of *transport* component to core inflation increased by 0.2 pp to 1.3 pp from 1.1 pp recorded in the preceding month. The 1.3 pp contribution of transport to core inflation was largely accounted for by passenger transport by road (0.92 pp) and fuels and lubricants for personal transport equipment (0.22 pp) (Table IV).

### Quarterly GDP by Income and Expenditure Approach: Report for 3rd Quarter, 2012

### 1. EXPENDITURE ON

300.00

### 1.1 GDP at 1990 Market Prices

Available data from the National Bureau of Statistics (NBS) showed that expenditure on the gross domestic product (GDP at market prices) in real terms stood at \(\frac{14}{2}\)246.60 billion in the third quarter of 2012, reflecting a growth of 6.15 per cent when compared with the corresponding quarter in 2011.

The government final consumption expenditure, private final consumption expenditure, increase in stocks recorded improvements in their levels when compared with the second quarter of 2012 .

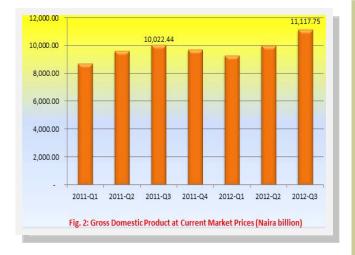

## 250.00 200.00 150.00 100.00 2011-Q1 2011-Q2 2011-Q3 2011-Q4 2012-Q1 2012-Q2 2012-Q3 Fig. 1: Gross Domestic Product at 1990 Market Prices (Naira billion)

### 1.2 GDP at Current Market Prices

The GDP at current market prices stood at ₩11,117.75 billion in the third quarter of 2012 which was higher than ₩10,007.31 billion and ₩10,022.44 billion recorded in the second quarter of 2012 and the corresponding quarter of 2011, respectively.

The improvement in the GDP at current market prices relative to the level achieved in the preceding quarter was as a result of increases in government final consumption expenditure, private final consumption expenditure, increase in stocks and exports of goods and services.

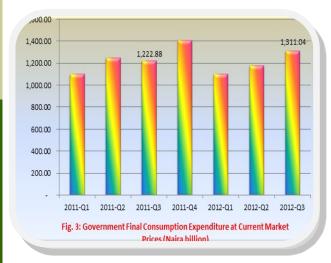

The value of gross fixed capital formation however, declined during the quarter under review when compared with the level attained in the second quarter of 2012.

### 2. COMPONENTS OF EXPENDITURE ON GDP

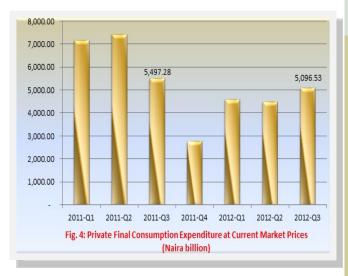

### 2.1 Government Final Consumption Expenditure (GFCE)

At current market prices, the GFCE stood at ₩1,311.04 billion in the third quarter of 2012, compared with the ₩1,175.85 billion and ₩1,222.88 billion recorded in the second quarter of 2012 and the third quarter of 2011, respectively.

The rise in the GFCE at current market prices relative to the level achieved in the preceding quarter and corresponding quarter of 2011 was attributed to the increase in government expenditure on personal costs following the implementation of new minimum wage by the federal government and many state governments across the country.

### 2.2 Private Final Consumption Expenditure (PFCE)

### 2. COMPONENTS OF EXPENDITURE ON GDP

### 2.3 Gross Fixed Capital Formation (GFCF)

The gross fixed capital formation (GFCF) at current market prices stood at ₹731.09 billion in the third quarter of 2012 compared with the ₹733.25 billion recorded in the preceding quarter and lower by 44.71 per cent when compared with ₹1,322.38 billion recorded in the corresponding quarter of 2011.

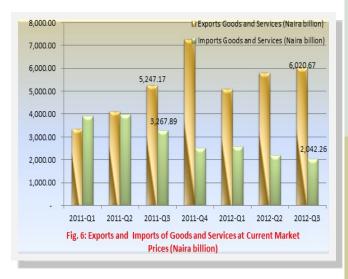

The decline in the GFCF at current market prices relative to the level in the corresponding quarter of 2011 was attributed to the decrease in transport equipment, machinery and other equipment. However, there was a moderate improvement in residential and non-residential building construction when compared with the level in the corresponding quarter in 2011.

### 2.4 Exports and Imports of Goods and Services

The level of exports of goods and services increased from ₩5,803.75 billion and ₩5,247.17

billion in preceding quarter and the corresponding quarter of 2011, respectively to \(\frac{\text{\text{\text{\text{\text{\text{quarter}}}}}{1000}}{1000}\).

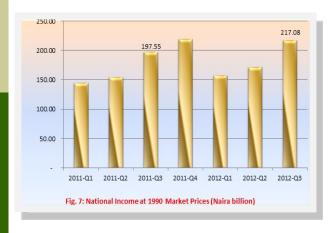

The level of imports of good and services however, declined from ₩2,198.55 billion and ₩3,267.89 billion in second quarter of 2012 and the third quarter of 2011, respectively to ₩2,042.26 billion in quarter under review.

### 3. NATIONAL INCOME

### 3.1 National Income at 1990 Market Prices

Available data from the National Bureau of Statistics (NBS) indicated that national income at 1990 market prices stood at \$\frac{\text{N}}{2}17.08\$ billion in the third quarter of 2012, reflecting a growth of 9.89 per cent when compared with corresponding quarter in 2011 and lower than 11.21 per cent growth recorded in the preceding quarter of 2012.

The rise of 9.89 per cent in national income in the third quarter of 2012 was driven largely by increase in in operating surplus.

### 3.2 National Income at Current Market Prices

The national income at current market prices stood at ₩10,078.19 billion in the third quarter of 2012, which was higher than the ₩8,899.82 billion and ₩8,919.30 billion recorded in the second quarter of 2012 and the corresponding quarter of 2011, respectively.

The increase in the gross national income achieved during the third quarter of 2012 was as a result of improvements in compensation of employees and operating surplus in the domestic economy.

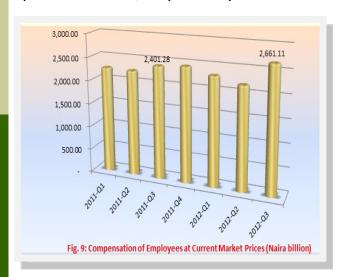

However, net compensation of employees from the rest of the world and net property and entrepreneurial income from the rest of the world declined respectively between second and third quarters of 2012.

### 4. COMPONENTS OF NATIONAL INCOME

### 4.1 Compensation of Employees

Compensation of employees in the economy as major component of the national income increased to \text{

The increase in the domestic compensation of employees during the quarter under review reflected the impact of the implementation of the new minimum wage by the federal and state governments and some organised private sector operators.

### **4.2 Operating Surplus**

Operating surplus (which contributes over 80 per cent to total national income) continued to maintain an upward trend in the third quarter of 2012. From \$\frac{1}{2}7,297.09\$ billion and \$\frac{1}{2}7,478.40\$ billion recorded in the third quarter of 2011 and the preceding quarter of 2012, respectively, the operating surplus rose to \$\frac{1}{2}8,129.69\$ billion in the third quarter of 2012.

### Quarterly GDP by Production Approach: Report for 4th Quarter, 2012

### 1. GDP at 1990 Constant Basic Prices

Available data from the National Bureau of Statistics (NBS) revealed that the quarterly Gross Domestic Product (GDP), in real terms stood at \$\frac{1}{2}63.68\$ billion, indicating growth of 6.99 per cent in the fourth quarter of 2012, compared with 6.48 and 7.76 per cent growth recorded in the preceding quarter and the corresponding quarter of 2011, respectively (Fig 1).

The improvement in growth in the fourth quarter relative to the preceding quarter resulted from the increases in the relative contributions of wholesale/retail trade, services, industry and building & construction from 1.76, 2.51, 0.27 and 0.19 per cent recorded in the third quarter of 2012 to 2.22, 2.61, 0.48 and 0.25 in the current quarter (Fig. 2).

Further improvement in the economy during the quarter under review was, however, constrained by the slow down in the relative contribution of agriculture when compared with its level in the third quarter of 2012.

### 1.1 Sectoral Analysis of Quarterly Real GDP

Sectoral analysis showed that the agricultural output declined as its relative contribution to the growth in real GDP decreased from 1.70 per cent in the third quarter of 2012 to 1.43 per cent in the fourth quarter of 2012. The decline in activities in this sector was attributable to the decrease in the relative contribution of crop production, livestock and forestry from 1.47, 0.13 and 0.03 per cent in the preceding quarter to 1.21, 0.12 and 0.02 per cent in the current quarter, respectively (Fig. 3). The contribution of fishing remained the same during the review period.

Further analysis of the agricultural sector showed that the crop production sub-sector relative to the preceding quarter was mainly driven by the major crops except cassava, maize and yam which decreased from 0.49, 0.16 and 0.38 per cent in the third quarter of 2012 to

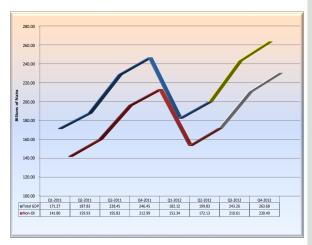

Fig. 1: Movement in Quarterly Real

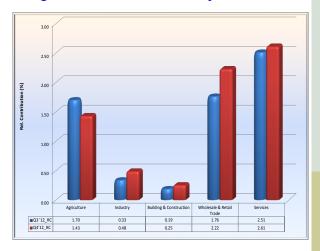

Fig. 2: Drivers of Quarterly Real GDP Growth in the Fourth Quarter of 2012

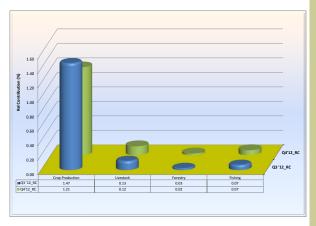

Fig. 3: Agricultural Sector Drivers in Total GDP in the Fourth Quarter of 2012

0.40, 0.02 and 0.31 per cent in the current quarter, respectively. (Fig 4)

Activities in the Industrial sector rose in the fourth quarter of 2012 with a relative contribution of 0.48 percent from 0.33 percent recorded in preceding quarter. The rise in industrial production was attributed to increase in the manufacturing from 0.27 percent in the preceding quarter to 0.54 percent in the fourth quarter of 2012. The contribution of crude oil & natural gas dropped from 0.01 percent in the preceding quarter to -0.11 percent in the fourth quarter, 2012 however the contribution of solid minerals remained the same. (Fig. 5)

The increase in activities recorded in manufacturing was attributed to the improvement in other manufacturing activities in the country during the quarter under review which recorded an increase in the relative contribution from 0.26 percent in the preceding quarter to 0.53 percent in the current quarter.

This was driven by all the other manufacturing activities except domestic / industrial plastic and rubber which decreased the relative contribution from 0.010 percent in the preceding quarter to 0.009 in the current quarter.

The decrease in crude oil & natural gas was attributed to operational constraints experienced by some of the oil producing companies during the quarter under review.

Activities in Services sector rose as its relative contribution to GDP growth increased from 2.51 per cent in the third quarter to 2.61 per cent in the review quarter. The rise in the performance of this sector was driven largely by the increase in the relative contributions of all the sub – sectors except utilities and finance & insurance (Fig. 8). The increase in the performance of most of the service sub-sectors was attributable to the increase in

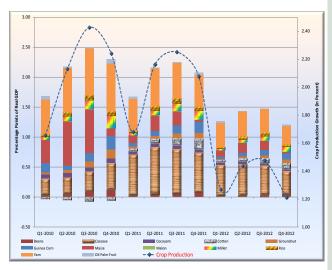

Fig. 4: Crop Production Drivers of Quarterly Real GDP Growth in the Fourth Quarter of 2012

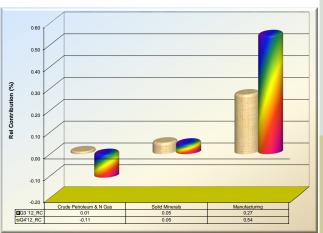

Fig. 5: Industrial Sector Drivers of Quarterly Real GDP Growth in the Fourth Quarter of 2012

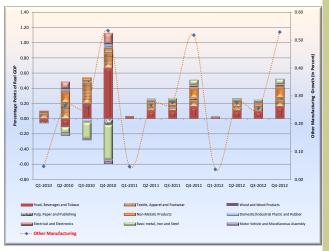

Fig. 6: Other Manufacturing Sub-Sector Drivers of Quarterly Real GDP Growth in the Fourth Quarter of

patronage by consumers especially the communications sub-sector.

The Wholesale & Retail Trade sector experienced a boost in activities as its contribution to real GDP growth rose from 1.76 per cent in the preceding quarter to 2.22 per cent in the current quarter. The increase in activities in this sector was largely driven by the increases in the relative contribution of all the sub-groups in this sector.

The contribution of Building & Construction sector to real GDP relative to the preceding quarter increased from 0.19 to 0.25 per cent in the current quarter. The rise in the activities recorded in the Building & Construction sector was attributed to the increase in construction activities across the country during the quarter.

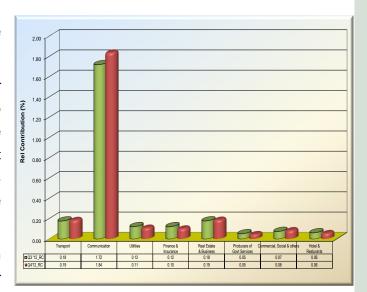

Fig. 7: Service Sector Drivers of Quarterly Real GDP

Finance & Insurance slow down growth in the Services sector in Q4– 2012

### 2. Non-oil Real Quarterly GDP

The non-oil real GDP growth stood at 8.21 per cent in the fourth quarter of 2012, indicating an increase of 0.66 percentage points above the 7.55 per cent growth recorded in the third quarter of the year. The increase in growth relative to the preceding quarter performance resulted largely from the increase in the relative contributions of all the sectors except Agriculture which decreased from 1.98 per cent in the preceding quarter to 1.65 per cent in the quarter under review. (Fig 9).

