

Business Expectations Survey Report

A Quarterly Publication

First Quarter, 2017

**Statistics Department
Central Bank of Nigeria**

EXECUTIVE SUMMARY

The Q1, 2017 Business Expectations Survey (BES) was carried out during the period January 23rd to February 03rd 2017 with a sample size of 1,950 businesses nationwide. A response rate of 99.5 per cent was achieved during the reporting quarter, and covered the Industry, Construction, Wholesale/Retail Trade and Services sectors.

The highlights of the business expectations report are as follows:

- Respondent firms were pessimistic on the macro economy in Q1 2017. The pessimism was driven by the opinion of respondents from all the sectors: services, industrial, wholesale/retail trade and construction.
- Respondents' pessimism in the volume of total order and their internal liquidity positions (financial conditions), dampened the volume of their business activities in the current quarter. Similarly, respondents' pessimism on access to credit, further lessened their internal liquidity positions in the review quarter.
- Participants indicated a positive outlook in the volume of business activities, as well as improved prospects for employment in the next quarter. The sectors with the prospects for employment were services, wholesale/retail trade, industrial and construction sectors.
- The surveyed firms identified insufficient power supply as the major constraining factor to their business activities in Q1 2017. Other constraining factors were financial problems¹, high interest rate, unfavourable economic climate, unclear economic laws, access to credit, unfavourable political climate, competition and insufficient demand.
- Respondent firms expected the Naira to further weaken in the current and the next quarters. However, inflation and borrowing rates were expected to rise in the current and next quarters.

¹ Difficulty in paying off debts, tax and other financial obligations

Business Expectations Survey

First Quarter, 2017

About the Survey

The Business Expectations Survey (BES)² for Q1 2017 was conducted during the period January 23rd to February 03rd, 2017. A total of 1,950 firms were surveyed nationwide, drawn from the updated survey frames of both the Central Bank of Nigeria (CBN) and the National Bureau of Statistics (NBS). The survey response rate was 99.5 per cent in the quarter under review.

The map below shows all the states in the federation, and the colours depict the six geo-political zones, while table 1 shows the sampled states within the geopolitical zones as well as the sample size and the response rate of the Q1 2017 survey.

²The BES is a quarterly survey of firms drawn from Business Establishments frame of the National Bureau of Statistics. The BES result provides advance indication of change in the overall business activity in the economy and in the various measures of activity of the companies' own operations as well as selected economic indicators.

Respondents were drawn from the Industrial, Construction, Wholesale/Retail trade and Services sectors. The Services sector is made up of Financial Intermediation, Hotels & Restaurants, Renting & Business activities, and Community & Social Services.

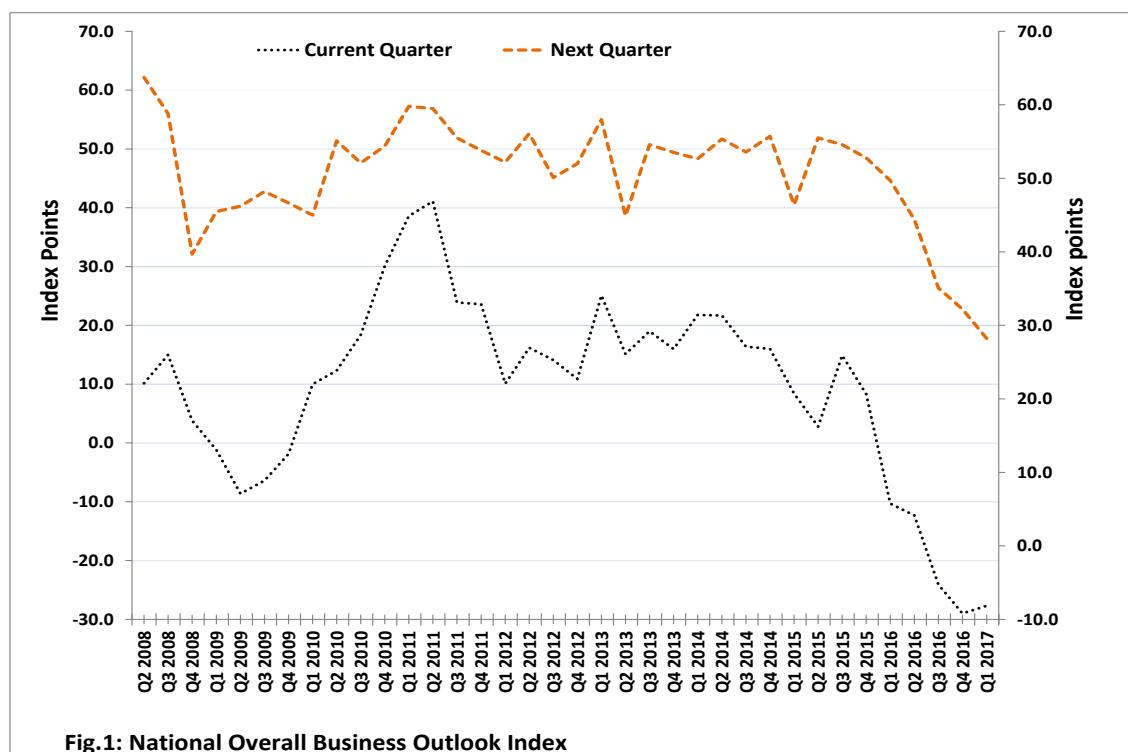

The distribution of firms by sector showed that services sector constituted the highest number of respondents (36.5 per cent), followed by wholesale/retail (26.5 per cent), industrial (24.2 per cent) and construction (12.7 per cent) (Table 2, Sections 18 & 26).

A breakdown of the respondents by type of businesses showed that 16.3 per cent were import-oriented, 2.8 per cent were export-oriented, 7.9 per cent were both import- and export-oriented, and 73.0 per cent were neither import- nor export-oriented (Table 2, sections 16).

