## **EXECUTIVE SUMMARY**

The Q4, 2014 Business Expectations Survey (BES) was carried out between the period of October 27-November 5 2014 with a sample size of 1,900 business enterprises nationwide. A response rate of 97.9 per cent was achieved, and the sectors covered during the exercise included Industry, Construction, Wholesale/Retail Trade and Services.

The highlights of the BES report are as follows:

- Respondent firms were optimistic on the macro economy as the business condition in Nigeria was expected to improve in Q4 2014. These optimism was driven by the opinion of respondents from the services sector (9.0 points), followed by wholesale/retail trade (4.6 points), industrial (4.3 points) and construction (0.1 points).
- Respondents' optimism in the volume of total order and the internal liquidity position, buoyed the volume of their business activities in the current quarter. Similarly, the positive outlook in access to credit by the majority of firms upped the financial condition of firms in the review quarter.
- The positive outlook in the volume of business activities of the firms implied improved prospects for employment in the next quarter. The sector with the highest prospect for employment is the services sector followed by wholesale/retail trade , industrial and construction.
- The respondent firms emphasized that insufficient power supply was the major factor constraining the business activity in Q4 2014. Other constraining factors are high interest rate, financial problems, competition, unfavourable economic climate and unfavourable political climate
- Respondent firms expect the naira exchange rate to remain strong in the current and next quarters. They also expect inflation and borrowing rates to rise in both the current and next quarters.

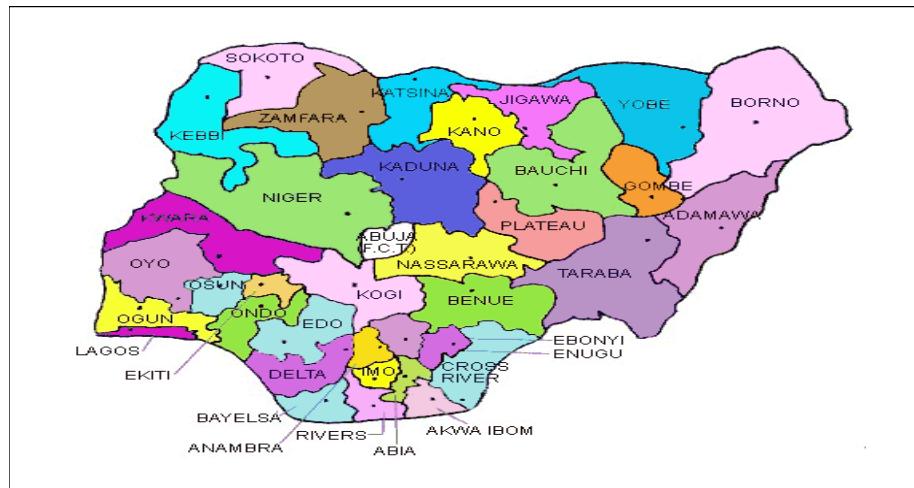

## Business Expectations Survey Fourth Quarter, 2014

The Q4, 2014 Business Expectations Survey (BES)<sup>1</sup> was conducted during the period October 27- November 5 2014. There were 1,900 firms surveyed nationwide, drawn from the updated survey frames of both the Central Bank of Nigeria (CBN) and the National Bureau of Statistics (NBS). The survey produced a response rate of 97.9 per cent in the quarter under review.

The Map and Table 1 below show the sampled states, the sample size and the percentage response rate of the survey.

### *About the Survey.*

*The response  
rate from  
the 1,900  
firms surveyed was  
97.9  
per cent*

**TABLE 1: Distribution of sample size and response rate (%)**

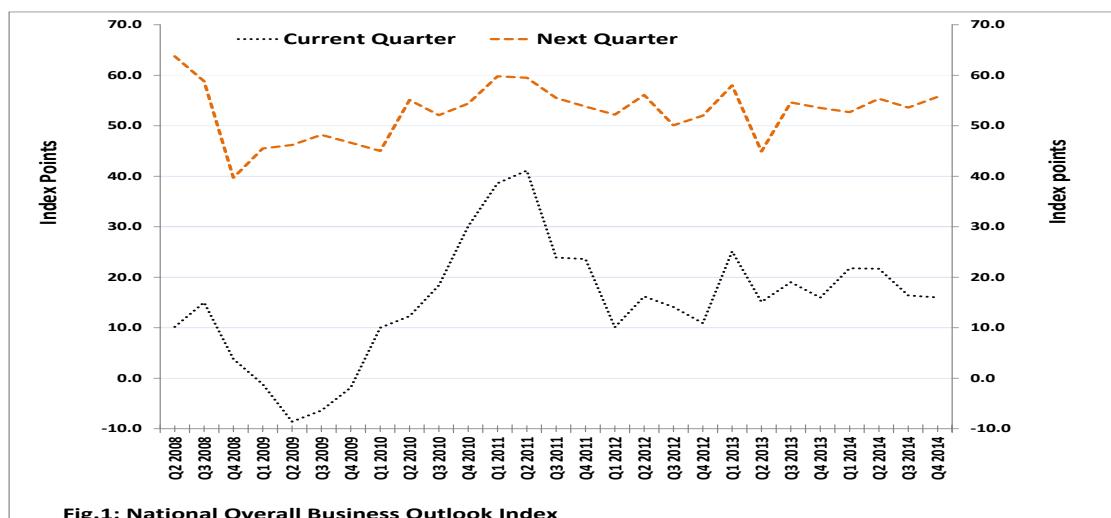

ZONE	SAMPLE STATE	Q4 2014 SAMPLE SIZE	Q4 2014 RESPONSES	Q4 2014 RESPONSE RATE (%)
North Central	Niger, Kwara, Kogi, Abuja, Nassarawa, Benue and Plateau	350	334	95.4
North East	Bauchi, Yobe, Adamawa, Gombe, and Taraba	250	250	100.0
North West	Kaduna, Katsina, Kano, Jigawa, Zamfara, Sokoto and Kebbi	350	346	98.9
South East	Anambra, Enugu, Ebonyi, Imo and Abia	250	248	99.2
South South	Edo, Delta, Rivers, Cross River, Bayelsa and Akwa-Ibom	300	290	96.7
South West	Lagos, Oyo, Ekiti, Osun, Ogun and Ondo	400	393	98.3
<b>TOTAL</b>		<b>1900</b>	<b>1861</b>	<b>97.9</b>

<sup>1</sup>The Business Expectations Survey (BES) is a quarterly survey of leading firms drawn from Business Establishment updated frames of Central Bank of Nigeria and the National Bureau of Statistics. The BES result provides advance indication of change in the overall business activity in the economy and in the various measures of activity of the companies' own operations as well as selected economic indicators.