The contributions of Industry, Building & construction, Wholesales & retail trade and services sectors increased from 0.38, 0.22, 2.05 and 2.93 per cent in the preceding quarter to 0.68, 0.29, 2.57 and 3.02 per cent in the quarter under review, respectively.

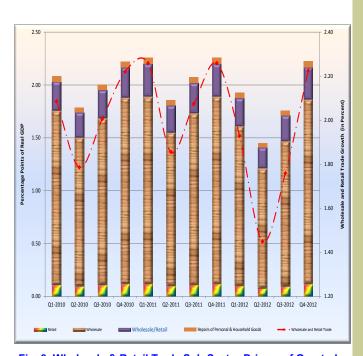

Fig. 8: Wholesale & Retail Trade Sub-Sector Drivers of Quarterly Real GDP Growth in the Fourth Quarter of 2012

### 2.1 <u>Sectoral Analysis of Real Quarterly Non-oil</u> <u>GDP Growth</u>

Sectoral analysis showed that the agricultural sector's relative contribution to the growth in real non-oil GDP decreased from 1.98 per cent in the third quarter of 2012 to 1.65 per cent in the fourth quarter of 2012. The fall in the contribution of agriculture to non-oil real GDP was driven by Crop and Livestock production, whose contributions to non-oil real GDP growth decreased from 1.72 and 0.15 per cent in the third quarter of 2012 to 1.40 and 0.14 per cent in the quarter under review, respectively. (Fig. 10)

The relative contributions to real non-oil GDP growth of Forestry and Fishing sub sector remained the same in the fourth quarter of 2012.

The relative contribution of the Industrial sector to real non-oil GDP increased from 0.38 per cent in the preceding quarter to 0.68 per cent in the quarter under review. This was driven by the Manufacturing sub-sector which recorded increased relative contributions from 0.32 percent in the preceding quarter to 0.63 percent in the fourth quarter. The rise in the contribution of the Manufacturing sub-sector was due to the increase in the activities in the Other manufacturing sub-sectors such as production of non metallic products and food, beverages and tobacco.

The increase in the contribution of Solid Minerals sector to real non-oil GDP was driven by the increase in activities in the Quarrying & Other Mining sub-sector.

The rise in the contribution of the Services sector to real non-oil GDP growth was attributed to the increase in the relative contribution of all the subsectors except Utilities, Hotel & restaurant and Producers of Govt. services which decreased from 0.14, 0.07 and 0.06 per

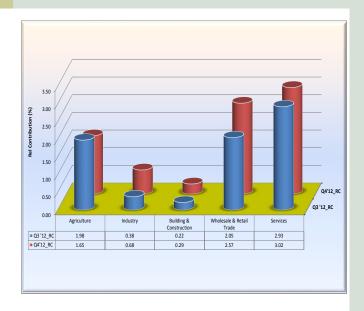

Fig 9: Drivers of Quarterly Real Non-Oil GDP Growth in the Fourth Quarter of 2012

All the sectors drives growth in real non-oil GDP in Q4-2012 except Agricultural sector

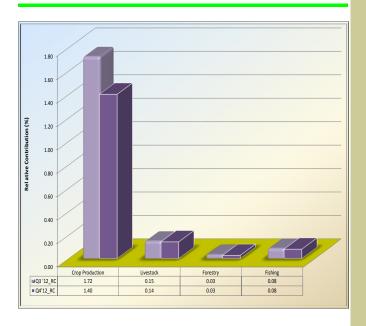

Fig. 10: Agricultural Sector Drivers in Real Non-Oil GDP in the fourth Quarter of 2012

cent in the preceding quarter to 0.13, 0.06 and 0.05 per cent in the fourth quarter of 2012, respectively (Fig. 11 and Table II).

### 3. GDP at Current Basic Prices

The quarterly GDP, measured at current basic prices (nominal) for the fourth quarter of 2012, stood at \$\frac{1}{2}\$10,503.74 billion. This represents 10.87 per cent decrease relative to 11.27 per cent growth recorded in the preceding quarter. The decline in growth of nominal GDP relative to the preceding quarter was driven by the decrease in the relative contribution of the Industrial sector (Table III).

### 3.1 Sectoral Analysis of Quarterly Nominal GDP

The sectoral contributions to the growth in nominal GDP in the fourth quarter of 2012 showed that the contribution of Industry decreased from 4.20 per cent in the preceding quarter to -3.60 per cent in the current quarter. The contributions of Agriculture, Building & Construction, Wholesale & Retail Trade and Services however, improved from 3.96, 0.21, 1.77 and 1.13 per cent in the preceding quarter to 9.59, 0.26, 3.05 and 1.58 per cent in the fourth quarter of 2012, respectively.

The decline in the relative contribution by the Industrial sector was driven by the fall in relative contribution of crude petroleum & natural gas which was attributed to operational constraints experienced by some of the oil producing companies in the country during the review period.

In the Services sector, all the sub-sectors recorded increases in their relative contributions to nominal GDP except Hotel and Restaurant subsector which remained the same in the current quarter. (Table III)

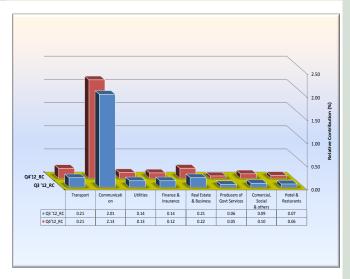

Fig. 11: Services Sector Drivers in Real Non-Oil GDP in the fourth Quarter of 2012

Nominal GDP growth at 10.87 per cent was decreased by Industrial sector in Q4– 2012

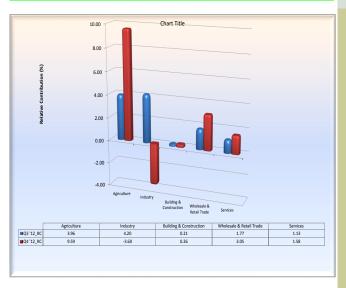

Fig. 12: Drivers of Quarterly Nominal GDP Growth in the Fourth Quarter of 2012

Improved prices of agricultural commodities boosts growth in nominal agricultural output in the Fourth quarter of 2012

### 4. Non-oil Nominal GDP

Quarterly non-oil GDP at current basic prices for the fourth quarter of 2012, stood at \(\frac{1}{2}\)6,878.6 billion. This reflected a growth rate of 23.99 per cent (Table IV).

### 4.1 <u>Sectoral Analysis of Quarterly Nominal Non-oil</u> GDP

The sectoral contributions to the growth in nominal non-oil GDP indicated that Agriculture made the highest contribution of 15.60 per cent which was higher than the 6.33 per cent recorded in the preceding quarter, of which Crop production contributed 14.48 per cent. The contribution of Services, Wholesale & Retail Trade, Building & Construction and Industrial subsectors increased from 1.81, 2.83, 0.34 and 0.30 per cent in the preceding quarter to 2.56, 4.96, 0.42 and 0.45 per cent in the current quarter, respectively. (Table IV and Fig. 13).

### 5. GDP Projection for the Four Quarters of 2013

The GDP projections for the four quarters of 2013 were based on the following assumptions:

- The increased power supply across the country following the continued efforts by the federal government to boost economic activities in the country.
- Expected increase in banks' lending activities especially to the real sector during the year.
- Favourable oil sector indicators increased oil output and prices.

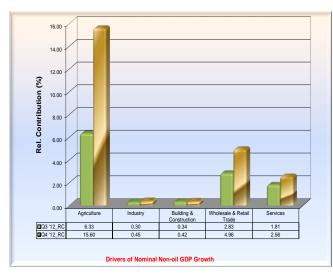

Fig. 13: Drivers of Quarterly Nominal Non-oil GDP Growth in the Fourth Quarter of 2012

Non-oil Nominal GDP grows at 23.99 per cent in the Fourth quarter of 2012

### Projected Growth Drivers for Q1 - Q4, 2013

- Improved power supply to boost productive capacity
- ♦ Expected increase in crude oil output
- Increased government spending
- Increased investment flow to the power sector
- ♦ Improved bank lending

- Increased government spending expected to further boost consumer demand.
- Increased investment flow into the economy especially in the power sector following the sale of government's majority shares in the successor companies of the PHCN

The forecasts of the quarterly GDP measured at 1990 constant basic prices for the 1st, 2nd, 3rd and 4th quarters of 2013 stood at №194.20 billion, №213.13 billion, №259.57 billion and №282.03 billion; representing increases of 6.63, 6.66, 6.71 and 6.69 per cent, over the corresponding quarters of 2012, respectively. This translated into an overall growth of 6.75 per cent in 2013.

The overall growth in 2013 is expected to be driven by Services with a contribution of 3.04 per cent, Wholesale & Retail Trade (1.58 per cent), Agriculture (1.49 per cent), Industry (0.37 per cent) and Building & Construction (0.28 per cent).

The non-oil sector is expected to grow at 7.87, 7.72, 7.73 and 7.96 per cent in the 1st, 2nd, 3rd and 4th quarters of 2013, respectively, resulting in overall growth of 7.83 per cent.

Growth in non-oil sector would be driven majorly by the Services sector.

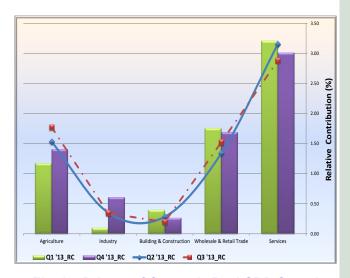

Fig. 14: Drivers of Quarterly Real GDP Growth in the Four Quarters of 2013

### Nigerian economy is projected to grow at 6.75% in 2013

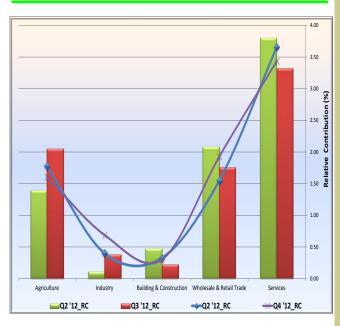

Fig. 15: Drivers of Quarterly Real Non-oil GDP Growth in the Four Quarters of 2013

## External Sector Statistics Monitor for 4th Quarter, 2012

### HIGHLIGHTS:

- Challenging performance of the external sector
- Current Account Balance
- Current Account Balance
- FDI inflows and Portfolio Investment
- External Trade
- FDI inflows and Portfolio Investment
- External Trade
- Stock of External Reserve
- Stock of External Reserves
- Exchange rate Movemen
- Exchange rate Movement
- External Debt Sustainability Index
- External Debt Sustainability Index
- Global Commodity Prices

### **External Sector Records Challenging Performance**

### Introduction

This report on the activities of the external sector of the Nigerian economy for quarter four (Q4), 2012 highlights some major developments in the sector in comparison with the levels recorded in the preceding and corresponding quarters; as compiled by the External Sector Statistics Division, Statistics Department. The objective is to monitor key external sector performance indicators in order to identify areas for further policy research and analysis.

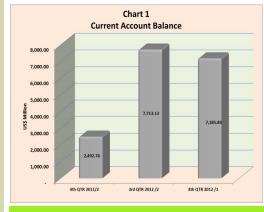

### **Current Account**

As shown in Chart 1, the country's estimated current account balance which stood at a surplus of US\$7,713.13 million in Q3, 2012 decreased to US\$7,185.84 million in the period under review.

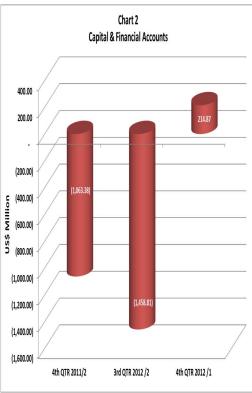

This development could be ascribed largely to the increase in out-payment in respect of services. The current account position in Q4, 2012, however, showed an improvement in the goods account balance, occasioned by reduction in imports during the review period. (Table 1, Chart 1).

### **Capital and Financial Accounts**

Estimates for Q4, 2012 of the balance in capital and

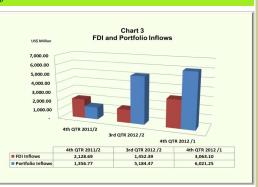

financial accounts indicate a net increase in liabilities to non-residents during the period (Table 1, Chart 2). Further analysis revealed that the country's foreign assets decreased from US8,876.59 million recorded in Q3, 2012 to US\$8,429.08 million during the period under review, with its corresponding liabilities increasing to US\$8,643.94 million. This development could be beneficial to the economy considering the inadequacy in the level of capital inflow required to finance domestic economic growth.

### FDI Inflows

### FDI and Portfolio Inflows

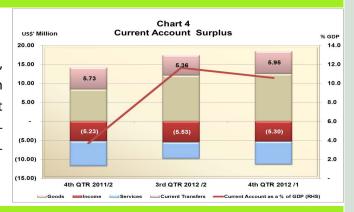

As shown in Table 1, FDI inflow (liabilities) rose significantly from US\$1,452.39 million in Q3, 2012 to US\$3,063.10 million in Q4, 2012. Similarly, estimated Portfolio Investment increased from US\$5,184.47 million in Q3, 2012 to US\$6,021.25 million in Q4, 2012 (Chart 3).

### **Current Account Balance**

### **Current Account as Percentage of GDP**

In comparison with the level recorded in Q3, 2012, current account as a percentage of GDP dropped in Q4, 2012 from 11.65 per cent to 10.59 per cent (Chart 4). This development was due to the observed reduction in the current account balance, following the increase in out-payments.