The distribution of firms by employment size showed that small size firms constituted 76.3 per cent of responses, medium size firms 16.0 per cent, and large size firms 7.7

Overall Business Outlook on the Macro Economy

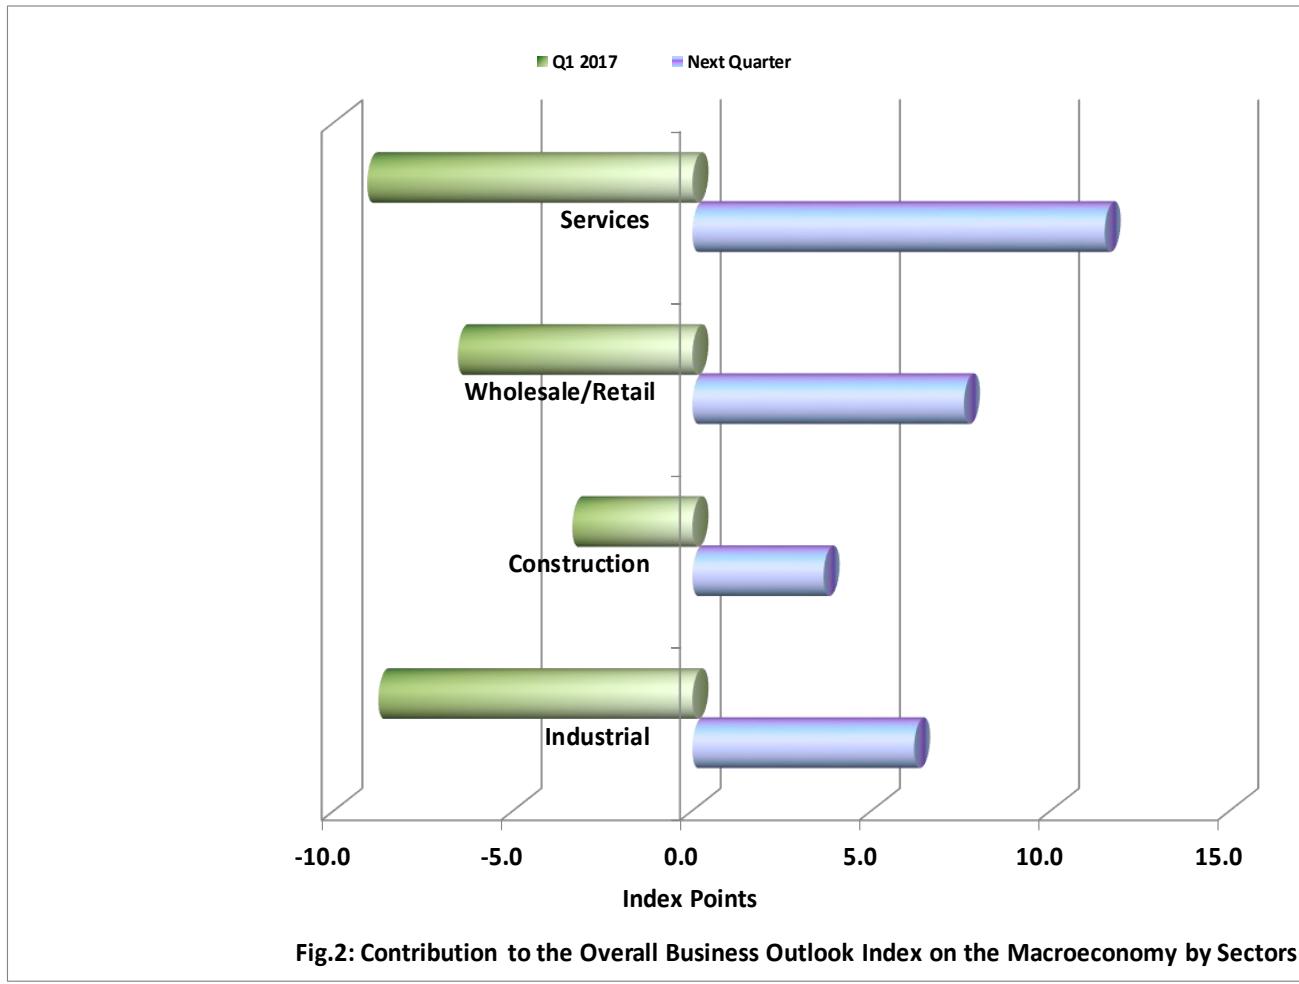

The current confidence index was -27.7 points, indicating respondents' pessimism on the macro economy in Q1, 2017.

The current confidence index (CI)³, which stood at -27.7 points in Q1 2017, indicated respondent firms' pessimism on the macro economy. The gloomy perception of the economy by the respondent firms has persisted since Q4 2015, however at 28.2 points, the next quarter CI points to greater confidence on the

³The CI is computed as the percentage of firms that answered in the affirmative less the percentage of firms that answered in the negative in a given indicator. A positive CI indicates a favourable view, except for the average inflation rate and the average naira borrowing rate, where a positive CI indicates the opposite.

The pessimistic outlook of respondents in the current quarter was driven by the opinion of respondents from services (-9.1 points), industrial (-8.8 points), wholesale/retail trade (-6.5 points) and construction (-3.4 points) sectors. Conversely, the drivers for the optimism on the macro economy in the next quarter are services (11.5 points), wholesale/retail trade (7.6 points), industrial (6.2 points) and construction (3.7 points) sectors (Table 2, Sections 19 & 20).

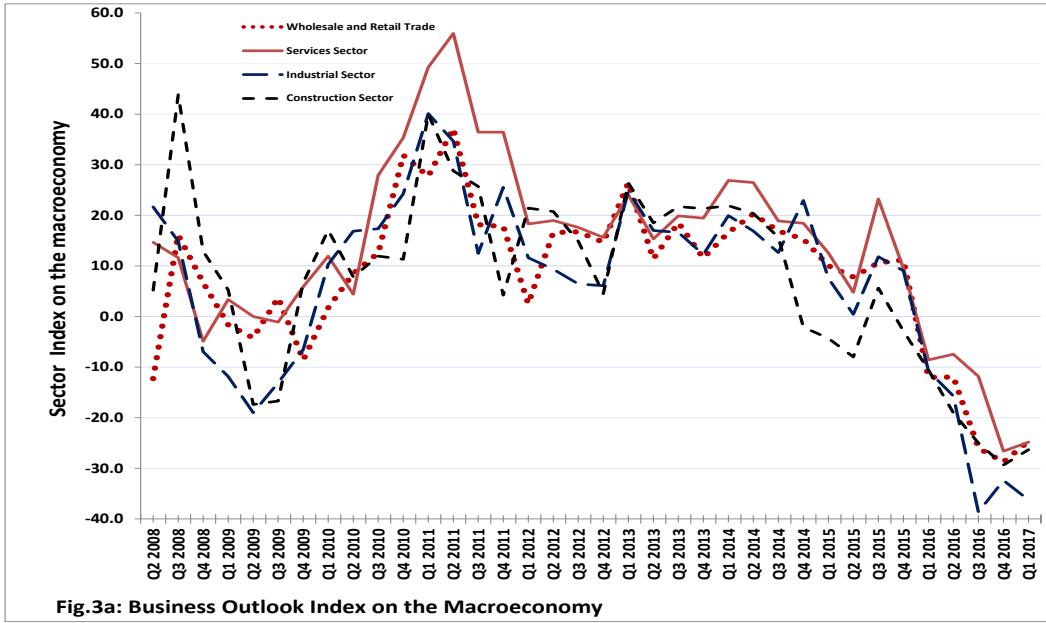

Macro Economy Outlook by Type and Size of Business

The drivers (by type of business) of the pessimism on the macro economy in the current quarter were “neither importer nor exporter” (-18.7 per cent), followed by “importer” (-4.8 per cent) and “both importer & exporter” (-3.4 per cent) (Table 2 Section 23).