Respondents were drawn from the Industrial, Construction, Wholesale/Retail Trade and Services sectors made up of: Financial Intermediation, Hotels and Restaurants, Renting and Business Activities and Community and Social Services.

The overall response rate for the quarter, at 97.9 per cent was 0.4 percentage point below the level attained in the previous quarter. A breakdown of the responses received by type of business showed that the “neither importer nor exporter” category of the respondents accounted for the highest of 76.3 per cent followed by the “importer” with 14.1 per cent. “Both Importer and Exporter” respondents accounted for 8.2 per cent, while 1.4 per cent represented the “exporter” category (Table 2 sections 16 & 18).

## Overall Business Outlook on the Macro economy

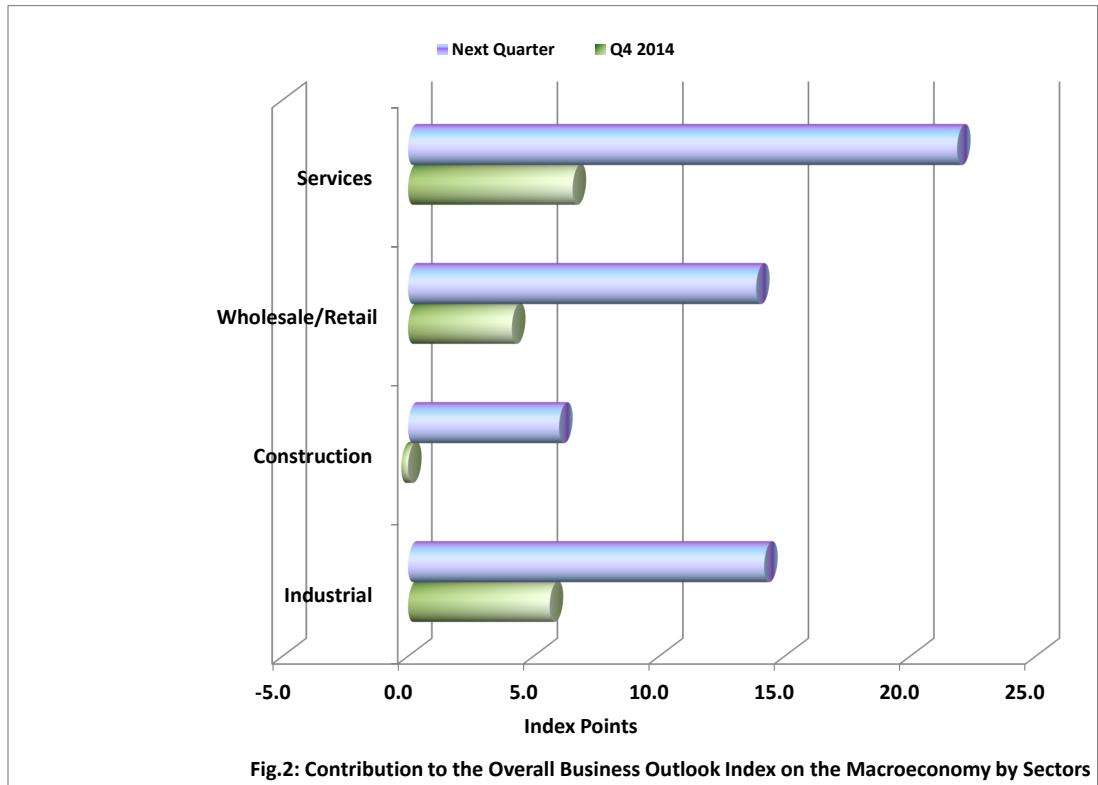

*Respondent firms were optimistic on the macro economy as the business condition index is expected to improve in Q4 2014 and the next quarter.*

The overall confidence index (CI)<sup>2</sup> which stood at 16.0 index points indicates the respondent firms optimism on the macro economy as the business condition in Nigeria is expected to improve in Q4 2014. At 55.7 points, the overall CI for next quarter indicates that the respondents expect that the macro economy would improve.

The optimism in Q4 2014 is driven by the opinion of respondents from the services sector (6.6 points), followed by industrial (5.6 points) and wholesale/retail trade (4.1 points). Also, the expected drivers for the optimism on the macro economy in the next quarter are services (21.9 points), industrial (14.2 points), wholesale/retail trade (13.9 points), and construction sectors (6.0 points) (Table 2, Sections 19& 20).

<sup>2</sup>The CI is computed as the percentage of firms that answered in the affirmative less the percentage of firms that answered in the negative in a given indicator. A positive CI indicates a favourable view, except for the average inflation rate and the average naira borrowing rate, where a positive CI indicates the opposite.

## Macro economy Outlook by Type and Size of Business

The drivers by type of business for the optimism on the macro economy in the current quarter are “neither importer nor exporter” (12.8 per cent), followed by “importer” (2.4 per cent), “exporter” (0.6 per cent) and “ both importer and exporter” (0.3 per cent) (Table 2 Section 23).