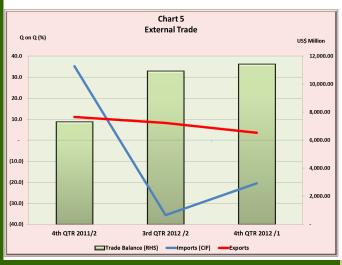

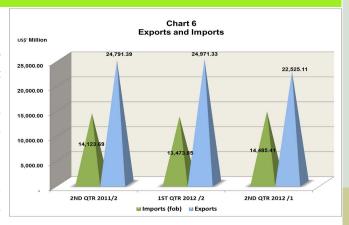

### **External Trade**

### **External Trade**

Available statistics (Table 1) revealed that Nigeria's trade account balance improved in Q4, 2012 despite the slight drop in merchandise exports. This development was as a result of contraction in imports in comparison with the developments observed in Q3, 2012 (Chart 5, Table 1). Nigeria's imports (cif) dropped from US\$13,460.66 million in Q3, 2012 to US\$12,785.89 million during the review period. The trade account balance increased from US\$10,933.65 million in Q3, 2012 to US\$11,419.58 million during the review period. In the same vein, quarter-on-quarter analysis indicated that estimated exports dropped from 8.2 per cent in Q3, 2012 to 3.5 per cent in Q4, 2012. Quarter-on-quarter imports, on the other hand, rose during the period under review from –35.7 per cent in Q3, 2012 to –20.5 per cent in Q4, 2012 (Table 2).

Further analysis revealed that aggregate exports and imports (fob) stood at US\$24,205.47 and US\$11,686.74 mil-

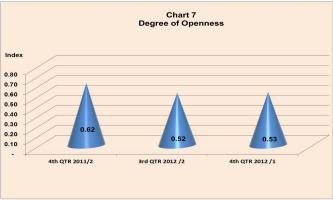

lion, respectively in Q4, 2012 as against U\$\$24,394.31 and U\$\$12,298.15 million in Q3, 2012. (Chart 6).

### **Degree of Openness**

The degree of openness, depicting the share of Nigeria's total external trade to gross domestic products (GDP) rose slightly to 0.53 in the period under review as against 0.52 recorded in the preceding quarter. This development shows increased integration of the domestic economy with the rest of the world, implying that more component of the growth of GDP was exported when compared with the levels in the preceding quarter (Chart 7 and Table 3).

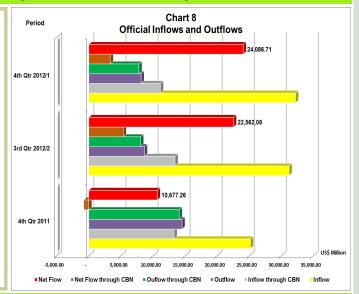

### Foreign Exchange Inflows and Outflows

### **Inflow and Outflow**

Available statistics (Table 4) indicated that foreign exchange inflows to the economy in Q4, 2012 stood at US\$32,240.00 million as against US\$31,226.92 million recorded in Q3, 2012, representing an increase of 3.2 per cent.

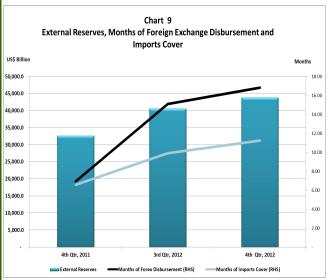

However, total outflows in the period under review amounted to US\$8,153.29 million as against US\$8,668.75 recorded in Q3, 2012. This represents decline of 5.9 per cent and 43.9 per cent in comparison with the levels recorded in the preceding and corresponding quarters, respectively.

### External Reserves

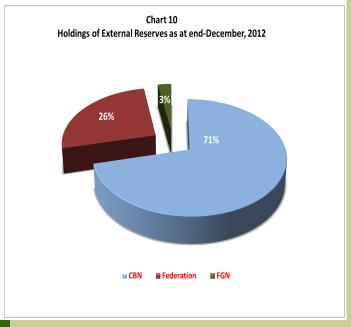

### **External Reserves**

The level of official foreign reserves as at end December 2012 stood at US\$43,830.42 million as against US\$40,640.40 and US\$32,639. 78 million in the preceding and corresponding quarters, respectively (Table 5). The current level of reserves could finance 16.8 months of foreign exchange disbursements and 11.3 months of imports as against 15.1 months of foreign exchange disbursements and 9.9 months of imports recorded in the preceding period. The development is graphically illustrated in Chart 9. (Table 1).

### **Holdings of External Reserves**

Analysis of the statistics on the holdings of external reserves revealed that the share of CBN holdings to the total stock of reserves stood at 71.0 per cent. On the other hand, the share of the Federation and Federal Government stood at 26.0 and 3.0 per cent respectively (Chart 10).

### **US Dollar Denominated Investments**

Total external reserves as at end December 2012 was US\$43,830.42 million, representing increases of 7.9 and 34.3 per cent when compared with the levels recorded in the preceding and corresponding quarters, respectively (Table 5). The US dollar holding of foreign reserves in the review period constituted 84.3 per cent of the total having increased from its level of US\$33,813.00 million in Q3, 2012 to US\$36,961.97 million in Q4, 2012. Other currencies in the basket and their shares include Euro (5.9%), Chinese Yuan (1.9%), GB Pounds (1.9%) and SDR units worth US\$2,574.57 million (5.9%) (Chart 11).

Further analysis revealed that the Swiss franc (CHF) registered the least holding of US\$1.57 million.

The volume of Japanese Yen in total reserves decreased from US\$19.23 million in Q3, 2012 to US\$15.97 million during the review period.

### Demand and Supply of Foreign Exchange

### Demand and Supply of Foreign The total amount utilized in Q4, 2012, consists of US\$6,417.08 million and US\$3,804.36 million for visible and invisible trade, representing 63.8 and 37.3

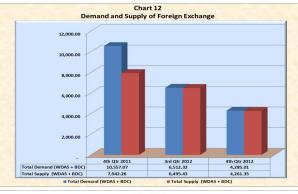

The aggregate demand for foreign exchange by the authorized dealers (consisting of WDAS and BDC operators) stood at US\$4,285.01 million during the period under review, showing a decrease of 34.2 and 59.4 per cent in comparison with the levels recorded in the preceding and corresponding quarters, respectively.

A total amount of US\$4,261.35million was supplied in Q4, 2012, consisting of US\$3,320.02 million and US\$941.33 million to the WDAS and BDC operators, respectively ( Table 6 and Chart 12).

### **Major Uses of Foreign Exchange**

The aggregate supply of foreign exchange for visible and invisible trade during the period under review stood at US\$10,221.44 million. This represents an increase of 5.5 per cent and 1.7 per cent over the levels recorded in the preceding and corresponding quarters, respectively.

The total amount utilized in Q4, 2012, consists of US\$6,417.08 million and US\$3,804.36 million for visible and invisible trade, representing 62.8 and 37.2 per cent respectively. This pattern of domination by visible trade had been consistent over the years. (Table 7 and Chart 13).

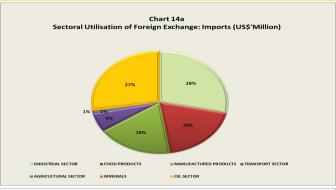

nated

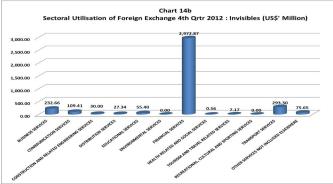

### Sectoral Utilization of Foreign Exchange

### Sectoral Utilization of Foreign Exchange

Analysis of foreign exchange utilization by sectors revealed that US\$6,417.08 million was spent on the importation of various tangible goods (visible imports) into the country in Q4, 2012, representing 62.8 per cent of the total foreign exchange utilized during the period. This represents decrease of 0.8 per cent and 17.8 per cent in comparison with the levels recorded in the preceding and corresponding quarters, respectively. As shown in chart 14a, the importation of industrial, oil, food and manufactured products utilized 28, 27, 19 and 18 per cent of the total amount utilized for imports, respectively (Table 7).

In Q4, 2012, the major components that utilized the sum of US\$3,804.36 million foreign exchange expended on outpayments for services included financial, transport and business services consisting 78.1, 7.7 and 6.1 per cents, respectively (Chart 14b).

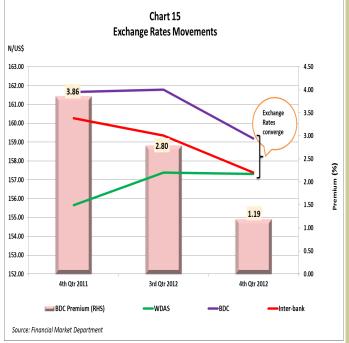

### **Exchange Rates Movements**

### Official and BDC Rates

The average official exchange rate in Q4, 2012 appreciated by 0.04 per cent compared to Q3 2012 but depreciated by 1.06 per cent when compared with Q4 2011 as naira exchanged at N157.32 to a US dollar as against N157.39 and N155.65 respectively. At the bureau-de-change (BDC) segment of the market, the naira also appreciated in the period under review by 1.63 and 1.55 per cent compared to the previous and the corresponding quarters respectively as the naira traded for N159.19 to a US dollar as against N161.79 and N161.66 in that order, (Table 8). Consequently, the BDC accrued a premium of 1.19 per cent during this period (chart 15).

In this segment of the market during the period under review, the naira rate stood at N157.38 as against N159.36 and N160.27 recorded in Q3, 2012 and Q4, 2011 respectively. This represents appreciation of 1.26 and 1.84 per cent respectively.

### Value of the Naira and External Competitiveness of the Nigerian Economy

### **NEER and REER**

In Q4, 2012, the index of nominal effective exchange rate (NEER) of the naira depreciated marginally from 98.2 in Q3, 2012 to 98.0 in Q4, 2012.

Also, the real effective exchange rate (REER), narrowed to 77.2 from 79.0 in the same period (Table 9 and Chart 16).

### **External Debt Sustainability Index**

### Public Sector External Debt

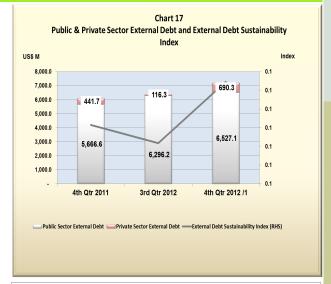

External debt sustainability index, computed as the ratio of external debt to nominal GDP remained at 0.1 in the period under review just as it was in the preceding quarter. The public sector external debt rose from US\$6,296.17 million in Q3, 2012 to US\$6,527.07 million in the period under review as a result of additional loans incurred (Chart 17).

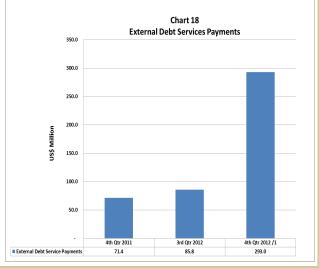

### Private Sector External Debt

During the review period, the private sector external debt stood at US\$690.30 million compared to US\$116.33 million in Q3, 2012 and US\$441.72 million in Q4, 2011. This is as shown in Chart 17.

### **Debt Service Payments**

Public sector debt service payments increased from US\$85.78 million in Q3, 2012 to US\$ 293.00 million in Q4, 2012 (Chart 18).

### Mixed Developments in International Commodity Prices

### **International Commodity Prices**

The prices of the international commodities monitored during the period under review displayed mixed development when compared with the levels recorded in the preceding and corresponding quarters. For instance, the price per metric ton of cocoa which stood at US\$2,494.12 in Q3 2012 increased to US\$2,502.93 in Q4, 2012, representing an increase of 0.4 per cent. Similarly, an increase of 1.4 per cent was observed when compared with the level in Q4, 2011(Table 10).

The price per metric ton of palm oil which stood at US\$778.87 in Q4, 2012 recorded decline of 15.4 and 18.6 per cent below its respective levels in the previous and corresponding quarters. In a similar development, wheat recorded a price increase of 1.3 per cent above the level in the previous period and an increase of 26.6 per cent, when compared with the level in the corresponding period of 2011 (Chart 19, Table 10).

However, price per metric ton of soya beans which stood at U\$\$561.00 in Q4, 2012 recorded a decrease of 8.9 and an increase of 29.1 per cent over its respective levels in the previous and corresponding quarters (Table 10).

### Consumer Expectations Survey Report for 1st Quarter, 2013

### **EXECUTIVE SUMMARY**

The Q1 2013 Consumer Expectations Survey (CES) was conducted during the period 4th February – 15th February, 2013. The sample size was 1,950 households, drawn from the National Bureau of Statistics (NBS) Master Sample List of Households, which is considered a representative sample of households nationwide. The survey produced 99.5 per cent response rate.

The highlights of the CES report are as follows:

- Overall outlook of consumers in Q1 2013 remained downbeat. This could be attributable to the
  negative outlook of consumers family financial situation. Consumers were however optimistic
  in their outlook in the next quarter and the next 12 months. The optimism could be attributable
  largely to the positive outlook of the consumers' family income.
- Respondents outlook on the family financial situation was bleak across all income groups with the "under N20,000.00 per month" group posting the highest pessimism.
- On the average, more households nationwide expect slight increase in their expected expenditure on basic commodities and services in the next 12 months. The consumers would be expected to spend substantial amount of their income on education, food and other household needs, savings, medical expenses, and purchase of consumer durables, but do not plan to spend much of their income on purchase of house and purchase of car/motor vehicle.
- More respondents believed that Q1 2013 is not an ideal time to buy consumer durables, however, they intend to buy consumer durables in the next 12 months but do not intend to buy motor vehicles and house/lot within that period.
- Consumers nationwide expect unemployment, borrowing rate and inflation rate to rise and Naira exchange rate to depreciate in the next 12 months.
- Consumers nationwide expect substantial increase in house rent, food prices, education, transportation cost, electricity rates and medical care in the next 12 months.