The drivers (by size of business) of the pessimism on the macro economy in the current quarter were the small (-22.9 per cent), large (-2.8 per cent) and medium (-2.0 per cent) (Table 2 Section 25).

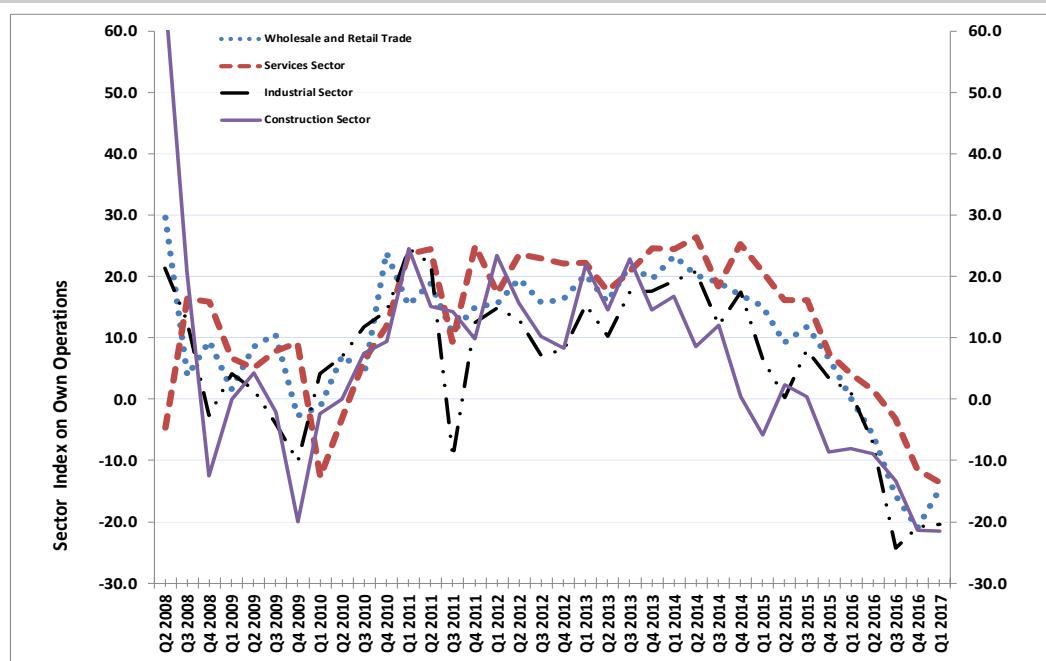

Business sentiment was bearish across all the sectors in Q1 2017.

Business Outlook Index on the Macro Economy by Sector

Business sentiment across all sectors was gloomy in the current quarter. The indices of the industrial, construction, services and wholesale/retail stood at -36.2, -26.3, -24.8 and -24.7 points, respectively (Fig 3a and Table 2, Section 2).

Business Confidence on Own Operations by Sector

Business confidence on own operations was less optimistic across all sectors when compared with the outlook in the corresponding quarter of 2016.

Fig.3b: Business Confidence on Own Operation by Sector

The respondents' confidence index on own operations was less optimistic across all sectors in the current quarter compared with the corresponding quarter of 2016. The confidence indices for construction, industrial, wholesale/retail trade and services sectors stood at -21.5, -20.5, -14.8 and -13.6 in Q1, 2017 as compared to their levels of -8.0, 1.1, 0.0 and 4.1 in the corresponding quarter of 2016, respectively (Fig 3b).

Capacity utilization index stood at -10.2 points in the current quarter as compared to 7.4 points in Q1, 2016.

At -10.2 points, the average capacity utilization index (CUI) in Q1, 2017 plummeted by 17.6 points when compared with the 7.4 points achieved a year earlier (Fig. 4 and Table 2, Section 5).

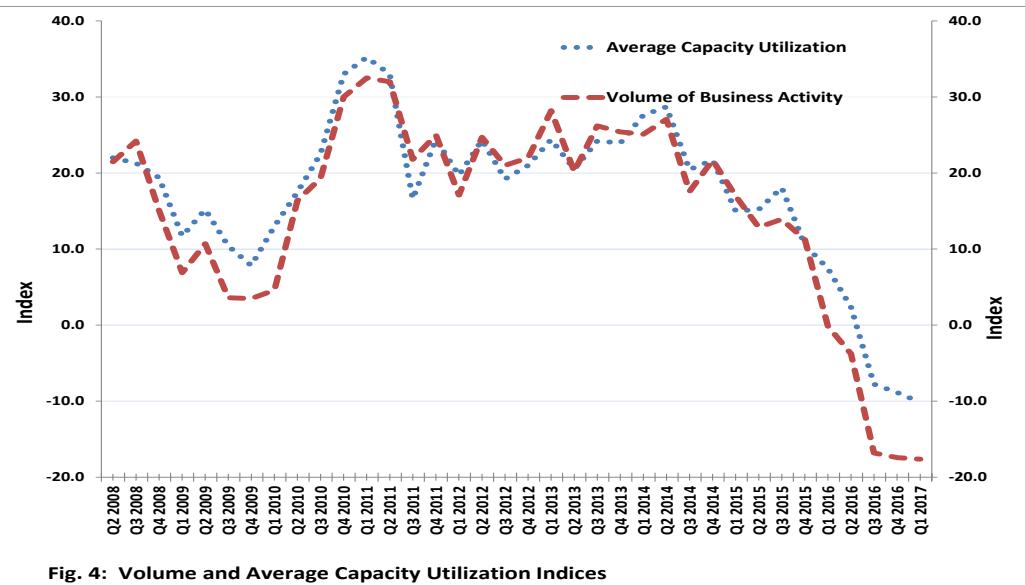

Fig. 4: Volume and Average Capacity Utilization Indices

Access to Credit and Financial Condition

The financial condition index in the current quarter stood at -16.6 per cent and was driven by the services sector (-5.0 points), industrial (-4.9 points), wholesale/retail trade (-3.9 points) and construction (-2.7 points) sectors (Table 2, Sections 5 & 21).