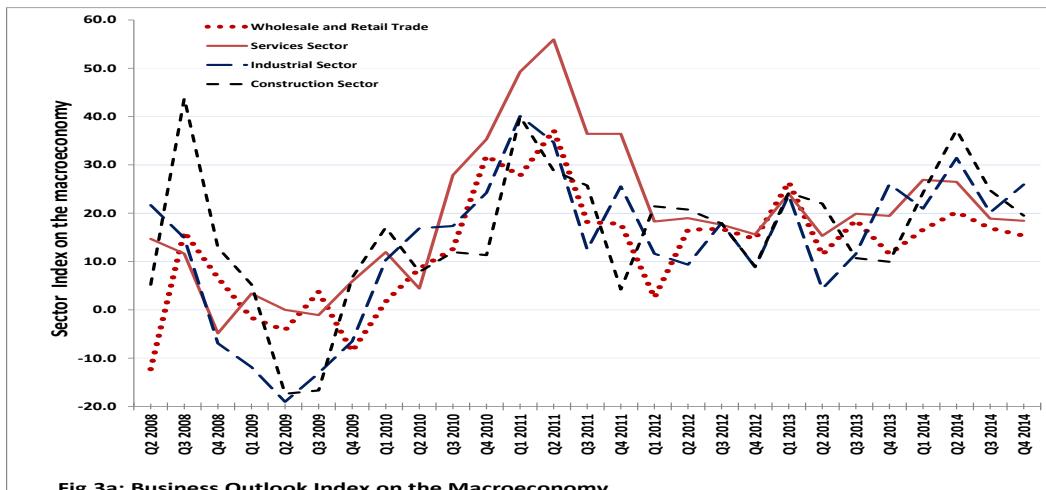

The percentage distribution of respondent firms by type of business shows that “neither importer nor exporter” constitutes the highest percentage of responses (76.3 per cent), followed by “importer” (14.1 per cent), “both importer and exporter” (8.2 per cent) and “exporter” (1.4 per cent) (Table 2 Section 16).

The drivers by size of business for the optimism on the macro economy in the current quarter are the small, medium and large firms whose contributions are 12.5, 2.6 and 0.9 per cent, respectively (Table 2 Section 25).

The percentage distribution of respondent firms by employment size shows that small size firms constitute the highest percentage of responses (78.1 per cent), followed by medium size firms (13.7 per cent), and large size firms ( 8.2 per cent) (Table 2 Section 17).

## Business Outlook Index on the Macroeconomy by Sector

*The business sentiment was upbeat across all sectors except the construction sector in Q4 2014.*

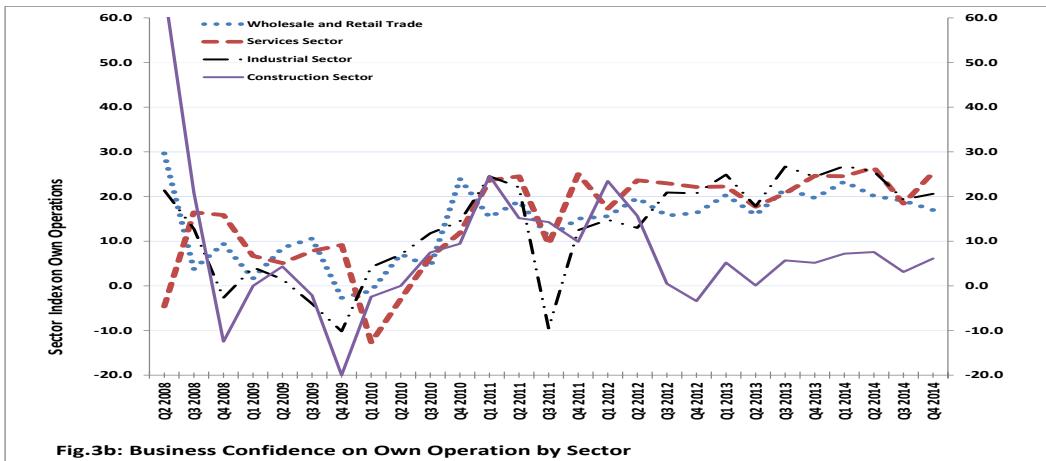

Business sentiment across all sectors was optimistic in the current quarter and likely to remain so in the next quarter. The indices of the industrial, services and wholesale/retail stood at 22.9, 18.4 and 15.3 points, respectively (Fig. 3a). The construction sector was however downbeat at -2.1 points in the review quarter.

The distribution of respondent firms by sector shows that services sector constitutes the highest number of responses (662), followed by wholesale/retail (502), industrial (458) and construction (239) (Table 2 Section 18).

## Business Confidence on Own Operations by Sector

*Business confidence on own operations was less optimistic across all sectors compared with the outlook a year ago.*

The respondents' confidence index on own operations in the current quarter was less optimistic across all sectors when compared to the level a year ago. The confidence index of services, industrial, wholesale/retail trade, and construction sectors stood at 25.4, 17.5, 17.0 and 0.4 in Q4, 2014, from their levels of 24.6, 17.5, 19.7 and 14.6 in the corresponding quarter of 2013, respectively. (Table 2 Section 4).

*Average capacity utilization dipped by 2.3 points in the current quarter when compared with Q4 2013.*

The average capacity utilization index (CUI) at 20.4 points in Q4, 2014 dipped by 2.3 points when compared with the 24.0 points achieved a year earlier (Fig. 4).