### **Consumer Expectations Survey**

### First Quarter, 2013

The nationwide Consumer Expectations Survey (CES) for Q1, 2013 was conducted between 4th February –15th February, 2013, covering a total sample size of 1,950 households drawn from the National Bureau of Statistics (NBS) Master Sample List of Households, which is considered a good representative sample of households nationwide. The states covered, the sample size distribution and response rates are as shown in the Table 1 below, while the location of the sampled states are shown in the Map of Nigeria below.

About the Survey

Table 1: The distribution of sample size and response rate

		Q1 2013 SAMPLE	Q1 2013	RESPONS

South West	and Ondo	400	400	100.0
TOTAL		1950	1941	99.5

Response rate for Q1 2013 stood at 99.5 per cent

The total response rate for the Q1, 2013 survey stood at 99.5 per cent nationwide relative to 98.6 per cent achieved in the previous quarter. The response rate by educational attainment, showed that 46.2 per cent had university education, 30.2 per cent was with higher non-university education, while 13.7 per cent was for those with senior school education. Respondents with primary and junior school education accounted for 3.8 and 3.2 per cent, respectively; while those with no educational background were 2.8 per cent.

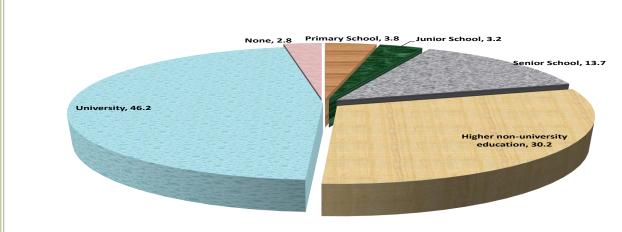

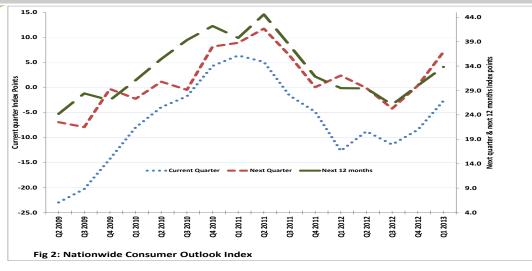

Fig.1: Percentage of respondents by Education

### **Nationwide Consumer Outlook**

Consumer confidence nationwide in Q1 2013 remained downbeat.

Consumer's overall outlook in Q1 2013 remained downbeat. At -2.7 points, it rose by 5.8 points above its level in the previous quarter. The bleak outlook of consumers in the quarter under review, could be attributable to the pessimistic outlook of consumers in their family financial situation, which stood at -18.4 points down from -13.1 attained in the previous quarter (Table B section 2). Consumer outlook for the next quarter and next 12 month was however positive, at 36.9 and 33.8 points. The index rose significantly by 39.6 and 36.7 points from the level attained in the current quarter. The positive outlook of consumers in these quarters could be attributable largely to the optimistic outlook of consumers in their family income.

<sup>&</sup>lt;sup>1</sup>The overall consumer confidence index is determined by the average of three (3) measures, namely, the outlook on macroeconomic conditions, family financial situation and family income.

<sup>&</sup>lt;sup>2</sup>Please refer to the Technical Notes for definition of Family Financial Situation and Family Income.

### **Consumer Outlook Indices: Current Quarter**

There is a weaker sentiment on family financial situation in Q1 2013.

Consumers views were captured across three dimensions, namely: - the economic condition, family financial situation and family income. The confidence indices on the economic condition and family income dimension in the current quarter, posted higher indices than the indices achieved in the previous quarter. At 2.4 and 8.0 respectively, the indices were 12.6 and 10.2 points higher than the points attained in Q4, 2012. The family financial situation however dipped by 5.3 points when compared with its level in the previous quarter. The outlook of consumers in the economic condition and family financial situation reflected the outlook of the consumer's overall index which rose slightly by 5.8 points from its level in the previous quarter (Table B section 2).

Respondents outlook on the economic condition, family financial situation and the family income was mixed across all income groups. The "between N50,000.00 and N100,000 per month" (family income) group posted the highest optimism of 11.3 per cent, while the 'under N20,000 per month '(Family Financial Situation) posted the highest pessimism of –28.7 per cent.

### **Consumer Outlook Indices: Next Quarter and the Next 12 months**

Consumers'
confidence in the
next quarter and the
next twelve months
across all the three
dimensions of
economic condition,
family financial
situation, and family
income would be
expected to be
upbeat.

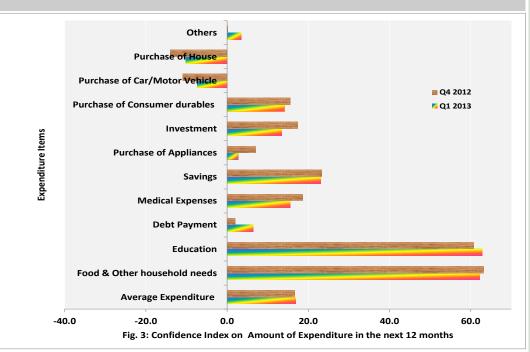

Consumers expectations on economic conditions, family financial situation and family income in the next quarter and the next 12 months would be expected to be better than their outlooks in the current quarter. For the next quarter, at 26.8 14.1 and 69.8 points, the indices rose by 24.4, 32.5 and 61.8 points, respectively, when compared with the level achieved in the current quarter. A similar trend would be expected in the next 12 months, with family income at 62.3 per cent posting the highest index (Table B sections 3 & 4).

For the next quarter, and the next 12 months respondents across all income groups were optimistic, as they all posted positive indices,

Respondents from the income group "between the N20,000 - N50,000 ,between N50,000 and N100,000 per month" and over N100,000 were most optimistic that the family income would rise in the next twelve months with confidence indices of 64.3, 63.5 and 60.0 points, respectively.

### **Expenditures in the Next 12 Months**

More Consumers
nationwide would
be expected to
spend substantial
amount of their
income on food
and other
household needs,
followed by
education, savings,
medical expenses,
investment and
purchase of

On the average, more households nationwide expect some slight increase in their expected expenditure on basic commodities and services in the next 12 months. With an average index of 17.0 per cent obtained in the current quarter, the index rose by 0.3 and 2.3 points from the level in the previous quarter and the corresponding quarter of 2012, respectively (Table B section 5).

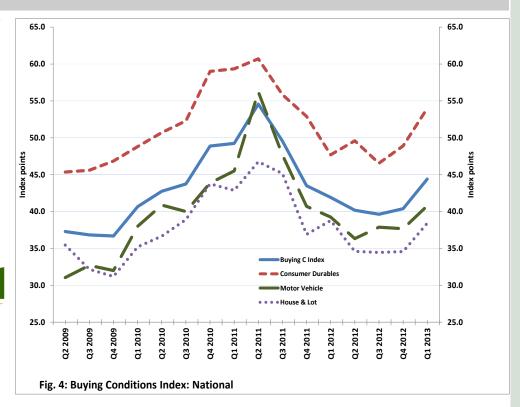

Consumers nationwide would be expected to spend substantial amount of their income on education (62.8 index points), food and other households needs (62.3 points) followed by, savings (23.1 points), medical expenses (15.6 points), purchase of consumer durables (14.2 points) and investment (13.5 points) in the next 12 months. Conversely, majority of consumers indicated that they do not plan to spend substantial amount of their income on purchase of house (-10.2 points) and purchase of car/motor vehicle (-7.4 points). These results conforms with the National Household Expenditure Survey which shows that majority of households spend substantial amount of their income to meet their basic needs and have little left for long term investment (Fig. 3).

On inflationary expectations, consumers nationwide expect substantial increase in house rent (66.9 points), food (65.0 points), education (54.2 points), transportation (54.1 points) and electricity (49.4 points) in the next 12 months. Based on this outlook, government and/or monetary authority would be expected to take appropriate measures to dampen the impact of these inflationary expectations on the economy.

Consumers
nationwide
expect
substantial
increase in house
rent, cost of
education,
transportation
cost, food prices,
and electricity
rates in the next

### **Buying Conditions<sup>2</sup>**

More respondents believed that Q1 2013 is not an ideal time to buy consumer durables.

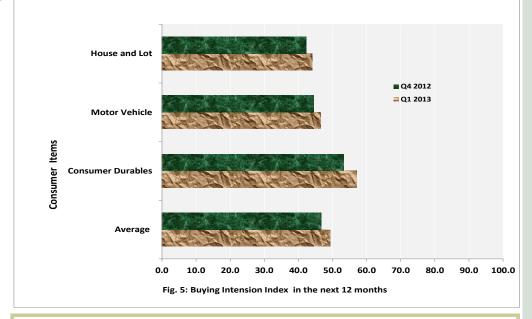

The assessment of consumers as to whether it is good time, neither good nor bad or bad time to buy big ticket items during the quarter indicated that majority of consumers nationwide, believed that the current quarter is not the ideal time to buy such items.

The majority of consumers nationwide, believed that the current quarter is not the ideal time to purchase big-ticket items like consumer durables, motor vehicles and house and lot. The overall buying conditions index for consumer in the current quarter for big-ticket items stood at 44.4 per cent, representing an increase of 4.0 points when compared with the level attained in previous quarter. The marginal increase in buying conditions index in the current quarter was driven largely by the increase in sentiments on consumer durables, motor vehicle and house & lot.

<sup>&</sup>lt;sup>2</sup>Buying condition refers to the assessment of consumers as to whether it is good time, neither good nor bad or bad time to buy assets (ie. consumer durables, house and lot, and motor vehicles) during the quarter. An index above 50 means more respondents indicated that it is a good time to buy assets; below 50 means more respondents believe that it would not be an opportune time to make purchases; and 50 means the number of respondents on both sides is equal. BCI = 0.5(100+DI), where DI = diffusion index

## **Buying Intentions<sup>3</sup> in the Next 12 Months**

Majority of the respondents believed that the next 12 months will not be an ideal time to buy house/lot and motor vehicles, but an ideal time to buy consumer durables.

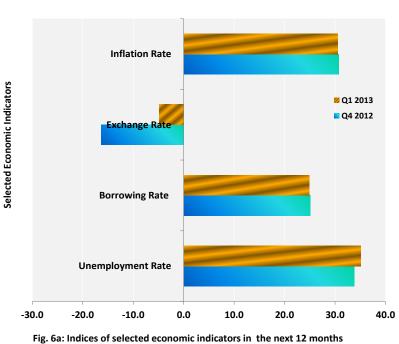

The proportion of respondents that indicated intentions to buy big tickets items in the next 12 months rose to 49.3 points from the 46.7 points achieved in the previous quarter. Similarly, it rose by 0.2 points when compared with the level achieved in the corresponding period a year ago. Majority of the respondents believed that the next 12 months will not be an ideal time to buy house/lot and motor vehicles, but will be an ideal time to buy consumer durables.

#### **Indices of Selected Economic Indicators**

Majority of the consumers nationwide expect unemployment to rise in the next 12 months. The unemployment index for the next 12 months obtained in Q1 2013 remained positive at 35.2 points up by 1.4 points from the 33.8 points in the previous quarter. Consumers expect borrowing rate to rise and exchange rate to depreciate in the next 12 months as the borrowing rate and exchange rate indices stood at 24.9 and -4.8 points respectively (Fig.6).

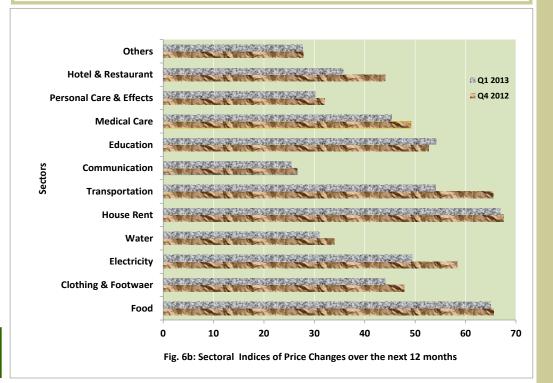

<sup>&</sup>lt;sup>3</sup>Buying intention refers to the assessment of consumers as to whether it is good time, neither good nor bad or bad time to buy assets (ie. consumer durables, house and lot, and motor vehicles) during the next 12 months. An index above 50 means more respondents indicated that it is a good time to buy assets; below 50 means more respondents believe that it would not be an opportune time to make purchases; and 50 means the number of respondents on both sides is equal. Bl = 0.5(100+Dl), where Dl = diffusion index

**Consumers** nationwide expect unemployment, borrowing rate and inflation rate to rise and exchange to depreciate in the next 12 months.

Majority of consumers expect inflation rate to rise in the next 12 months as the index stood at 30.5 points. The major drivers for the upward movement in prices in the next 12 months are house rent, food, transportation, electricity, education and medical care.

The major drivers for the expected rise in prices in the next 12 months are house rents, transportation, food, electricity and education.

## **TECHNICAL NOTES**

The overall consumer confidence index is computed as the average of the three indices, namely:

- 1. **Economic Condition** refers to the perception of the respondent regarding the general economic condition of the country.
- 2. **Family Financial Situation** refers to the level of savings, investments, other assets including cash at hand and outstanding debts.
- 3. Family Income includes primary income and receipts from other sources received by all family members as participants in any economic activity or as recipients of transfers, pensions, grants, and the like.

The **confidence index** or **diffusion index** is computed as the percentage share of respondents that answered in the affirmative less the percentage share of respondents that answered negative in a given indicator. A positive CI indicates that respondents with a favorable view outnumber those with an unfavorable view, except for unemployment, change in prices and interest rate for borrowing money, where a positive CI indicates the opposite.

**Buying condition and buying intention indices** refers to the assessment of consumers as to whether it is good time, neither good nor bad or bad time to buy assets (ie. consumer durables, house and lot, and motor vehicles) during the quarter. An index above 50 means more respondents indicated that it is a good time to buy assets; below 50 means more respondents believe that it would not be an appropriate time to make purchases; and 50 means the number of respondents on both sides is equal.