Respondents' pessimism on the volume of total orders and internal liquidity positions (financial conditions), dampened the volume of their business activities in the current quarter. Similarly, their pessimism on access to credit, further lessened their internal liquidity positions in the review quarter (Table 2, Section 5).

Respondents were pessimistic on the volume of business activities and access to credit in the current quarter

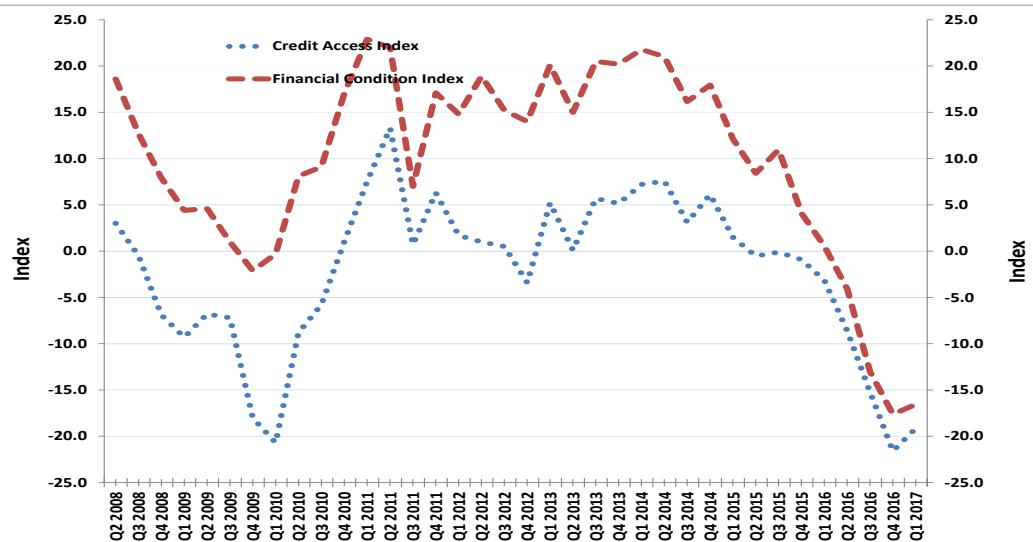

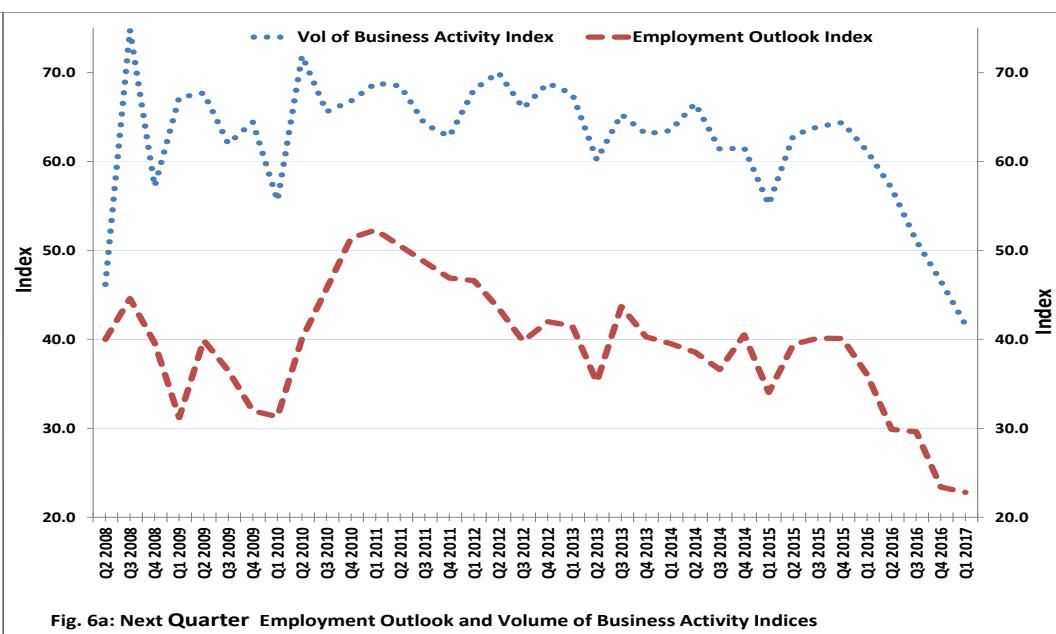

Fig. 5: Business Outlook Index on own operations - Access to Credit and Financial Condition

The positive outlook on the volume of business activities of firms reflects higher prospects for expansion in the next quarter.

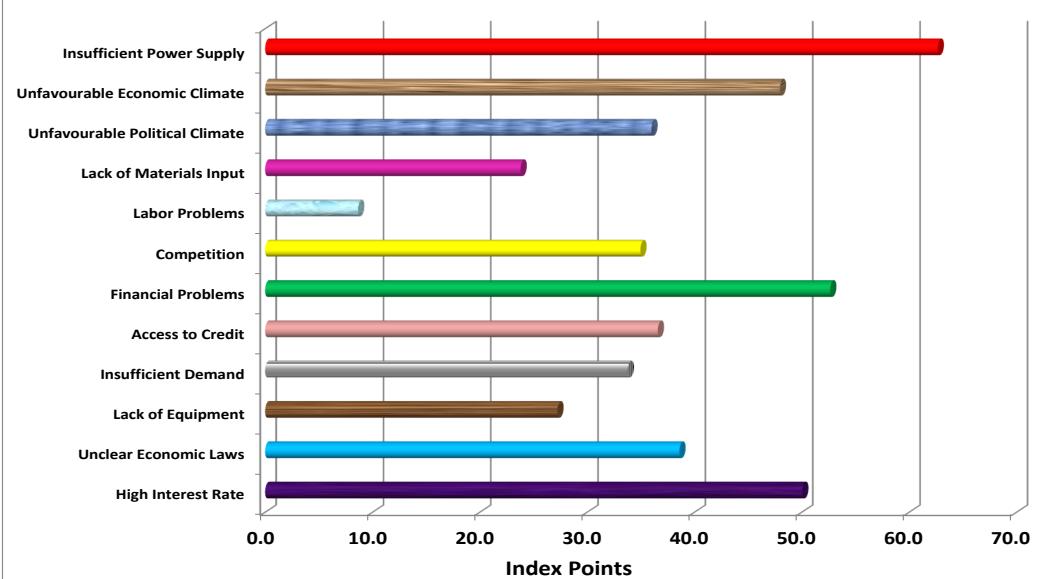

The employment outlook index by sector shows that the services sector has the highest prospects for employment in the next quarter.