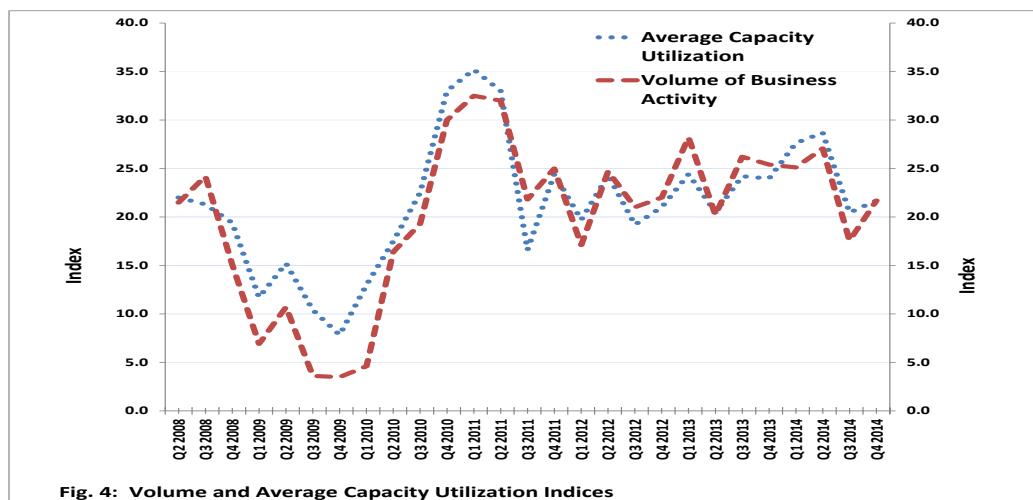

Fig. 4: Volume and Average Capacity Utilization Indices

## Access to Credit and Financial Condition

The financial condition index in the current quarter stood at 18.0 per cent and was driven by the services (9.0 points), wholesale /retail trade (4.6 points), industrial (4.3 points), and construction sector (0.1 points) (Table 2 Sections 5 & 21).

Respondents' optimism in the volume of total order and the internal liquidity position, buoyed the volume of their business activities in the current quarter. Similarly, the positive outlook in access to credit by the majority of firms upped the financial condition of firms in the review quarter (Table 2 Section 5).

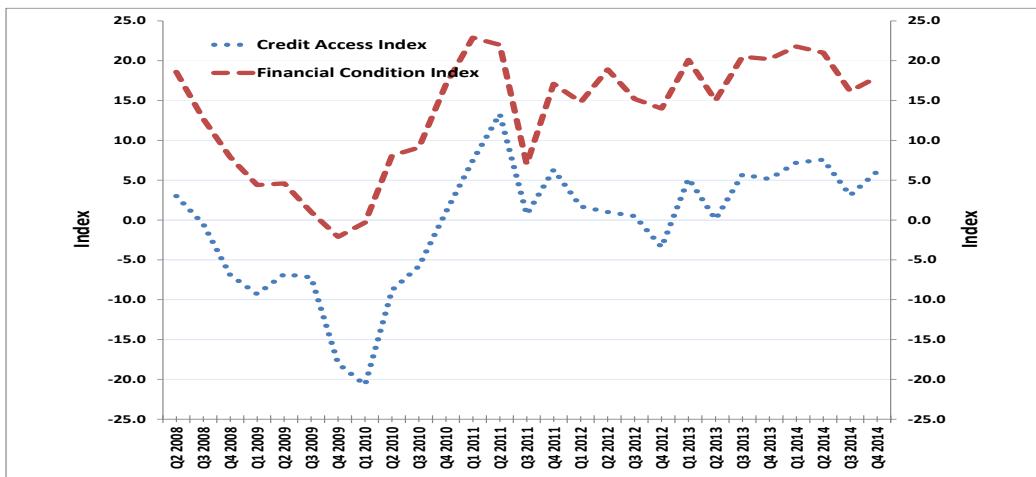

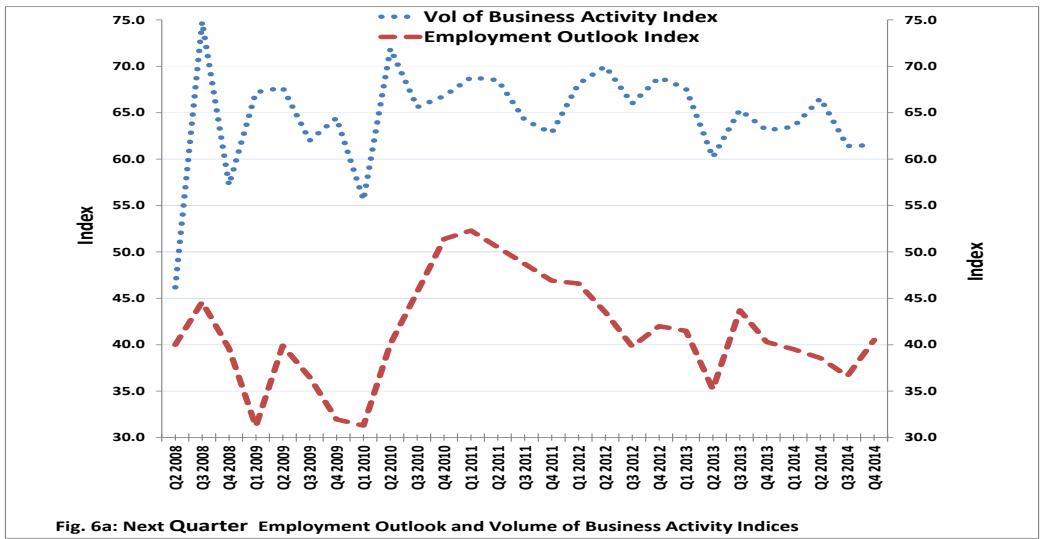

Fig. 5: Business Outlook Index on own operations - Access to Credit and Financial Condition

*The positive outlook of the volume of business activities of the firms suggests higher prospect for employment in the next quarter.*