Q1 2013, North Central Zone

#### **Consumer Outlook**

Overall consumer outlook for respondent in the North Central zone remained downbeat in Q1, 2013. At – 1.7 points the index though negative rose by 10.1 points, above the level in the previous quarter. The negative outlook of consumers in the quarter under review, could be attributable to the pessimistic outlook of consumers in their family financial situation which stood at –22.1 points in the quarter (Table C section 2). However, consumer outlook for the next quarter and next 12 months remained positive, at 37.7 and 32.5 points respectively. The positive outlook of consumers in the next quarter and the next 12 months could be attributable largely to the optimistic outlook of consumers in their economic condition, family financial situation and family income.

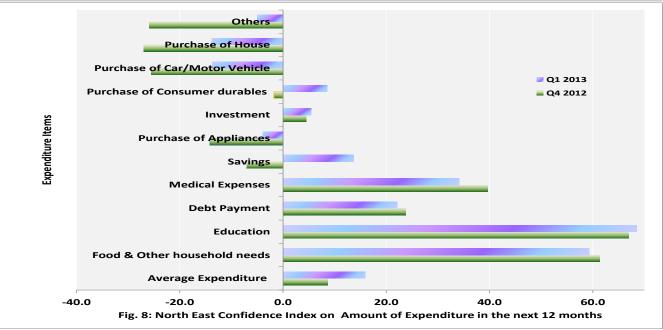

On the average, more households in the zone expect an increase in their expected expenditure on basic commodities and services in the next 12 months. With an average index of 26.7 points, the index rose by 5.7 points, from the 21.0 points obtained in the previous quarter (Table C section 5 and Fig. 7). The breakdown of the expected expenditure over the next 12 months are: education (56.7 points), food and other household needs (56.4 index points), savings (39.4 points), purchase of consumer durables (34.9 points) and investment (30.4 points).

The proportion of respondents that indicated intentions to buy big tickets items in the next 12 months rose to 55.1 points from the 54.6 points obtained in the previous quarter. The rise in buying intention index in Q1 2013 suggest that the majority of the respondents indicated that the next 12 months will be an opportune time to purchase big ticket items.

#### **Consumer Outlook (North East Zone)**

Consumers' overall outlook in the North East zone remained downbeat in the current quarter. At -3.5 points the index rose by 11.2 points below their levels in previous quarter. The negative outlook of consumers in the quarter under review, could be attributable to the pessimistic outlook of consumers in their family financial situation, which stood at -28.7 in the quarter under review (Table D section 2). However, consumer outlook for the next quarter and next 12 months was positive, at 43.7 and 37.2 points respectively. The positive outlook of consumers in the next quarter and next 12 months could be attributable largely to the optimistic outlook of consumers in their family economic condition and family income

On the average, more households in the zone expect an increase in their expected expenditure on basic commodities and services in the next 12 months. With an average index of 15.9

points the index rose by 7.3 points, from the 8.6 points obtained in the previous quarter (Table D section 5 and Fig. 8).

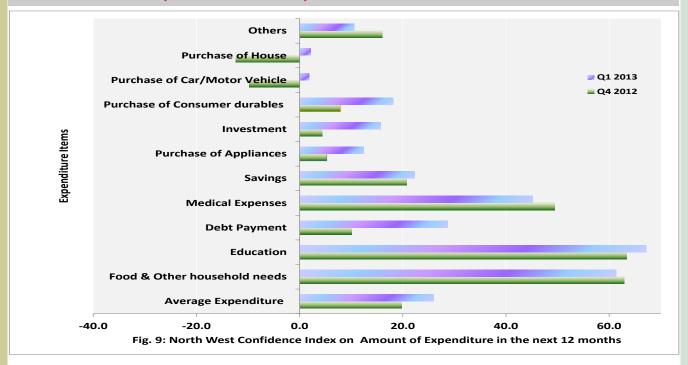

The breakdown of the expected expenditure over the next 12 months are: education (68.6 points), food and other household needs (59.3 index points), medical expenses (34.2 points), debt payment (22.1 points) and Savings (13.8 points). Conversely, majority of consumers indicated that they do not plan to spend substantial amount of their income on purchase of house (-13.9 points), Purchase of cars /motor vehicles (-13.8 points) and others (-5.0 points).

The proportion of respondents that indicated intentions to buy big tickets items in the next 12 months rose to 47.2 points from the 41.2 points obtained in the previous quarter. The buying intention index points obtained in Q1, 2013 suggest that the majority of the respondents indicated that the next 12 months will not be an opportune time to purchase big ticket items.

## **Consumer Outlook (North West Zone)**

The North West zone consumers' overall outlook in Q1, 2013 remained downbeat. At -4.3 points the index dipped by 1.0 points below its level in previous quarter. The negative outlook of consumers in the quarter under review, could be attributable to the pessimistic outlook of consumers in their family financial situation which stood at -17.6 points. (Table E section 2). Consumer outlook for the next quarter and the next 12 months were however positive at 39.7 and 31.3 points, respectively. The positive outlook of consumers in the next guarter and the next 12 months could be attributable to the optimistic outlook of consumer in their economic condition, family financial situation and family income.

On the average, more households in the zone expect an increase in their expected expenditure on basic commodities and services in the

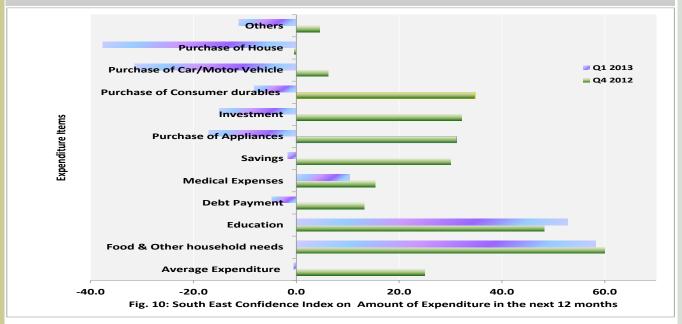

next 12 months. With an average index of 26.0 points, the index rose by 7.2 points, from the 19.8 points obtained in the previous quarter (Table E section 5 and Fig. 9). The breakdown of the expected expenditure over the next 12 months are: education (67.2 points), food and other household needs (61.4 index points), medical expenses (45.2 points), Debt payments (28.8 points) and savings (22.3 points).

The proportion of respondents that indicated intentions to buy big tickets items in the next 12 months rose to 47.7 points from the 44.1 points obtained in the previous quarter. The buying intention index obtained in Q1 2013 suggest that the majority of the respondents indicated that the next 12 months will not be an opportune time to purchase big ticket items.

#### **Consumer Outlook (South East Zone)**

The South East zone consumer's overall outlook remained downbeat in Q1, 2013. At -8.7 points the index dipped by 7.4 points above its level in previous quarter. The negative outlook of consumers in the quarter under review, could be attributable to the pessimistic outlook of consumers in their Economic condition and family financial situation, which stood at -1.0 and -29.4 points from -1.6 and -6.2 points in the previous quarter (Table F section 2). However, consumer outlook for the next quarter and the next 12 months were positive at 28.3 and 23.8 points, respectively. The positive outlook of consumers in the next quarter and the next 12 months could be attributable to the optimistic outlook of consumers in their economic condition, family financial situation and family income. On the average, less households in the zone expect an increase in their expected expenditure on basic commodities and services in the next 12 months. With an average index of -0.5 points, the index dipped by 25.5 points, from the 25.0 points obtained in the previous quarter (Table F section 5 and Fig. 10).

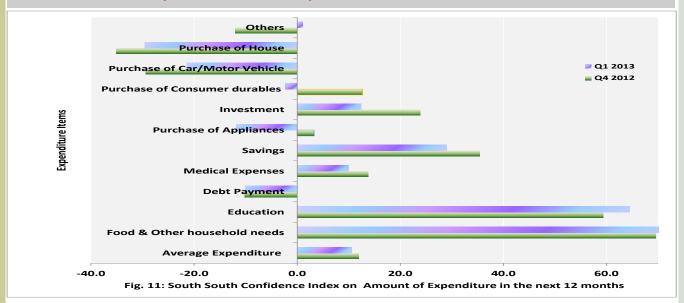

The breakdown of the expected expenditure over the next 12 months are: food and other household needs (58.2 index points), education (52.8 points) and medical expense (10.4 points). Conversely, some of the consumers indicated that they do not plan to spend substantial amount of their income on purchase of house (-37.6 points), purchase of car/motor vehicle (-31.4 points) purchase of appliance (-17.0 points), investments (-15.0 index points) and others (-11.2 points).

The proportion of respondents that indicated intentions to buy big tickets items in the next 12 months rose to 76.3 points from the 49.4 points obtained in the previous quarter. The increase in the buying intention index points obtained in Q1 2013 suggest that the majority of the respondents indicated that the next 12 months will be an opportune time to purchase house & lot.

#### **Consumer Outlook (South South Zone)**

Consumers overall outlook in the South South zone in Q1 2013 remained downbeat at -1.2 points. The index rose by 13.5 points above its levels in the previous quarter. The negative outlook of consumers in the quarter under review, could be attributable to the pessimistic outlook of consumers in their economic and family financial situation and family income whose indices stood at -0.1 and -5.7 points, respectively (Table G section 2). However, consumer outlook for the next quarter and the next 12 months were positive at 30.9 and 39.5 points, respectively. The positive outlook of consumers in the next quarter and the next 12 months could be attributable to the optimistic outlook of consumers in their economic condition, family financial situation and family income.

On the average, less households in the zone expect an increase in their expected expenditure on basic commodities and services in the next 12 months. At 10.6 points, the index dipped by 1.3 points, from the 11.9 points achieved in the previous quarter (Table G section 5 and Fig. 11).

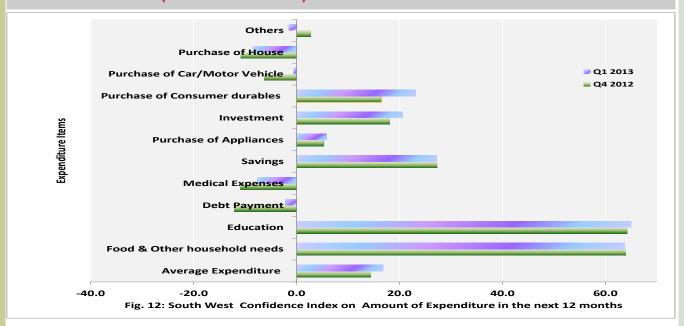

The breakdown of the expected expenditure over the next 12 months are: food and other household needs (74.2 index points), education (64.6 points), savings (29.1 points), investment (12.5 points) and medical expenses (10.1 points). Conversely, majority of consumers indicated that they do not plan to spend substantial amount of their income on purchase of house (-29.6) purchase of cars/motor vehicles (-21.4 points) purchase of appliances (-11.8 points) and debt payments (-10.1 points).

The proportion of respondents that indicated intentions to buy big tickets items in the next 12 months rose to 45.6 points from the 44.3 points obtained in the previous quarter. The buying intention index obtained in Q1 2013 suggest that the majority of the respondents indicated that the next 12 months will not be a good time to purchase motor vehicles and house & lot.

#### **Consumer Outlook (South West Zone)**

The South West zone consumers' overall outlook was upbeat in Q1, 2013. At 1.0 points the index rose by 6.8 points above the level in the previous guarter. The positive outlook of consumers in the quarter under review, could be attributable to the optimistic outlook of consumers in their economic condition and family income which stood at 2.0 and 12.5 in the quarter, respectively (Table H section 2 and Fig. 12). Similarly, consumer outlook for the next quarter and the next 12 months were positive at 38.6 and 36.5 points, respectively. The positive outlook of consumers in the next quarter and the next 12 months could be attributable to the optimistic outlook of consumers in their economic condition, family financial situation and family income.

On the average, more households in the zone expect an increase in their expected expenditure on basic commodities and services in the next 12 months. With an average index of 16.9 points, the index rose by 2.5 points, from the 14.4

points obtained in the previous quarter (Table H section 5 and Fig. 12).

The breakdown of the expected expenditure over the next 12 months are: education (65.1 points), food and other household needs (63.8 index points), savings (27.3 points), and purchase of consumer durables (23.2 points). Conversely, majority of consumers indicated that they do not plan to spend substantial amount of their income on purchase of house (-8.5 points) and medical expenses (-7.6 points).

The proportion of respondents that indicated intentions to buy big tickets items in the next 12 months rose to 55.2 points from the 53.4 points obtained in the previous quarter. The buying intention index obtained in Q1, 2013 suggest that the majority of the respondents indicated that the next 12 months will be an opportune time to purchase house & lot.

# Business Expectations Survey Report for 1st Quarter, 2013

## **EXECUTIVE SUMMARY**

The First quarter 2013 Business Expectations Survey (BES) was carried out between the period of February 4-13, 2013 with a sample size of 1,950 business enterprises nationwide. A response rate of 99.6 per cent was achieved, and the sectors covered during the exercise included Industry, Construction, Wholesale/Retail Trade and Services.

The highlights of the BES report are as follows:

- Respondent firms were optimistic on the macro economy in the quarter under review.
   The expected drivers for the optimism on the macro economy, are Industrial, construction, wholesale/retail trade, and services sectors.
- The increase in the volume total order book and the financial condition of the firms, improved the volume of business activity and average capacity utilization in the current quarter.
- The credit access of firms rose in the current quarter.
- The positive outlook in the volume of business activities of the firms, implied a higher prospects for employment in Q1, 2013. The employment outlook index by sector, shows that the construction sector has a higher prospect for creating jobs, followed by services, and the wholesale and retail sector.
- The wholesale/retail sector indicated more interest of expanding their businesses with an index of 42.0 points, in the next quarter. Similarly, in the construction, services and industrial sectors, firms indicated interest in expanding their businesses in Q1, 2013 with indices of 34.6, 30.3 and 24.2 points, respectively.
- The respondent firms emphasized, insufficient power supply, financial problems, High interest rate, competition, unfavourable economic climate, and access to credit as the major factors among others, constraining the business activity in the current quarter.
- Respondent firms expect the naira to appreciate in the current and next quarter. They
  also expect inflation and borrowing rates to rise in both the current and next quarters.