Employment and Expansion Plans

At 41.7 index points, the positive outlook in the volume of business activities reflected prospects for expansion in the next quarter. The employment index stood at 22.8 points, indicating a favourable outlook. The employment outlook index by sector, showed that the services sector (10.1 per cent) indicates higher prospects for creating jobs, followed by the wholesale/retail trade (5.6 per cent), industrial (4.6 per cent) and construction (2.5 per cent) sectors (Table 2, Sections 6,7 & 22).

An analysis of businesses with expansion plans by sector in the next quarter showed that the wholesale/retail trade indicates disposition for expansion with an index of 60.8 points. Similarly, services, construction and industrial sector firms registered expansion plans for Q1, 2017 with indices of 60.5, 58.6 and 56.4 points, respectively (Table 2, Section 8).

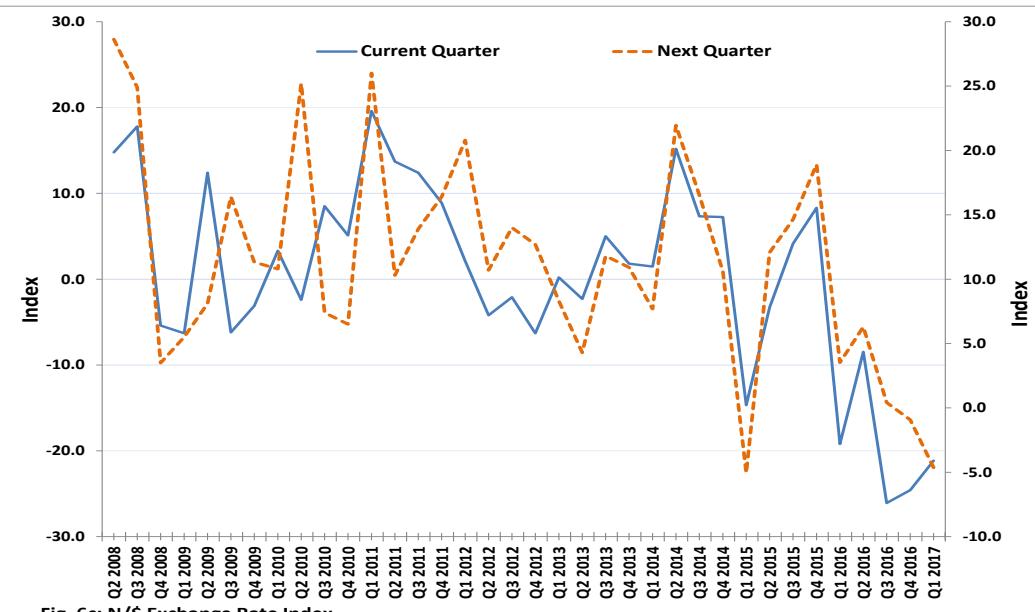

Business Constraints

Insufficient power supply, financial problems, high interest rate and unfavourable economic climate remain major constraints to businesses in Nigeria.

The surveyed firms identified insufficient power supply (62.7 index points), financial problems (52.7 points), high interest rate (50.1 points), unfavourable economic climate (48.0 points), unclear economic laws (38.6 points), access to credit (36.6 point), unfavourable political climate (36.0 points), competition (35.0 points) and insufficient demand (33.8 points) as the major factors constraining business activity in the current quarter (Fig. 6b and Table 2, Section 9).

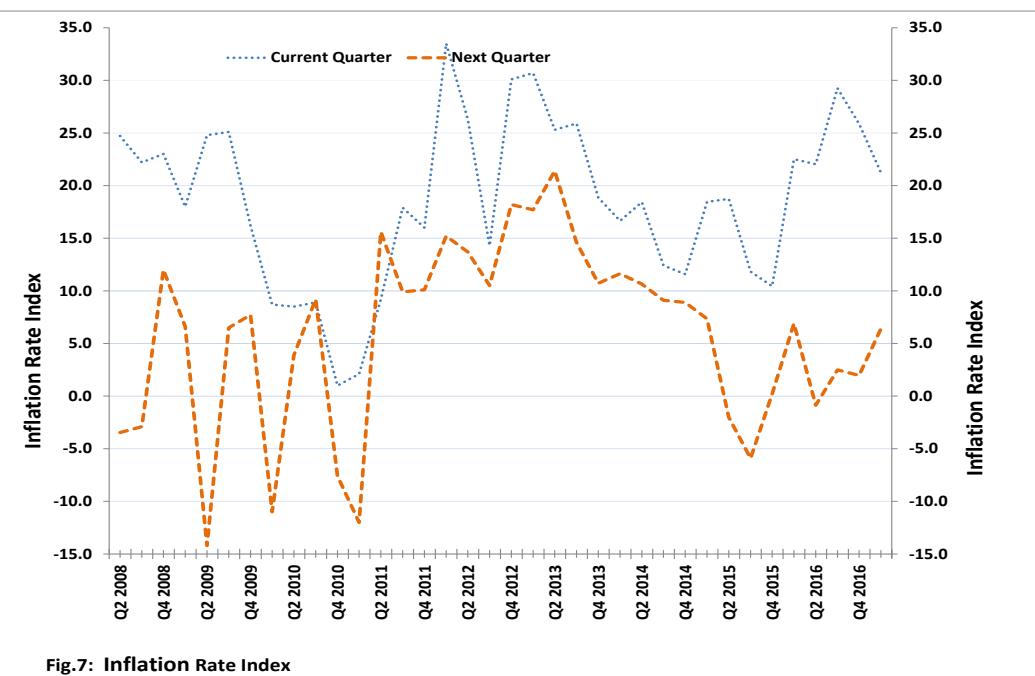

Expectations on Exchange Rate

The surveyed firms expect the naira to depreciate in both the current and the next quarters.

Majority of the respondent firms expect the naira to depreciate in both the current and next quarters, as the confidence indices stood at -21.1 and -4.6 points for the current and next quarter, respectively (Fig. 6c and Table 2, Sections 10 & 11).

Expectations on Inflation and Borrowing Rates

Inflation rate was expected to rise in the current and next quarters.