## Employment and Expansion Plans

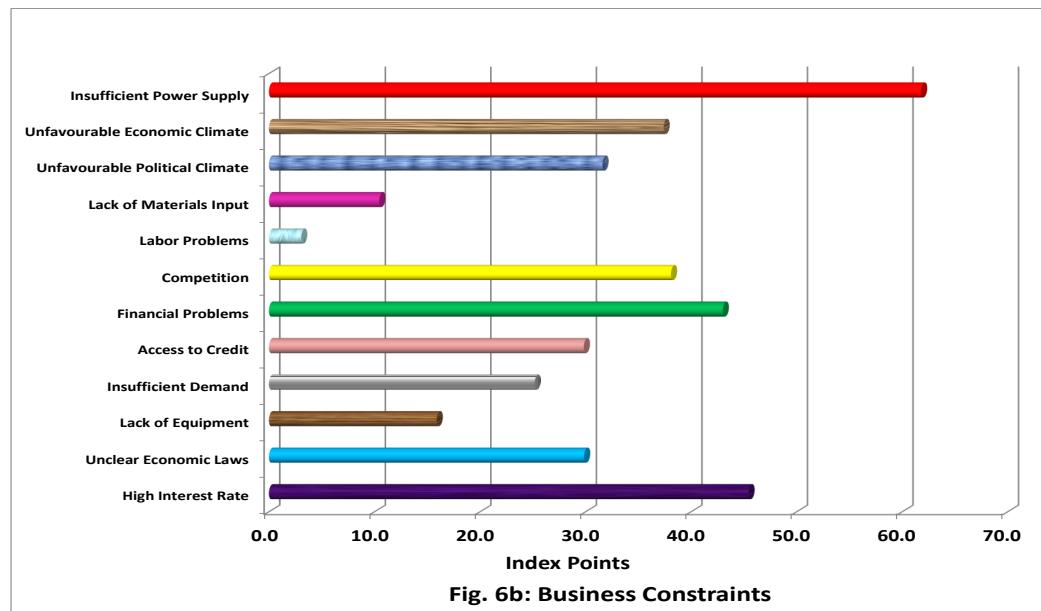

*The employment outlook index by sector shows that the services sector has more prospects for employment in the next quarter.*

At 61.5 index points, the positive outlook in the volume of business activities implied higher prospect for employment in the next quarter, as the employment index stood at 40.5 points. The employment outlook index by sector, shows that the services sector (15.2 per cent) has higher prospect for creating jobs, followed by the Wholesale/retail trade sector (10.5 per cent) Industrial (10.2 per cent) and Construction (4.6 per cent), (Table 2 Sections 6 & 22).

On the analysis of businesses with expansion plans by sector, the wholesale/retail sector indicated higher interest for expansion with an index of 68.7 points, in the next quarter. Similarly, services, construction and industrial firms indicated interest in expanding their businesses in Q3, 2014 with indices of 63.3, 61.0 and 56.1 points, respectively (Table 2 Section 8).

## Business Constraints

*Insufficient power supply, financial problems, competition, unfavourable economic climate and high interest rate, remain major constraints to business in Nigeria.*

The respondent firms emphasized, insufficient power supply (61.8 index points), high interest rate (45.4 index points), financial problems (43.0 index points), financial problems (38.1 index points) and unfavourable economic climate (37.4 index points) as the major factors constraining the business activity in the current quarter (Fig. 6b).

### Expectations on Exchange Rate

*The respondent firms expect the Naira exchange rate to remain strong in the current and next quarters.*

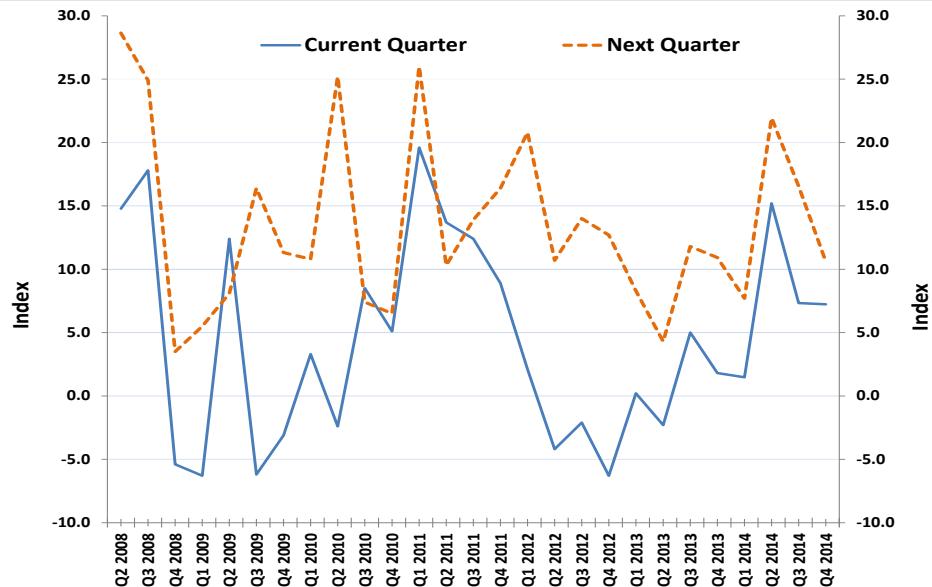

Fig. 6c: All/\$ Exchange Rate Index

Majority of the respondent firms expect the naira exchange rate to remain strong in the current and next quarters, as the confidence indices stood at 7.2 and 10.6 points, respectively (Fig. 6c).