#### **Business Expectations Survey**

#### First Quarter, 2013

The Q1 2013 Business Expectations Survey (BES)<sup>1</sup> was conducted during the period February 4-13, 2013. There were 1,950 firms surveyed nationwide, drawn from the updated survey frames of both the Central Bank of Nigeria (CBN) and the National Bureau of Statistics (NBS). The survey produced a response rate of 99.6 per cent in the quarter under review.

The Map and Table 1 below show the sampled states, the sample size and the percentage response rate of the survey.

<sup>&</sup>lt;sup>1</sup>The Business Expectations Survey (BES) is a quarterly survey of leading firms drawn from Business Establishment updated frames of Central Bank of Nigeria and the National Bureau of Statistics. The BES result provides advance indication of change in the overall business activity in the economy and in the various measures of activity of the companies' own operations as well as selected economic indicators.

## **Overall Business Outlook on the Macro economy**

Respondents were drawn from the Industrial, Construction, Wholesale/Retail Trade and Services sectors made up of: Financial Intermediation, Hotels and Restaurants, Renting and Business Activities and Community and Social Services.

The overall response rate for the quarter, at 99.6 per cent was 3.1 and 5.2 percentage points above the level attained in the previous quarter and the corresponding quarter of 2012. A breakdown of the responses received by type of business showed that the "Neither importer nor exporter" category of the respondents accounted for the highest of 73.1 per cent followed by the "importer" with 17.0 per cent. "Both Importer and Exporter" respondents accounted for 8.2 per cent, while 1.7 per cent represented the exporter" category (Table B sections 16 & 18).

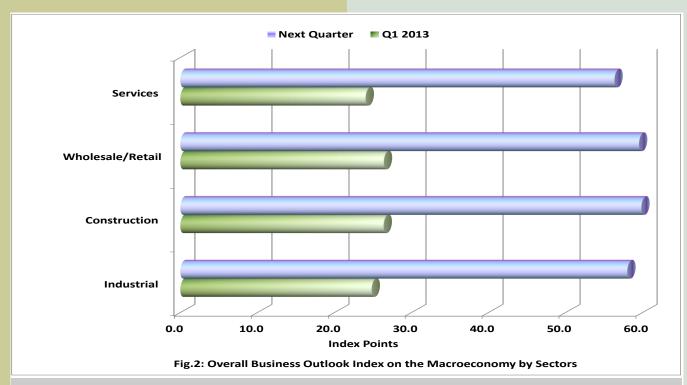

Business
outlook
for the
current
and next
Quarter
was optimistic.

Respondent firms were optimistic on the macro economy in the quarter under review as overall confidence index (CI)<sup>2</sup> further rose to 25.1 index points, up by 14.2 points above the level achieved in the previous quarter. Similarly, respondents were more optimistic about the macro economy in the next quarter, as the overall confidence index would be expected to rise to 58.0 points.

The expected drivers for the optimism on the macro economy in the current quarter, are construction, wholesale/retail trade, industrial and services sectors as their indices stood at 26.4, 26.4, 24.8 and 24.1 points, respectively (Table B, Section 2). Similarly, the expected drivers for the optimism on the macro economy in the next quarter, are construction, wholesale/retail trade, industrial and services sectors as their indices stood at 59.9, 59.6, 58.0 and 56.4 points, respectively (Table B, Section 3).

<sup>&</sup>lt;sup>2</sup>The CI is computed as the percentage of firms that answered in the affirmative less the percentage of firms that answered in the negative in a given indicator. A positive CI indicates a favourable view, except for the average inflation rate and the average naira borrowing rate, where a positive CI indicates the opposite.

## Macro economy outlook by type and size of business

Optimism on the macro economy in the current and next quarters were driven by all type of businesses.

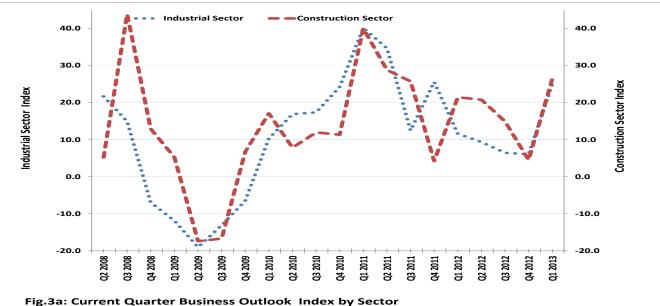

The driver by type of business for the optimism on the macro economy in the current quarter, are "Importer" (34.5 per cent), "Exporter" (27.3 per cent), followed by "both importer and exporter" (26.9 per cent) and "Neither importer nor Exporter" (22.7 per cent) .Similarly, the optimism on the macro economy in the next quarter is driven by all types of businesses (Table B section 12).

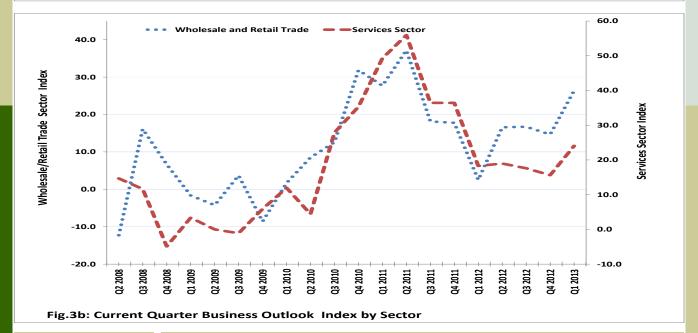

The percentage distribution of respondent firms by type of business showed that "neither importer nor exporter" constitutes the highest percentage of responses (73.1 per cent), followed by "importer" (17.0 per cent), "both importer and exporter" (8.2 per cent) and "exporter" (1.7 per cent) (Table B section 16).

The drivers by size of business for the optimism on the macro economy in the current quarter are the large, medium and small firms whose indices stood at 34.7, 29.3 and 23.7 index points respectively. Similarly, the drivers by size of business for the optimism on the macro economy in the next quarter are the large, medium and small firms whose indices stood at 62.9, 62.7 and 56.9 index points, respectively (Table B sections 14 & 15).

The percentage distribution of respondent firms by employment size showed that small size firms constitutes the highest percentage of responses (80.1 per cent), followed by medium size firms (13.5 per cent), and large size firms (6.4 per cent) (Table B section 17).

The business sentiment was upbeat across all sectors in Q1 2013

Business sentiment across all sectors was upbeat in the current quarter. The indices of the industrial, construction, wholesale/retail trade and services, rose to 24.8, 26.4, 26.4 and 24.1 points above their levels of 6.1, 4.5, 14.7 and 15.6 points respectively in the preceding quarter (Figs. 3a and 3b).

The distribution of respondent firms by sector of business shows that services sector constitutes the highest number of responses (715), followed by wholesale/retail (492), industrial (467) and construction (269) (Table B section 18).

## **Business Confidence on Own Operations by Sector**

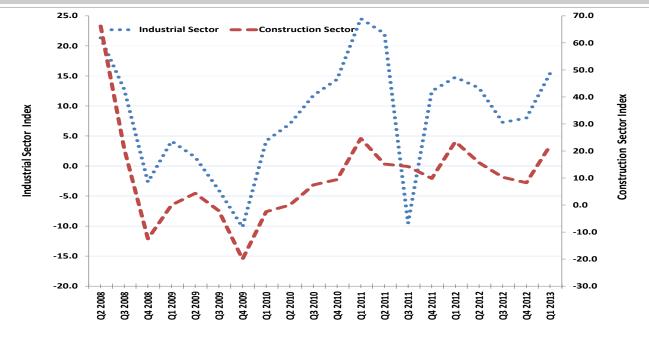

Fig. 3c: Current Quarter Business Outlook Index on Own Operations by Sector

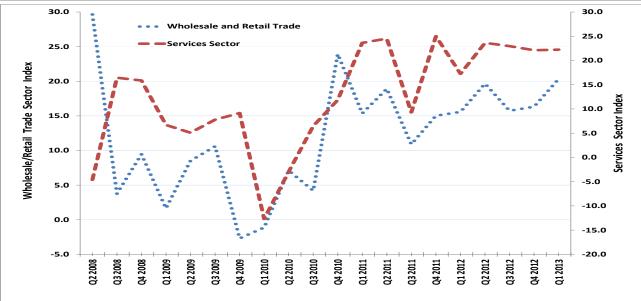

Fig. 3d: Current Quarter Business Outlook Index on Own Operations by Sector

Business confidence indices on own operations was upbeat across all sectors in Q1, 2013.

The confidence index on own operations by sectors in the current quarter was upbeat across all sectors. The industrial, construction, wholesale/retail trade and services sectors were upbeat at 15.4, 21.9, 20.3, 22.2 respectively in Q1 2013, up from their level of 8.0, 8.3, 16.3 and 22.1 respectively in the previous quarter.

The average capacity utilization index (CUI) at 24.4 points in Q1, 2013, rose by 3.4 points when compared with the 21.0 points achieved in the previous quarter (Fig. 4).

Average Capacity
Utilization rose in
the current quarter.

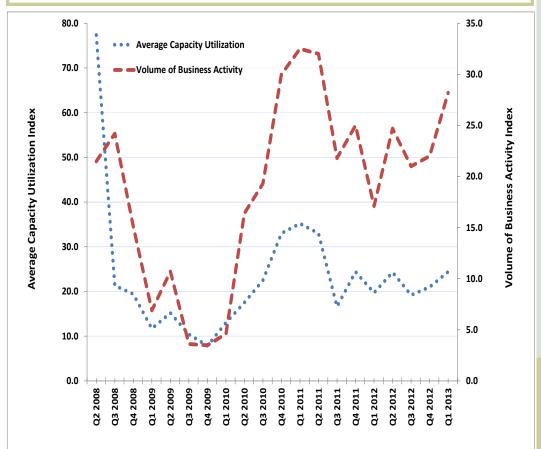

Fig. 4: Volume and Average Capacity Utilization Indices

the credit access, improved the liquidity position of firms in Q1, 2013.

The upbeat in

#### **Access to Credit and Financial Condition**

The financial condition index in the current quarter stood at 20.1 per cent and was driven largely by the services sector whose confidence index on own operations stood at 22.2 points (Table B sections 4&5).

The expectations of the respondent firms of an increase in the volume of total order book and the financial condition in the current quarter, improved the volume of business activity and average capacity utilization. The increase in the access to credit index increased the firm's internal liquidity position as the index rose to 20.1 points from 14.0 points achieved in the preceding quarter (Table B section 5).

The positive outlook of the volume of business activities of the firms suggests a higher prospects for employment in the next quarter

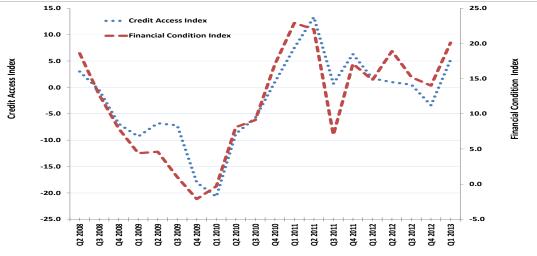

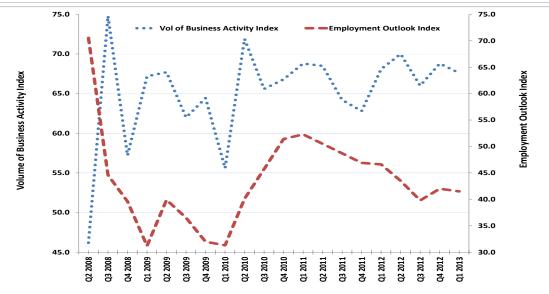

Fig. 5: Business Outlook Index on own operations - Access to Credit and Financial Condition

The employment outlook index by sector showed that the construction sector had more prospects for employment in the next quarter.

#### **Employment and Expansion Plans**

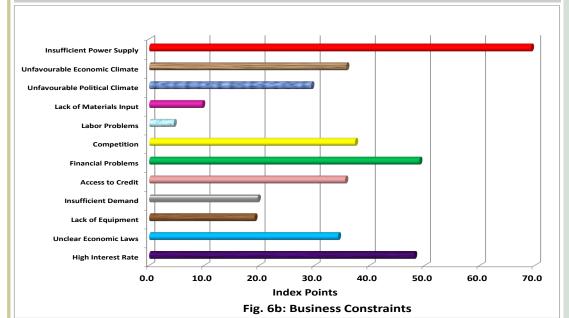

At 67.6 index points, the positive outlook in the volume of business activities implied a higher prospects for employment in the next quarter, as the employment index stood at 41.5 points. The employment outlook index by sector, shows that the construction sector has a higher prospect for creating jobs (46.5 points), followed by services sector (44.2 points), wholesale/retail trade (40.9 points) and the industrial sector (35.1 points) (Table B sections 6 & 7).

On the analysis of businesses with expansion plans by sector, the wholesale/retail sector indicated the more interest for expansion with an index of 42.0 points, in the next quarter. Similarly, construction, services and industrial sectors firms indicated interest in expanding their businesses in Q2, 2013 with indices of 34.6, 30.3, and 24.2 points, respectively (Table B section 8).

Fig. 6a: Next Quarter Employment Outlook and Volume of Business Activity Indices

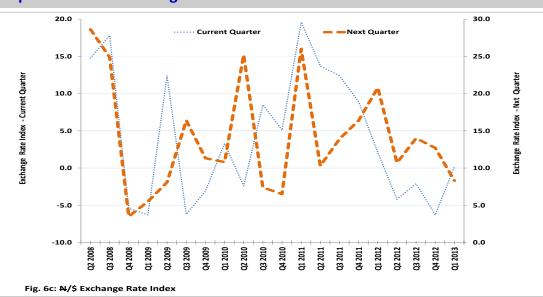

Insufficient
power supply,
financial problems, high interest rate,
competition,
unfavourable
economic climate and access to credit
among others
remain major
threats to
business in Nigeria.