Respondent firms expected inflation rate to rise in both the current quarter and the next quarter, with confidence indices of 21.2 and 6.4 points for the current and next quarter, respectively (Fig. 7 and Table 2, Sections 10 & 11).

Borrowing rates are expected to rise in both the current quarter and the next quarter.

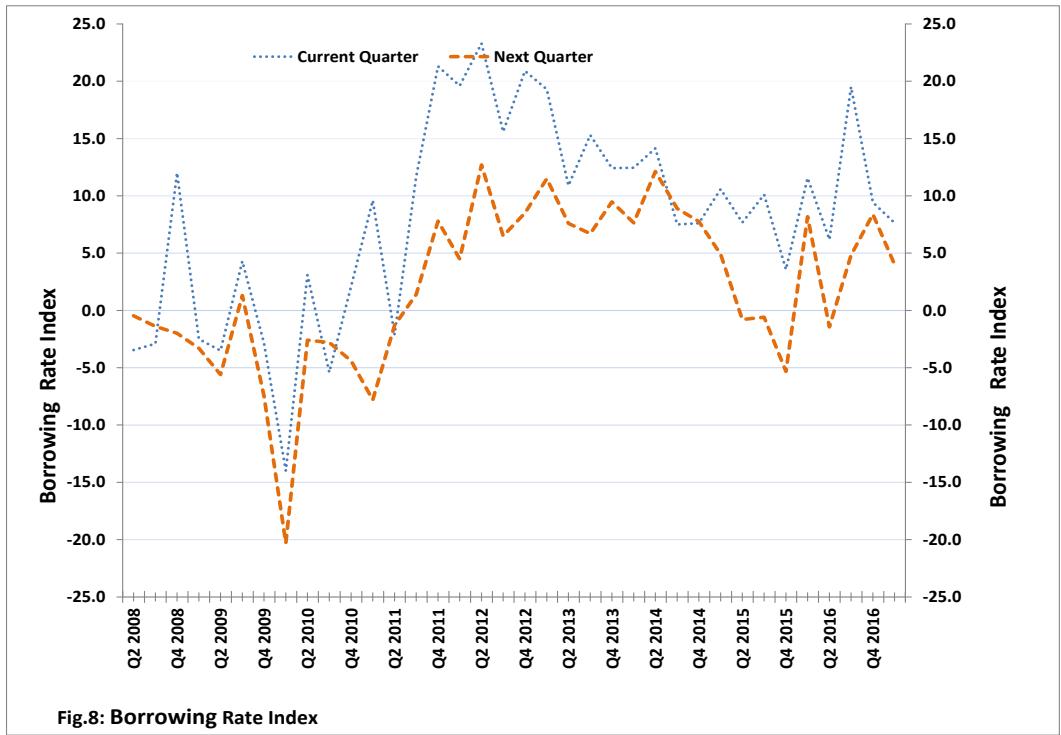

Fig.8: Borrowing Rate Index

Similarly, respondent firms expect the borrowing rate to rise in the current and next quarters as the confidence indices stood at 7.6 and 4.0 points, respectively (Fig. 8 and Table 2, Sections 10 & 11).

Business Expectations Survey

Q1 2017 North Central Zone

Business Outlook

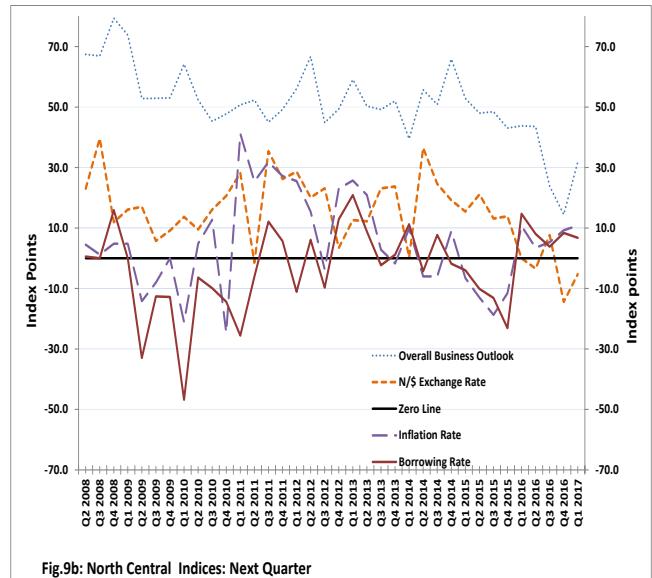

Respondents in the North Central zone were pessimistic on business activities in the review quarter as overall confidence index stood at -25.4 index points, compared to -2.6 index points achieved in the corresponding quarter of 2016. At 31.9 points, respondents were more optimistic about business activities in the next quarter (Fig. 9).

The pessimism in the overall business outlook in the zone was driven by the industrial (-9.4 points) construction (-5.6 points) and services (-5.6 points) while wholesale and retail trade (-5.0 point) sectors (Table 3 Sections 2 & 14).

Respondents' pessimism in the volume of total order and internal liquidity positions (financial conditions), damped the volume of their business activities in the current quarter. Similarly, respondents pessimism on access to credit negatively affected their internal liquidity positions in the review quarter.

The financial condition (internal liquidity position) index of the firms at -18.4 points in the current quarter was driven by services (-8.2 points), industrial (-4.4 points), construction (-3.5 points) and wholesale & retail trade (-2.3 points) (Table 3, Sections 4,5 & 15).

Respondents in the zone cited insufficient power supply, unfavourable economic climate, financial problems and unfavourable political climate as major constraints to the growth of business activities (Table 3 Section 8).

Respondent firms in the zone expected the Naira to depreciate in the current and the next quarters. Similarly, inflation and borrowing rates were expected to rise in the current and next quarters (Table 3 Sections 9 & 10).

The respondent firms by type of business showed that majority of firms in the North-Central Region neither export nor import (80.1 per cent); 10.5 per cent are import-oriented; 7.9 per cent import and export; while 1.5 percent are export-oriented (Table 3 Section 11).