### Expectations on Inflation and Borrowing Rates

*Inflation rate is expected to rise in both the current and next quarters.*

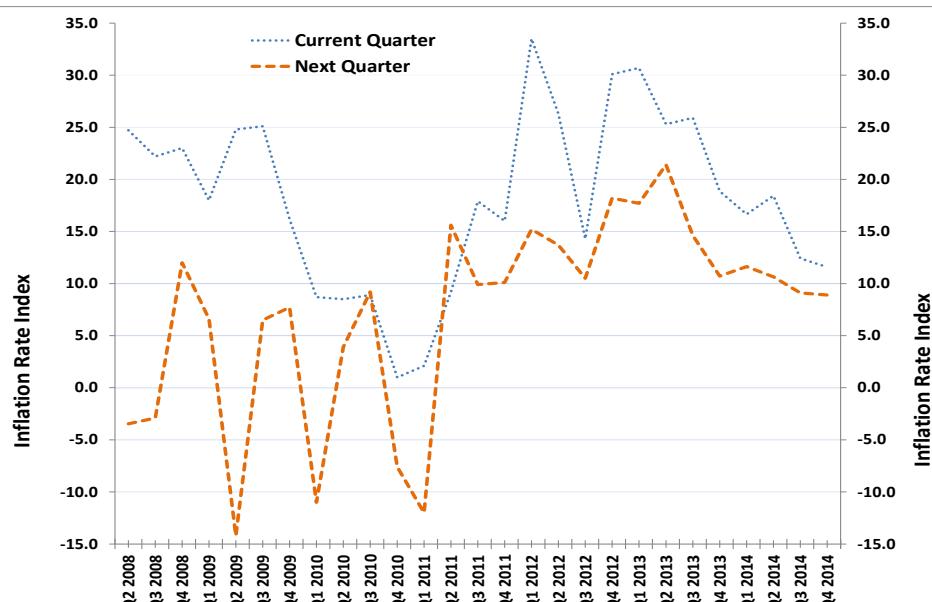

Fig. 7: Inflation Rate Index

Respondent firms expect inflation rate to rise in both the current and next quarters, as the confidence indices stood at 11.6 and 8.9 points, respectively (Fig. 7).

*Borrowing  
rate is expected  
to rise in both  
the current  
and next  
quarters.*

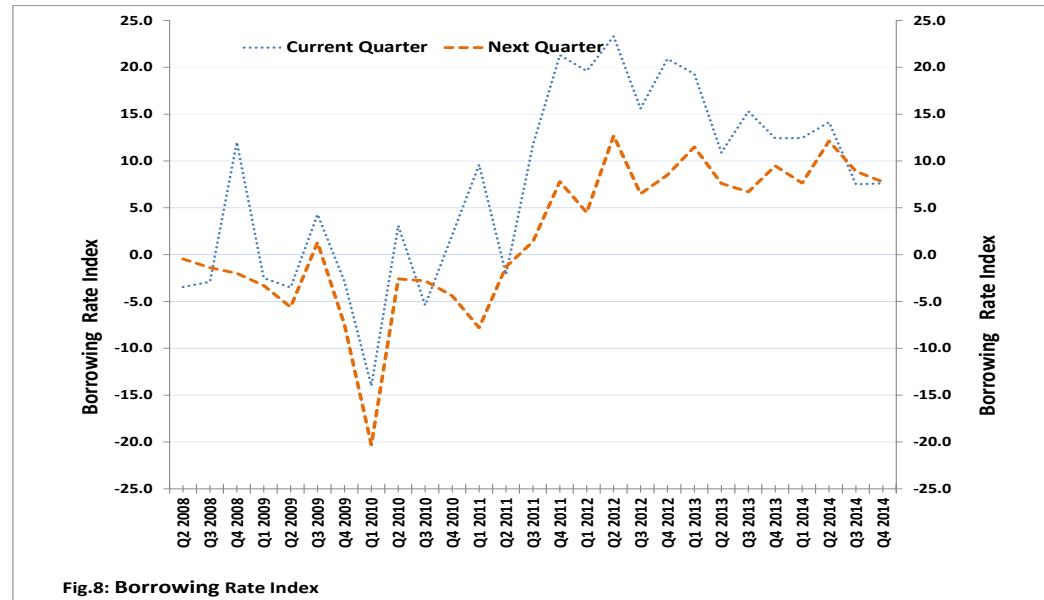

Fig.8: Borrowing Rate Index

Respondent firms expect the borrowing rate to rise in both the current and next quarters as the confidence indices stood at 7.6 and 7.8 points, respectively (Fig. 8).

# Business Expectations Survey

## Q4 2014 North Central Zone

### Business Outlook

Respondents in the North Central zone were more optimistic on business activities in the quarter under review as overall confidence index rose to 30.2 index points, up by 9.6 points above the level achieved in the corresponding quarter of 2013. Similarly, at 65.9 points, respondents were more optimistic about business activities in the next quarter as the index rose by 35.7 points above the level achieved in the current quarter . (Fig. 9).

The optimism in the overall business outlook in the zone were driven by the services(13.2 points), wholesale and retail (9.9 points), industrial sector (6.0 points) and the construction sector (1.2 points) (Table 3 Sections 2 & 14).

Respondents' optimism in the volume of total order and financial condition of the firms in the zone, buoyed the volume of business activity in the current quarter. Similarly, respondents optimism in access to credit by some of the firms would improve the financial condition of firms in the review quarter.

The financial condition (or internal liquidity position) of the firms at 22.8 points in the current quarter was driven by wholesale/retail trade (9.0 points), services (7.8 points), industrial (4.2 points) and construction (1.8 points). (Table 3 sections 4, 5 & 15).

Respondents in the zone cited insufficient power supply, competition, high interest rate, financial problems, unfavourable economic climate and access to credit as major constraints to the growth of business activities (Table 3 Section 8).

Respondent firms in the zone expect naira exchange rate to appreciate in the current and next quarters. They also expect inflation to rise in the current and the next quarter, while borrowing rates is expected to rise in the current and fall in the next quarters (Tables 3 Sections 9 & 10).

The respondent firms by type of business show that “neither importer nor exporter” category constituted the majority with 81.7 per cent, followed by, “importer” 11.7 per cent “both importer and exporter” 4.2 per cent and “exporter” 2.4 per cent (Table 3 Section 11).