#### **Business Constraints**

The respondent firms emphasized, insufficient power supply (69.3 index points), financial problems (49.0 index points), high interest rate, (48.1 index points), competition (37.4 index points) unfavourable economic climate (35.8 index points) and access to credit (35.6 index points) as the major factors among others, constraining the business activity in the current quarter (Fig. 6b).

#### **Expectations on Exchange Rate**

Respondent firms expect the naira to appreciate in the current quarter, and next quarter, as the confidence indices stood at 0.2 and 8.3 points in current and next quarters, respectively (Fig. 6c).

The respondent firms expect the Naira to appreciate in the current and next quarters

## **Expectations on Inflation and Borrowing Rates**

**Inflation rate** is expected to rise in both the current and next

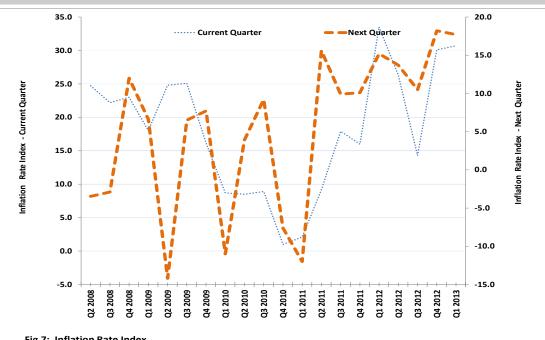

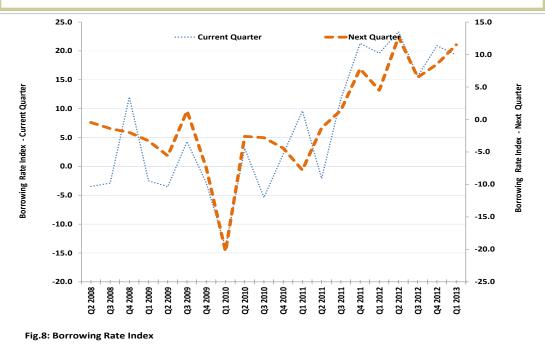

Fig.7: Inflation Rate Index

Respondent firms expect inflation rate to rise in both the current and next quarters, as the confidence indices stood at 30.7 and 17.7 points in the current and next quarter, respectively (Fig. 7).

In both the current and the next quarters, the respondent firms expected borrowing rates to rise.

Respondent firms expect the borrowing rate to rise in both the current and next quarters as the confidence indices stood at 19.3 and 11.5 points in Q1 2013 and Q2 2013, respectively (Fig. 8).

Q1 2013 North Central Zone

#### **Business Outlook**

Respondents in the North Central zone remained

optimistic on business activities in the quarter under review as overall confidence index rose to 32.3 index points, up by 12.5 points above the level achieved in the previous quarter. Similarly, respondents were optimistic about business activities in the next quarter, at 59.1 points, the index rose by 26.8 points above the level achieved in the current quarter (Fig. 9).

construction, services and industrial sectors whose (Table C section 8). indices rose to 42.2, 40.7, 28.1 and 21.9 points, respectively (Table C section 2).

Respondents' optimism in the volume of total or- expect inflation and borrowing rates to rise in both der book and financial condition of the firms in the current and next quarters (Tables C sections 9 & zone, improved both the volume of business activi- 10). ty and average capacity utilization in the current quarter. Similarly, the increase in access to credit by the majority of firms improved the financial condition of firms in the review quarter.

tion) of the firms at 25.1 points in the current quar- (Table C section 11).

ter was driven by all the sectors: construction, wholesale/retail trade, services and industrial sectors whose business confidence indices on own operations stood at 39.0, 22.9, 23.7 and 19.2 points in the current quarter, respectively (Table C sections 4 & 5).

Respondents in the zone cited insufficient power supply, financial problems, access to credit, , high interest rate, unfavourable economic climate and The optimism in the overall business outlook in the unfavourable political climate among others as limzone could be adduced to wholesale/retail trade, iting factors to the growth of business activities

> Respondent firms in the zone expect naira to appreciate in the current and next quarters. They also

The respondent firms by type of business showed that "neither importer nor exporter" category constituted the majority with 76.6 per cent, followed by, "importer" 15.7 per cent "both importer and The financial condition (or internal liquidity posi- exporter" 5.7 per cent and "exporter" 2.0 per cent

Q1 2013 South South Zone

#### **Business Outlook**

spondents are optimistic about business activities respectively (Table G sections 4 & 5). in the next quarter, at 60.5 points, the index rose by 40.7 index points above the level achieved in

The optimism in the overall business outlook in the zone could be adduced to the industrial wholesale/retail, services, and construction sectors whose indices remained positive at 26.9, 19.2, 17.1 and 16.3 points respectively (Table G section 2).

the current quarter (Fig. 13).

The increase in the volume total order book and the financial condition of the firms improved the (Table G sections 9 &10). volume of business activity in the zone in the current guarter. Similarly, the increase in firms access to credit increased the internal liquidity position of the firms in the quarter. The average capacity utilization of firms in the zone however dipped to 20.4 points from the 22.4 points in the previous quarter (Table G section 5).

Respondent firms in the South South zone were The financial condition index stood at 19.1 per cent less optimistic on business activities in the quarter in the current quarter, and was driven largely by under review as overall confidence index further wholesale/retail trade, services, industrial and condipped to 19.8 index points, from the 21.0 points struction sectors whose confidence indices on own achieved in the previous quarter. However, re-operations stood at 23.1, 19.8, 15.4 and 14.0 points,

> Respondents in the zone cited insufficient power supply, financial problems, financial problems, high interest rate, competition and access to credit among others as limiting factors to the growth of business activities (Table G section 8).

> Respondent firms expect naira to depreciate in the current guarter but appreciate in the next guarter. However, inflation and borrowing rates are expected to rise in both current and next quarters

> The respondent firms by type of business shows that "neither importer nor exporter" category constituted the majority with 77.9 per cent, followed by "importer" 14.4 per cent, "both importer and exporter" 7.4 per cent and "exporter" firms 0.3 per cent (Table G section 11).

# Inflation Attitudes Survey Report for 1st Quarter, 2013

# **EXECUTIVE SUMMARY**

The 2013 First Quarter survey of households' attitudes to inflation and interest rates was conducted by the Statistics Department between 4th to 13th February, 2013. This was in its bid to asses the general publics' perceptions of inflation which will help gauge Banks macroeconomic policy formulation.

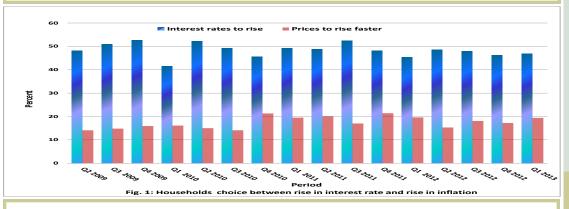

- The survey showed that given a choice, about 46.9 per cent of the households would prefer a rise in interest rate as against 19.4 per cent which preferred that price should rise faster, while 33.4 per cent of households were indifferent.
- About 60.5 per cent of the households indicated that prices have generally inched up over the last 12 months with the median of about 2.4 per cent increase.
- About 43.8 per cent of the respondents were of the view that the 10.0 per cent Government targeted inflation rate in this year's budget is too high, while 16.7 per cent of the households felt it is too low.
- Respondents households median expectations of the price changes over the next 12 months
  was that prices would inch up by 1.5 per cent, which is lower than 1.8 per cent in their perceptions in the preceding quarter.
- Majority of the respondents, (61.1 per cent) are satisfied with the way CBN is doing its job; while 14.3 per cent are dissatisfied, giving a net satisfaction index of 46.8 per cent.

## THE CBN INFLATION ATTITUDES SURVEY

#### 1.0 Introduction

The Central Bank of Nigeria (CBN), aside from its price and monetary stability mandate, is also tasked with supporting the Government's policies on economic growth and unemployment reduction. One major objective of the Bank is to build public confidence and support for sustainable economic development, price stability, and public understanding of the Monetary Policy Committee's roles. If people understand and support the objectives of price stability as well as understand how the interest rate is used to achieve it, macroeconomic stability which is an essential prerequisite for economic growth and development would be attained.

Monetary Policy framework will be most effective, if accompanied by wide public understanding and support, both for the objective of price stability and the methods to achieve it.

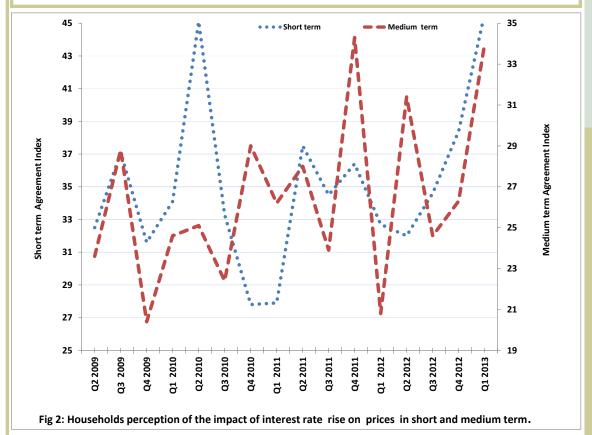

The level of interest rates deemed appropriate to achieve this, is decided by the Monetary Policy Committee (MPC) on periodic basis. The Committee equally articulates other foremost policy frameworks which are considered as catalysts in moderating price changes and economic stability.

In order to assess the impact of the Bank's efforts in building general public support for price stability, sample survey of public opinion is often used. The Statistics Department, on behalf of the CBN embarked upon this survey, with a view to assessing the general public's perceptions of inflation in the past one year, and their expectations for inflation over the next year. They also sample their views on interest rate and knowledge of the monetary policy framework. Opinion poll was effectively used in exploring the progression of public views and general understanding of monetary policy matters. A good estimate of inflation expectations and public understanding of what influences them are important parameter for successful monetary policy. In this way, the Bank will be in a position to quantify the impact of its efforts in stabilizing and sustaining prices in the Nigerian economy. Results of the recent survey of the public perceptions on this are discussed.

# 2.0 Inflation Attitudes Survey

This is a forward looking survey
on households' perception of
price of
goods and
services developments
within a
horizon of
12 months.

The Statistics Department on a quarterly basis since June 2009 does the inflation Attitude Survey to sample the views of households on how they view the price changes of goods and services in the shops in the last twelve months, and their expectations of price changes over the next twelve months. The Q1, 20l3 Inflation Attitude Survey being the most recent in the series was conducted between 4th to 13th of February, 2013 with a sample size of 1,950 households in 350 randomly selected Enumeration Areas (EAs), in the six geopolitical zones of the country. The raw data were weighted to match the demographic profile of Nigeria as a whole. Table 1 presents the summary of results of the inflation attitudes surveys so far conducted.

Inflation expectations do vary amongst household due to the differences in the goods and services bought, which often leads to differences in the prices of the goods and services. Thus, the designed questionnaire captures information on age, sex, income, employment status of the head of the household, among others.

## THE CBN INFLATION ATTITUDES SURVEY

"Questions were also asked about how prices had moved in the past 12 months and expected movement in prices in the next 12 months. A total of 14 questions were asked. Some of these questions sought information on public knowledge, understanding and attitudes towards the MPC process, as well as expectations of interest rates and inflation."

The survey involves in-house face-to-face interviews of members of selected households. The selection entailed a quota sample of individuals within randomly selected Enumeration Areas (EAs). This was done using the instrumentality of the National Integrated Survey of Households (NISH) of the National Bureau of Statistics (NBS). The survey asked questions about the evolution of prices of 'goods and services', and the questions were designed to reflect a concept of inflation the general public are most likely to be familiar with, instead of any specific measures of inflation, like the Consumer Price Index inflation rate.

The questionnaire was therefore couched in a manner to capture the expectations of respondents. The options for questions asked were in ranges of price change, of which respondent households are expected to select one that best suites their expectations. The options were in the form of "Gone Down", "Not Changed, " Up by 1% but less than 3%", "Up by 3%" or Above" and "No Idea".

Respondents were made to answer a total of 14 questions which includes; their thought on how prices had changed in the previous twelve months and how they expect prices to change over the next twelve months, in addition to inquiring from them the body that sets the interest rates. Also range of questions seeking information on public knowledge, understanding and attitudes towards MPC process and expectations of interest rates were asked.

The respondents were also requested to state whether they were satisfied or not with the way the Central Bank of Nigeria is doing its job of setting interest rates in order to control inflation. The survey result showed that 61.1 per cent were satisfied as compared to 60.6 per cent recorded in Q4, 2012. Since public reactions to interest rate movements is likely to be influenced by other factors in the national mood, care must therefore be taken in drawing conclusions from such opinion polls about public perceptions of monetary policy in view of the inherent risk in drawing such conclusion. Furthermore, because households focus on particular types of goods and services when thinking about inflation, variation in the answers may therefore be because respondents are thinking about inflation as it relates to their own patterns of spending in addition to media reports about price trends.

## THE CBN INFLATION ATTITUDES SURVEY

Their understanding of the transmission mechanism of monetary policy may also be another factor to be considered in their opinion about inflation. The rest of the report would discuss in details the developments in the households' inflation rates and interest rates perceptions and expectations.