Business Expectations Survey

Q1 2017 North East Zone

Business Outlook

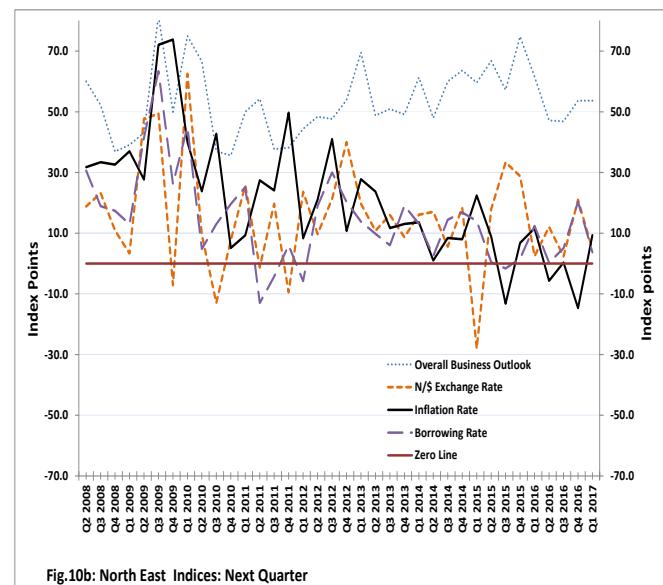

Respondents in the North East zone were pessimistic on business activities in Q1 2017. At -11.0 points, overall confidence index declined by 5.8 index points compared with the level recorded in the corresponding quarter of 2016. Respondents were optimistic about business activities in the next quarter as the index stood at 53.7 points (Fig. 10).

The pessimism in the overall business outlook in the zone could be attributed to industrial (-5.0 points), wholesale and retail trade (-4.7 points) and services sectors (-2.0 points) (Table 4 Sections 2 & 14).

Respondents' pessimism in the volume of total order dampened the volume of their business activities in the current quarter. Although respondents were pessimistic on access to credit, their internal liquidity position improved in the review quarter.

The financial condition (or internal liquidity position) index of the firms which stood at 1.7 points in the current quarter was driven by services (1.3 points) construction (1.0 points) and wholesale & retail trade (0.7 points) (Table 4 Sections 4, 5 & 15).

Respondents in the zone cited insufficient power supply, high interest rate, financial problems, unfavourable economic climate and competition as major factors inhibiting the growth of business activities in the zone (Table 4 Section 8).

Respondent firms expect the Naira to depreciate in the current quarter and appreciate in next quarter. Inflation was expected to rise in the current quarter and fall in next quarter while borrowing rates were expected to rise in both the current and next quarters (Table 4 Sections 9 & 10).

The respondent firms by type of business showed that majority of firms in the North-East Region neither export nor import (87.3 per cent); 9.0 per cent are import-oriented; 6.3 per cent import and export; while 0.7 percent are export-oriented (Table 4 Section 11).

Business Expectations Survey

Q1 2017 North West Zone

Business Outlook

Respondents in the North West zone were pessimistic on business activities in the quarter under review. At -14.3 points, overall confidence index declined by 18.9 index points below the level achieved in the corresponding quarter of 2016. Respondents were optimistic about business activities in the next quarter as the index stood at 41.1 points (Fig. 11 and Table 5 Sections 2 & 14).

The pessimism in the overall business outlook in the zone could be adduced to the contributions of industrial (-8.6 points), wholesale and retail trade (-5.1 points) and services sector (-0.6 points).

Respondents' pessimism in the volume of total order and internal liquidity positions, dampened the volume of their business activities in the current quarter. Similarly, respondents' pessimism on access to credit, further worsened their internal liquidity positions in the review quarter.

The financial condition (or internal liquidity position) of the firms, which stood at -10.6 points in the current quarter, was driven by industrial (-4.0 points) services (-2.3 points), construction (-2.3 points) and wholesale & retail trade (-2.0 points) (Table 5 Sections 5 & 15).

Respondents in the zone cited insufficient power supply, high interest rate, financial problems, unfavourable economic climate and unclear economic laws as the major factors inhibiting the growth of business activities (Table 5 Section 8).

Respondent firms expected the Naira to depreciate in the current and next quarters. Inflation was expected to rise in both quarters, while borrowing rates were expected to rise in the current quarter and decline in the next quarter (Table 5 Sections 9 & 10).

The respondent firms by type of business showed that majority of firms in the North-West Region neither export nor import (67.7 per cent); 16.9 per cent are import-oriented; 12.0 per cent import and export; while 3.4 percent are export-oriented (Table 5 Section 11).

Business Expectations Survey

Q1 2017 South East Zone

Business Outlook

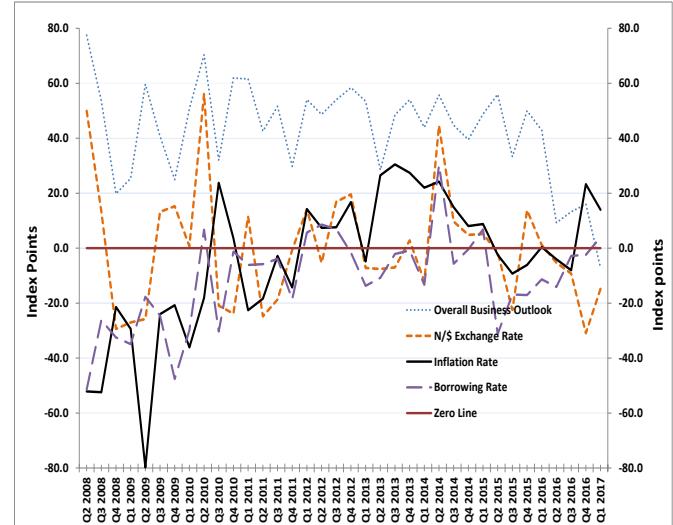

Respondents in the South East zone were pessimistic on business activities in Q1 2017. At -45.2 points, the overall confidence index declined by 27.8 index points, compared with the level achieved in the corresponding quarter of 2016. However, respondents were pessimistic about business activities in the next quarter as the index stood at -7.2 points (Fig. 12).

The pessimism in the overall business outlook in the zone could be adduced to the contributions of services (-16.0 points), wholesale and retail trade (-10.8 points), construction (-9.6 points) and industrial (-8.8 points) (Table 6 Sections 2 & 14).

Respondents' pessimism in the volume of total order and internal liquidity positions, damped the volume of their business activities in the current quarter. Similarly, respondents pessimism on access to credit, further worsened their internal liquidity positions in the review quarter.

The financial condition (or internal liquidity position) index of the firms, which stood at -38.0 points in the current quarter was driven by wholesale and retail trade (-11.6 points), construction (-9.6 points), services (-9.2 points) and industrial sectors (-7.6 points) (Table 6 Sections 5 & 15).

Respondents in the zone cited insufficient power supply, unfavourable economic climate, high interest rate, financial problems and access to credit as the major factors inhibiting the growth of business activities (Table 6 Section 8).