## ***Business Expectations Survey***

### ***Q4 2014 North East Zone***

#### **Business Outlook**

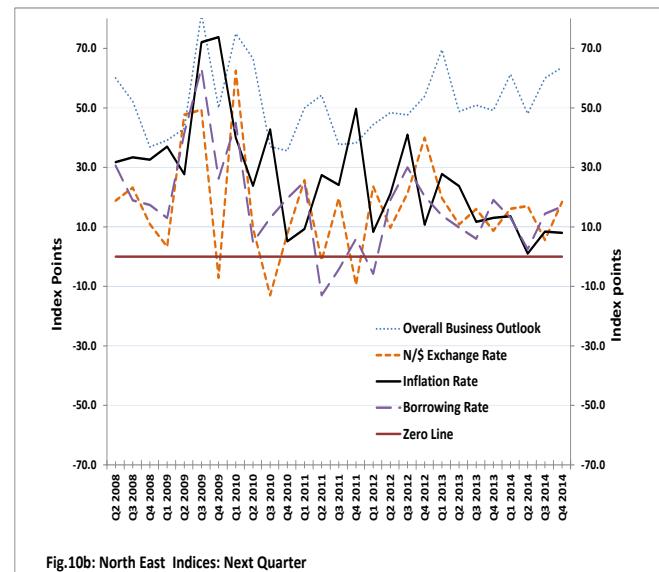

Respondents in the North East zone were more optimistic on business activities in the quarter under review. At 12.8 points overall confidence index dipped by 5.8 index points, compared with the level achieved in the corresponding quarter of 2013. However, respondents were more optimistic about business activities in the next quarter as the index will be expected to rise by 50.8 points above the level achieved in the current quarter (Fig. 10).

The optimism in the overall business outlook in the zone could be adduced to services (6.0 points), industrial (3.6 points), wholesale and retail sectors (3.2 points) and the construction sector (0.0 points) (Table 4 Sections 2 & 14).

The volume of total order and financial condition of the firms in the zone, buoyed the volume of business activity in the current quarter. Similarly, respondent optimism in access to credit by the firms upped their financial condition in the review quarter.

The financial condition (or internal liquidity position) of the firms which stood at 43.2 points in the current quarter was driven by services (20.8 points), wholesale and retail (11.6 points), industrial (6.8 points) and construction sector (4.0 points) sectors (Table 4 Sections 4 & 15).

Respondents in the zone cited insufficient power supply, financial problems, unfavourable economic climate, unfavourable political climate, high interest rate and unclear economic laws as factors limiting the growth of business activities in the zone (Table 4 Section 8).

Respondent firms expect naira exchange rate to appreciate in the current quarter and next quarters. Inflation and borrowing rates, are also expected to rise in both current and next quarters (Tables 4 Sections 9).

The respondent firms by type of business show that “neither importer nor exporter” category constituted the majority with 89.2 per cent, followed by “both importer and exporter” with 5.6 per cent, and “Importer” with 5.2 per cent (Table 4 Section 11).

# Business Expectations Survey

## Q4 2014 North West Zone

### Business Outlook

Respondents in the North West zone were less optimistic on business activities in the quarter under review. At 12.7 points overall confidence index dipped by 6.8 index points, compared with the level achieved in the corresponding quarter of 2013. However, respondents were optimistic about business activities in the next quarter as the index will be expected to rise to 58.7 points from 54.4 points achieved in the current quarter (Fig. 11).

The optimism in the overall business outlook in the zone could be adduced to the contributions of services (6.9 points), industrial (5.8 points), and wholesale and retail (2.0 points) (Table 5 Sections 2 & 14).

The volume of total order book and financial condition of the firms in the zone, buoyed the volume of business activity in the current quarter. Similarly, the optimism in access to credit by the firms upped their financial condition in the review quarter.

The financial condition (or internal liquidity position) of the firms which stood at 10.1 points in the current quarter was driven by services (10.1 points), wholesale/retail (2.0 points), and industrial

sector (0.9 points). (Table 5 Sections 4 & 15).

Respondents in the zone cited insufficient power supply, financial problems, high interest rate, unfavourable economic climate, unclear economic laws, and unfavourable political climate as limiting factors to the growth of business activities (Table 5 Section 8).

Respondent firms expect naira exchange rate to remain strong in the current quarter and the next quarter. However, a rise in both inflation and borrowing rates is expected in the current and next quarters (Table 5 Sections 9 & 10).

The respondent firms by type of business show that “neither importer nor exporter” category constituted the majority with 74.6 per cent, followed by both importer and exporter” 11.8 per cent, “importer” 11.6 per cent “and “exporter” 2.0 per cent (Table 5 Section 11).

# ***Business Expectations Survey***

## ***Q4 2014 South East Zone***

### **Business Outlook**

Respondents in the South East zone were less optimistic on business activities in the quarter under review. At 6.5 points, the overall confidence index dipped by 11.2 index points, compared with the level achieved in the corresponding quarter of 2013. However, respondents were more optimistic about business activities in the next quarter as the index would be expected to rise to 39.5 points from the level achieved in the current quarter (Fig. 12).

The optimism in the overall business outlook in the zone could be adduced to the contributions of services (4.4 points), industrial (4.4 points) and wholesale/retail (1.6 points) (Table 6 Sections 2 & 14).

Though volume of total order book and financial condition of the firms in the zone deteriorated in the current quarter, the volume of business activity in the current quarter remained positive. However, the pessimism in access to credit by the firms worsened their financial condition in the review quarter.

The financial condition (or internal liquidity position) of the firms which stood at -5.6 points in the current quarter was driven by construction (-3.6 points), services (-3.2 points) and

and wholesale/retail (-2.8 points) (Table 6 Sections 4 & 15).

Respondents in the zone cited insufficient power supply, high interest rate, financial problems, access to credit , unfavourable economic climate and unclear economic laws as limiting factors to the growth of business activities (Table 6 Section 8).

Respondent firms expect naira exchange rate to depreciate in the current quarter and appreciate in the next quarter. However, while a rise in inflation rate is expected in the current and next quarters , a rise in borrowing rate is expected in the current quarter while a fall is expected in the next quarter. (Table 6 Section 9 & 10).

The respondent firms by type of business show that “neither importer nor exporter” category constituted the majority with 73.4 per cent, followed by “importer” 19.8 per cent, “both importer and exporter” 6.5 per cent, and “Exporter” 0.4 per cent (Table 6 Section 11).

