The Governor, Board and Management of the Central Bank of Nigeria considers Information Security as top priority in all areas of its operations, as this will ensure stakeholder confidence and protection of the Bank’s brand.

The Central Bank of Nigeria (CBN) is committed to preserving the confidentiality, integrity, and availability of all information assets throughout the organization. Information and Information Security requirements will continue to be aligned with organizational goals and the CBN’s Information Security Management System (ISMS). The management system is intended to be an enabling mechanism for information sharing, electronic operations, and reducing information security related risks to an acceptable level.

In pursuit of its primary objectives, the Bank shall establish, implement, maintain and continually improve the ISMS designed to meet the requirements of ISO/IEC 27001:2013 and ensure that:

- Identification, assessment, evaluation, and control of information security-related risks shall be diligently pursued, with adequate resource provision in alignment with CBN’s Risk Management Strategy;

- CBN’s Strategy and ISMS Framework provides the context for identifying, assessing, evaluating and controlling information-related risks through the establishment and maintenance of the ISMS. The information security Risk Assessment, Statement of Applicability and Risk Treatment Plan identify how information-related risks are controlled;

- Information security continuity and contingency plans, data backup procedures, vulnerability management, access control to systems and information security incident reporting are fundamental to this policy;

- The CBN recognizes that technology is dynamic and shall continually assess the impact on the organization and the information security management system;

- CBN promotes an environment where all employees are aware of their Information Security responsibilities and are provided with the resources required to maintain and continually improve the ISMS;

- All employees of CBN and third-party vendors/contractors/suppliers/stakeholders shall have the responsibility of reporting information security breaches;

- All employees of CBN and relevant interested parties identified in the ISMS, shall comply with this policy;

- CBN is committed to setting Information Security objectives for various functions and levels yearly. The Information Security objectives will be set by the various process owners and the achievements measured against predefined level;

- CBN complies with applicable legal, regulatory, contractual and other requirements on Information Security;

- This policy and all other relevant information security policies developed will be communicated and made available to all employees of the organization and to all relevant interested parties;

- CBN is committed to systematic review and continual improvement of the ISMS.