Respondent firms expected the Naira to depreciate in the current and next quarters. Inflation and borrowing rates were expected to rise in the current and the next quarters, (Table 6 Section 9 & 10).

The respondent firms by type of business showed that majority of firms in the South-East Region neither export nor import (60.4 per cent); 21.2 per cent are import-oriented; 11.2 per cent import and export; while 7.2 percent are export-oriented (Table 6 Section 11).

Business Expectations Survey

Q1 2017 South South Zone

Business Outlook

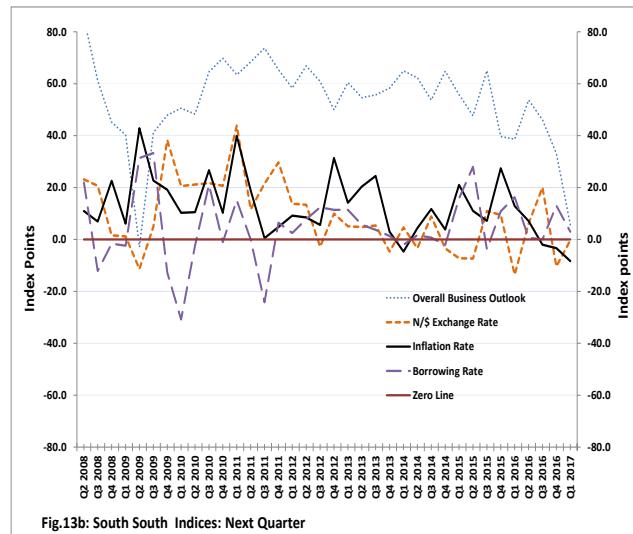

Respondents in the South-South zone were pessimistic on business activities in the current quarter. At -40.0 points, the overall confidence index declined by 25.6 points when compared with the level achieved in the corresponding quarter of 2016. Respondents were optimistic about business activities in the next quarter as the overall business outlook index for the next quarter stood at 5.7 points (Fig. 13b).

The pessimism in the overall business outlook could be attributed to the contribution of services (-19.7 points), industrial (-10.3 points), wholesale/retail trade (-7.0 points) and construction sectors (-3.0 points) (Table 7 Sections 2 & 14).

Respondents' pessimism in the volume of total order and internal liquidity positions, damped the volume of their business activities in the current quarter. Similarly, respondents' pessimism on access to credit further worsened their internal liquidity positions in the review quarter.

The financial condition (internal liquidity position) index of the firms, which stood at -34.3 points in the current quarter, was driven by services (-15.0 points) industrial (-10.0 points), wholesale/retail trade (-6.3 points) and construction (-1.7 points) (Table 7 Sections 5 & 15).

Respondents cited financial problems, insufficient power supply, high interest rate, unfavourable economic climate and access to credit as major factors inhibiting the growth of business activities in the zone (Table 7 Section 8).

Respondent firms expected the Naira to depreciate in the current and next quarters. Inflation was expected to rise in the current quarter and fall in the next quarter, while borrowing rates were expected to decline in the current quarter and rise in the next quarter (Table 7 Sections 9 & 10).

The respondent firms by type of business showed that majority of firms in the South-South Region neither export nor import (69.3 per cent); 23.3 per cent are import-oriented; 5.3 per cent import and export; while 2.0 percent are export-oriented (Table 7 Section 11).

Business Expectations Survey

Q1 2017 South West Zone

Business Outlook

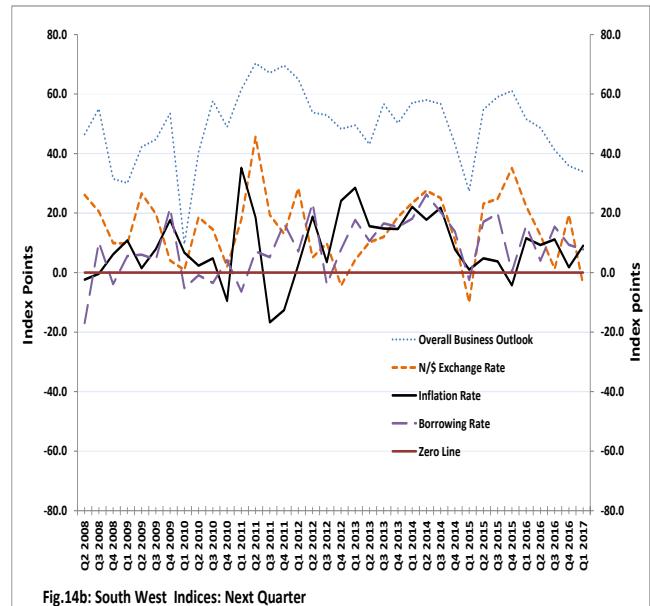

Respondents in the South West zone were pessimistic on business activities in Q1 2017. At -33.9 points, the overall confidence index fell by 23.5 index points, compared with the level achieved in the corresponding quarter of 2016. Respondents were optimistic about business activities in the next quarter as the index stood at 33.9 points (Fig. 14).

The pessimism in the overall business outlook in the zone could be attributed to services (-12.6 points), industrial (-10.1 points), wholesale/retail trade (-7.5 points), and construction sector (-3.8 points) (Table 8 Sections 2 & 14).

Respondents' pessimism in the volume of total order and internal liquidity positions, damped the volume of their business activities in the current quarter. Similarly, respondents pessimism on access to credit, further worsened their internal liquidity positions in the review quarter.

The financial condition (or internal liquidity position) index of the firms, which stood at -8.0 points in the current quarter was driven by wholesale & retail trade (-3.8 points), industrial sector (-3.5 points) and construction (-1.8 points) (Table 8 Sections 5 & 15).

Respondents cited insufficient power supply, high interest rate, financial problems, unfavourable economic climate and competition as factors inhibiting the growth of business activities in the zone (Table 7 Section 8).

Respondent firms expected the Naira to depreciate in both the current and next quarters. Inflation and borrowing rates were expected to rise in both the current and next quarters (Table 7 Sections 9 & 10).

The respondent firms by type of business showed that “neither importer nor exporter” category constituted the majority with 71.4 per cent, followed by “importer” 18.6 per cent, “both importer and exporter” 9.8 per cent and “exporter” firms 0.3 per cent (Table 7 Section 11).

The respondent firms by type of business showed that majority of firms in the South-West Region neither export nor import (71.4 per cent); 18.6 per cent are import-oriented; 9.8 per cent import and export; while 0.3 percent are export-oriented (Table 5 Section 11).