## Business Expectations Survey

***Q4 2014 South South Zone***

### Business Outlook

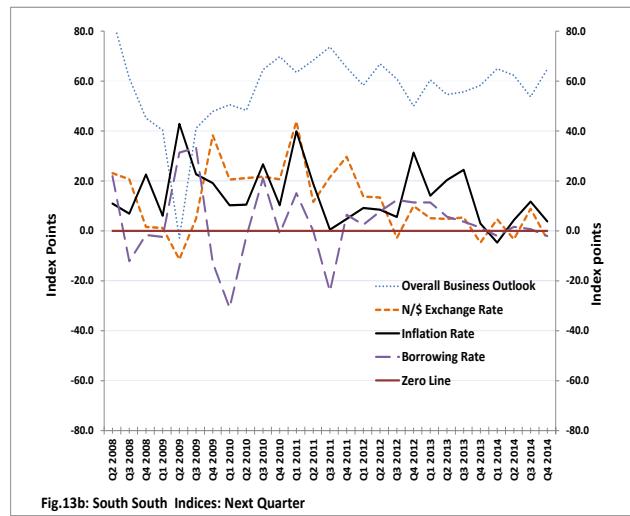

Respondents in the South South zone were more optimistic on business activities in the quarter under review. At 25.2 points, the overall confidence index rose by 2.9 index points, above the level achieved in the corresponding quarter of 2013. Respondents were more optimistic about business activities in the next quarter as the index would be expected to rise to 64.8 points from the level achieved in the current quarter (Fig. 13).

The optimism in the overall business outlook in the zone could be adduced to the contributions of Industrial (9.7 points), services (8.3 points), wholesale/retail (4.5 points) and construction (2.8 points) (Table 7 Sections 2 & 14).

The volume of total order and financial condition of the firms in the zone, buoyed the volume of business activity in the current quarter. Similarly, respondent optimism in access to credit by the firms upped their financial condition in the review quarter.

The financial condition (or internal liquidity position) of the firms which stood at 13.4 points in the current quarter was driven by services (10.3 points) industrial (2.8 points), wholesale/retail trade (0.3 points) and construction (0.0 points) (Table 7 Sections 4 & 15).

Respondents in the zone cited insufficient power supply, competition, unfavourable economic climate, high interest rate, financial problems, and access to credit climate as limiting factors to the growth of business activities (Table 7 Section 8).

Respondent firms expect naira exchange rate to appreciate in the current and depreciate in the next quarter. Similarly, inflation and borrowing rates are expected to rise in the current quarter while inflation is expected to rise in the next quarter , borrowing rate is expected to fall (Table 7 Sections 9 & 10).

The respondent firms by type of business show that “neither importer nor exporter” category constituted the majority with 68.6 per cent, followed by “importer” 19.0 per cent, “both importer and exporter” 9.7 per cent and “exporter” firms 2.8 per cent (Table 7 Section 11).

# Business Expectations Survey

## Q4 2014 South West Zone

### Business Outlook

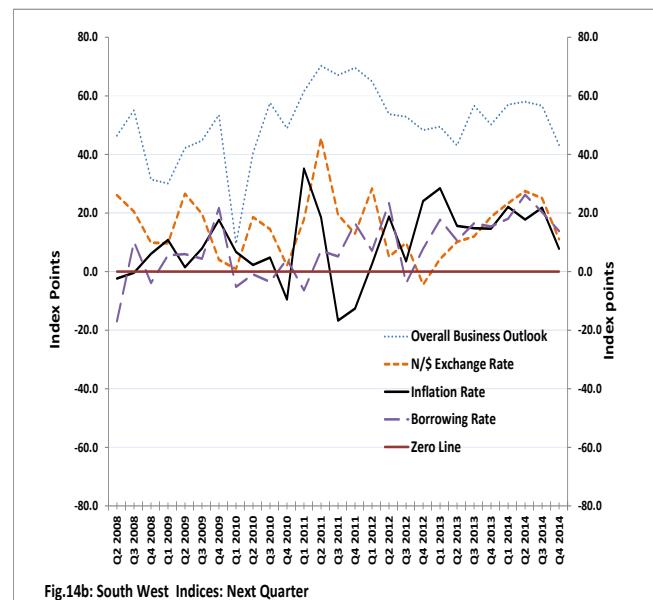

Respondents in the South West zone were less optimistic on business activities in the quarter under review. At 8.3 points, the overall confidence index dipped by 1.3 index points, compared with the level achieved in the corresponding quarter of 2013. Respondents were more optimistic about business activities in the next quarter as the index would be expected to rise to 43.2 points from the level achieved in the current quarter (Fig. 14).

The optimism in the overall business outlook in the zone could be attributed to industrial(4.3 points), wholesale/retail (3.1 points), and services sector (1.0 points) (Table 8 Sections 2 & 14).

The volume of total order and financial condition of the firms in the zone, buoyed the volume of business activity in the current quarter. Similarly, the optimism in access to credit by the firms upped their financial condition and average capacity utilization in the review quarter.

The financial condition (or internal liquidity position) of the firms which stood at 22.9 points in the current quarter was driven by services (8.4 points), industrial ( 7.1 points) and wholesale/retail trade (6.4 points),

construction sector (1.0 points) (Table 8 Sections 4 & 15).

Respondents in the zone cited insufficient power supply, high interest rate, competition, unfavourable economic climate, financial problems and financial problems as limiting factors to the growth of business activities (Table 8 Section 8).

Respondent firms expect naira exchange rate to remain strong in the current and next quarters. However, inflation and borrowing rates in the current and next quarters are expected to rise (Table 8 Sections 9 & 10).

The respondent firms by type of business show that “neither importer nor exporter” category constituted the majority with 72.5 per cent, followed by “importer” 17.0 per cent, “both importer and exporter” 10.0 per cent and “exporter” firms 0.5 per cent (Table 8 Section 11).