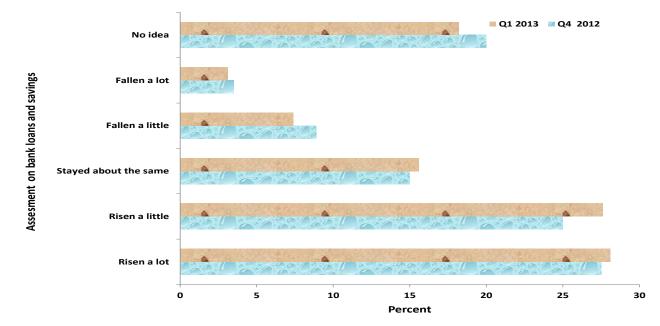

Fig. 3: Households assessment of changes on interest rates in the last 12 months

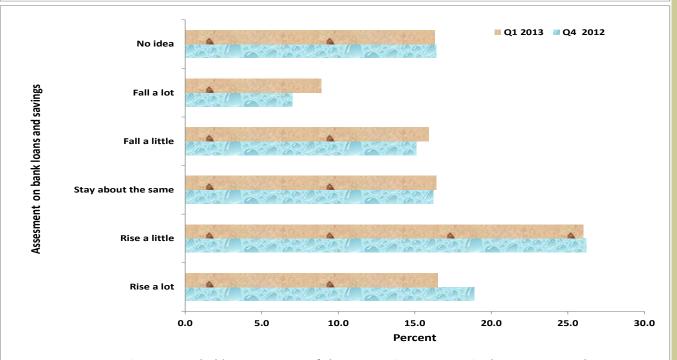

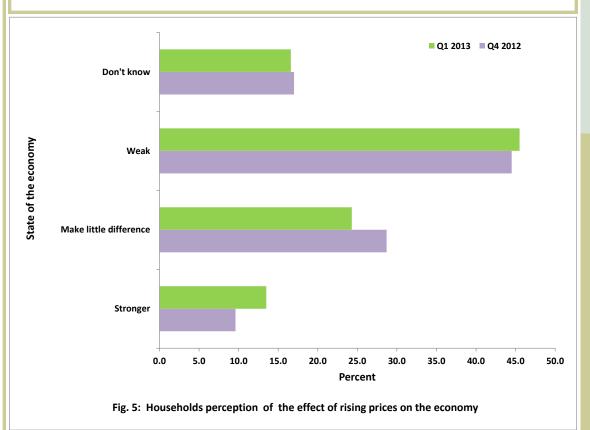

Fig. 4: Households assessment of changes on interest rates in the next 12 months

# 3.0 Knowledge and Expectations Questions

## 3.1 Inflation

"Most respondent households by 45.5 per cent margin, opined that the economy would be weakened if inflation persisted, whereas 24.3 per cent felt it would make little difference in the economy"

The Q1, 2013 survey result showed that by a margin of 45.5 per cent to 13.5 per cent respondent households believed that the economy would end up weaker rather than stronger, if prices started to rise faster than they do now, thereby giving a sizeable support to price stability. Also, about 24.3 per cent of the respondents believed it would make little difference in the economy if prices continue to rise faster than they do now. The result has followed the same pattern since the inception of the survey in Q3 2009 (Question 3). When asked in question 1, to say how prices have changed over the past 12 months, by making a choice from the five banded options on the questionnaire, the respondents gave a median answer of 2.4 per cent, which is consistent with the previous trends.

This however, conceals a wide variation, from 26.4 per cent who thought prices had gone down or not changed, to 35.3 per cent who felt they had risen by at least 3.0 per cent, as well as 25.2 per cent who felt that prices inched up by 1.0 per cent but less than 3.0 per cent. Respondent's median expectations of the price changes over the next twelve months (Question 2) was that prices would inch up by 1.5 per cent.

## THE CBN INFLATION ATTITUDES SURVEY

The views of the respondents on Question 2, on 'how much they expect prices in the shops generally to change over the next 12 months?', showed that 22.9 per cent of the respondent households expect prices to rise by at least 3 per cent in the next 12 months; compared to the 26.2 per cent of respondents that expect prices to rise by 1 per cent but less than 3 per cent in the next 12 months. Similarly, 35.9 per cent of the respondents were optimistic that prices over the next one year would either go down or remain the same. Few people thought that prices were not likely to rise. This pattern has been maintained in all the twelve series of the survey so far conducted.

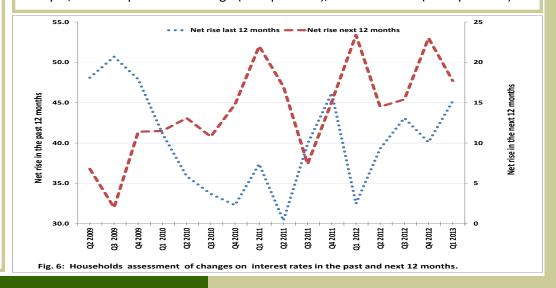

cent of the respondents were of the view that the rates would rise while 10.5 per cent believed it would fall over the next 12 months".

" About 55.7 per

#### 3.2 Interest Rate

(Questions 5 and 6) The percentage of respondent households who felt that interest rate has risen in the last 12 months rose by 3.2 points to 55.7 per cent in the current quarter, from the 52.5 per cent attained in Q4, 2012. On the other hand, 10.5 per cent as against 12.4 per cent of the respondents recorded in Q4, 2012 believed that interest rates had fallen, while about 15.6 per cent of the respondents were of the opinion that the rates stayed about the same level in the last 12 months. The remaining 18.2 per cent of the households had no idea.

Respondents views differed on whether the interest rate will rise or fall over the next 12 months. While 55.7 per cent of the respondents were of the view that the rates would rise, 10.5 per cent believed it would fall. The 'net rise' value of 45.2 per cent was achieved compared to 40.1 and 32.5 per cent attained in the previous and the corresponding quarter a year ago , respectively. Almost, one third of the sample, either expected no change (15.6 per cent), or had no idea (18.2 per cent).

#### **Opinions on the Central Bank of Nigeria** 4.0

Questions 11 & 12

Questions 11 and 12 assess whether people are aware of the way monetary policy works in Nigeria. Question 11 asked respondents if they knew which group of people meets to set Nigeria's basic interest rate level. Responding, 53.0 per cent felt it is Monetary Policy Committee, as against 12.9 per cent for Federal Ministry of Finance and 11.0 per cent who believed it was the Government, about 6.0 per cent felt it was the National Assembly, 1.9 and 15.3 per cent answered 'others', "do not know" respectively.

Question 12 then prompted respondents to identify which group sets the interest rates with a show card containing five options, The result indicated that majority of the respondents 72.8 per cent are aware that Central Bank of Nigeria sets the interest rate. This proportion was higher than the 70.3 per cent recorded in the preceding quarter. Other respondents opined that the Government 7.2 per cent now sets interest rates. About 5.1 and 4.2 per cent of the respondents are of the opinion that civil servants and other banks set the rates, while 10.7 per cent had no idea. This level of proportions have not significantly changed in all the series since the commencement of the survey.

Responding to Question 13 about the nature of the MPC, 27.3 per cent felt that the Committee is a body wholly owned and appointed by the Government, while 27.4 per cent believed that it is an independent body partly appointed by the Government and 9.1 per cent believed that it is completely independent implying, no government role in appointments. However, 23.8 per cent regard the MPC as 'part of the Government'.

Question 14 asks whether respondents are satisfied with the way CBN is 'doing its job to set interest rates to control inflation'. The net satisfaction index—the proportion satisfied minus the proportion dissatisfied was 46.8 per cent as against 48.4 per cent recorded in Q4, 2012. This was lower than the net satisfaction index of 55.7 per cent when compared with the corresponding period a year ago. Among the satisfied group, 22.1 per cent were 'very satisfied' while 39.0 were 'fairly satisfied'. However, 16.5 per cent were 'neither satisfied nor dissatisfied' whereas 14.3 per cent were 'very dissatisfied'. Those who had no idea accounted for 8.0 per cent of the respondents.

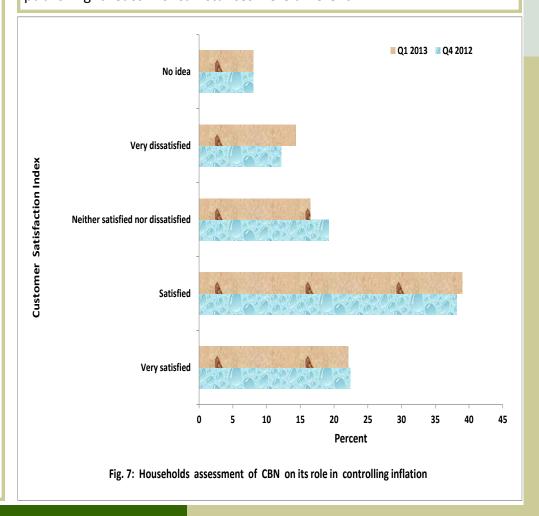

On who sets Nigeria's 'basic interest rate level? (53.0 per cent) felt it was the Monetary Policy Committee, Federal Ministry of Finance (12.9 per cent), the Government (11.0 per cent) while 6.0 per cent felt it is the National Assembly.

## **5.0 Attitude Questions**

More respondents
were of the view
that price increase is
inimical to economic
growth.

## 5.1 Inflation

Question 3 gauges public view in maintaining low and stable inflation. It was asked here whether Nigeria's economy would be stronger, weaker or make little difference if prices started to rise faster than they do now. Responding, 45.5 per cent were of the opinion that Nigeria's economy would end up weaker, about 13.5 per cent felt it would end up stronger, 24.3 per cent believed that it would make little difference, while 16.6 per cent had no idea. This pattern has been fairly maintained over the past eleven series of the survey. The responses suggest considerable support for price stability, as a good number of people were of the view that inflation is inimical to economic growth. It should be noted that public attitudes to this issue was tested during periods of rising unemployment and security challenges. Therefore, these answers may not be a guide to how the public might react if circumstances were different.

## THE CBN INFLATION ATTITUDES SURVEY

Majority of the respondents were of the view that it would be better for the Nigerian economy for interest rates to 'go down'.

Informed in Question 4 that the Government has set an inflation target of 10.0 per cent in this year's budget, 18.2 per cent of the respondents thought that the target was 'about right', 43.8 per cent believe it was 'too high', 16.7 per cent said 'too low' while the rest 21.1 per cent had no idea. This pattern had been relatively steady in all the series so far, and equally maintained in every zone and demographic group, suggestive of their support for low inflation.

### 5.2 Interest rates

Questions 7 and 8 ask the respondents about their opinions on what would be 'best for the Nigerian economy- higher interest rates, lower rates or no change'. In their response to Question 7, 40.9 per cent were of the opinion that it would be best for the Nigerian economy for interest rates to 'go down', whereas 21.4 per cent believed it should 'go up'; 21.7 per cent of the respondents said it will 'make no difference', while 16.0 per cent 'had no idea'. This result has been within the same range since the inception of the survey in Q2 2009.

Respondents were in Question 8 asked what would be 'best for you personally, for interest rates to go up or go down'. Respondents answers showed that 55.6 per cent reported that it would be best for them personally if interest rates go down, while about 19.3 per cent of the respondents opted for higher interest rates. The results further revealed that 18.2 per cent expressed the thought that it would make no difference. The responses to questions 7 and 8 reveal that many people favoured lower interest rates for themselves rather than for the Nigerian economy as a whole. The high lending rates by Deposit Money Banks which discourages borrowing that could serve as catalyst for industrial and economic development could be responsible for the respondents holding such views.

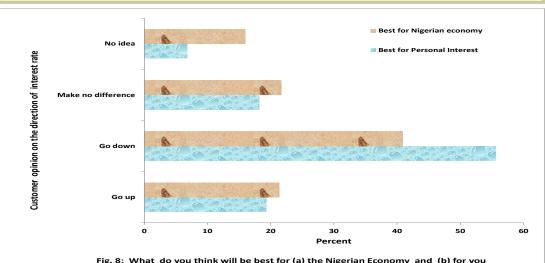

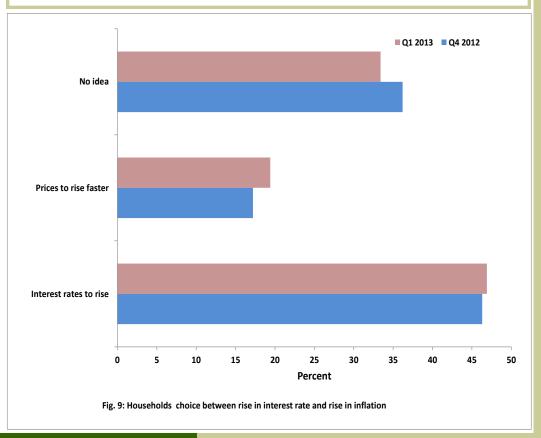

Fig. 8: What do you think will be best for (a) the Nigerian Economy and (b) for you personally, for a change in interest rate in the next few months?

When a trade-off is suggested, more people would accept higher interest rates rather than higher inflation. The margin is a little above two to one; that is 46.9 per cent relative to 19.4 per cent.

## 6.0 Inflation Versus Interest Rate

Question 9 was designed to measure people's understanding of how interest rates would affect changes in prices. In response to what the impact would be, of a rise in interest rates for, (a) in the short term and (b) in the medium term, 60.9 per cent of respondents agreed that 'a rise in interest rates would make prices in the street rise more slowly in short term', as against 15.3 per cent that disagreed. While for the medium term 53.1 per cent of the respondents agreed, that 'a rise in interest rates would make prices in the street rise more slowly, while 19.1 per cent disagreed.

Question 10 asked 'if a choice had to be made, either to raise interest rates to keep inflation down, or keep interest rates down and allow prices in the shops to rise faster; which would you prefer?' Responding, 46.9 per cent of the people preferred interest rates to be higher in order to keep inflation down, compared with only 19.4 per cent who said they would prefer prices in the shop to rise faster. These responses suggest that given a trade-off, most people would accept higher interest rates rather than higher inflation with a margin of more than two to one; and is suggestive of the respondent house-holds support to the Bank's price stability stance.
